Dear Sir,-

JP
I am in receipt of two tenders submitted by both John F. Hannon and George Bertrand, for some changes in the electric lighting system at the Lorette Indian Boarding School.

Before these tenders can be given any consideration, I would ask you to please interview Mr. Bertrand and ask him to furnish me with a new tender stating exactly the number of new lights and switches which it is his intention to install in the cellar, second and third floors of the school.

Yours very truly,

(J. D. MOLEAN)

Sir:

I have your letter of the 8th instant, relative to a grant to purchase prizes for the pupils of the Lorette Indian Day School to be awarded to them before the school closes for the coming Summer holidays.

In this connection I have to say that our funds for the present fiscal year are extremely limited, and I regret that it will not be possible to authorize any expenditure in the purchase of prizes for the pupils of Indian schools this year.

EXTRACT from Report of Mr. Inspector A. A. Letarte,
dated March 26th, 1930, on his inspection of the
LORETTE Indian Day School.

Original on File 14-1-6.

Schoolhouse has to be painted. The roof
is still in bad condition, the water goes through at
two places.

The galery was repaired a little last year
but it is not finished.

Pupils' desks have to be repaired or to be
renewed.

There are two inside doors that we cannot
open easily. These doors have to be fixed.

The suggestions that I have to make are to
insist on the above improvements, which are urgent.

Sir:

The Public School Inspector, in a report on his inspection of the Lorette Indian Day School in March, last, states that the roof of the building requires repairs, as the water leaks through in two places. He also states that repairs to the gallery were not finished last fall, and that this work should be done. He further states that repairs are required to the pupils' desks, and that two inside doors that cannot be opened easily should be repaired.

In connection with the above, I have to request that you will report on what repairs are required to the roof and gallery, also the cost of having the work done. You may arrange to have any repairs required made to the pupils' desks, and you should see that the two inside doors are placed in a satisfactory condition. Please furnish the information asked for at an early date, and arrange to have the desks and doors repaired.

Your obedient servant

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Sir,

35.00 / With reference to your letter of the 15th inst., re dayschool, I beg to report that after careful examination, the repairs to the gallery and the roof leakage are estimated at about \$35.00.

These affect a part of the roof of the back verandah, and that under the balcony, where the boards are to be renewed and covered with new shingles.

As for the leakage which eventually, was caused by the ice forming there during the last winters, and also by capillary attraction, a new piece of galvanized sheet iron will probably have to be placed in that angle of the main roof, with wider sides under the shingles. At the same time a search for the passage or loss of heat from the interior which it is thought, strikes about that spot, will be made in order to stop this escape.

25.00 / Furthermore, I will recommend that the whole roof be tarred, as its present condition is certainly in a very bad state; cost about \$25.00.

10.00 / The balcony roof needs a new covering which could be of galvanized sheet iron over the old shingles, and at about the cost of a new shingle covering; cost about \$10.00. The two brick chimneys also need a few minor repairs.

70.00 / In fact, I will recommend that the whole building be painted at the exterior, as by its appearance, several years have elapsed since the last painting. No estimate has been made for the latterwork.

Sir:

I have your letter of the 19th instant, giving an estimate of the cost of the repairs required to the gallery and roof at the Lorette Indian Day School.

In reply I have to say that the Department will approve of your incurring the expenditure required in carrying out the repairs as mentioned in your letter to the gallery and roof. After these repairs have been completed, you may also arrange to have the whole roof tarred and any minor repairs required made to the two chimneys. It is noted you estimate the entire cost of the repairs, including the tarring of the roof, to be approximately \$70.00. It is expected you will see that no unnecessary expense is incurred in having the work mentioned by you carried out. When the work has been completed to your satisfaction, you should forward accounts, in duplicate, properly certified, covering the cost of any material supplied and for the labour in having the work done. These repairs should receive your early attention.

Sir,

I beg to report that the reverend Sisters having left the school reserve for their holidays, have sent in a demand for an extra amount of \$25.00 for extra work done in the classrooms, before their departure.

In fact, I have examined all the school rooms, and found that the floors have been cleaned, oiled and polished, the walls and ceiling scrubbed etc... and that a thorough painstaking cleaning has been made,

I therefore recommend that the above amount be allowed them for this work.

Sir,

A request was made by the Reverend Sisters of the reserve dayschool, for a new kitchen stove for their own use.

In this connection, having had the actual stove examined by a plumber and having investigated myself, I am quite satisfied to say that this stove is unrepairable, being in a very bad state after quite a number of years in use.

OK me

I therefore asked the Reverend Sisters to chose a new one which would serve for their best purposes and I beg to ask of the Department authorisation to purchase same, "Le Petit Rural " at \$75.50 complete. Five dollars will be allowed for the old one, this amount to be deducted from the above price.

EX 4.

Ottawa, October 13, 1931.

ACCOUNTANT
OCT 14 1931

Sir:

I have to acknowledge receipt of a voucher which you submit to the amount of \$28.50 covering the cost of repairing seats at the Lorette Indian Day School. No authority appears to have been granted for the incurring of this expenditure. It is noted that vouchers which have been received from you lately covering the cost of work done or for supplies furnished do not show that any authority was granted for the expenditure shown on the face of the voucher.

In future, I have to request that, before incurring any expenditure which it is intended that the Department will be called upon to pay, authority be first obtained, otherwise the account cannot be paid. Our funds this year are extremely limited, and we can only authorize the most urgent work or absolutely necessary supplies. The account which you submit covering the cost of repairs to the desks will be paid, but, in future, it is expected that you will comply with the Department's requirements before undertaking any work or purchasing supplies.

Your obedient servant,

A. F. MacKenzie

Ottawa, 7th January, 1932.

With Enclosure.

Sir,-

I beg to say the Department received your communication of the 28th ultimo, and the voucher (without a number) for \$2.16 submitted in favour of Terreau & Racine Limited. I have to point out that previously, viz:- on the 30th September, 1931, you sent in this account with others under a voucher made out in favour of Maurice Bastien Fils. The account was rendered at \$14.96, but paid at \$11.21 by cheque No. 3321, on the 8th October. The reduction was due to an error in the electric light bill. The charges were shewn as follows on the sub-voucher (although the voucher was made out for \$7.50) viz:-

May 13th to June 11th		\$1.25	
April 11th " May 13th		1.25	
July 11th " Aug. 11th		1.25	\$3.75.

I return herewith your form letter of the 28th December, which accompanied the voucher for \$2.16 referred to above,

11/3/32

S'il vous plaît nous adresser quelques rapports pour nos classes; nous n'en avons plus et nous devons en remplir, pour le Département, la fin de mars.

Nous avons demandé à Monsieur notre Agent pour faire renouveler, quelques planchers, à la prochaine vacance, dans l'étage supérieur de la maison; c'est une réparation qui serait bien nécessaire; j'espère que sa demande sera bien accueillie et que vous voudrez bien faire faire cette réparation sans retard. Un peu de peinture aussi à l'extérieur et à l'intérieur de quelques appartements maintiendrait notre bâtisse en bon état.

Votre très humble,

Ottawa, March 11, 1932.

Madam:

I have your letter of the 9th instant, regarding the report forms required and also the repairs to the upper floor of the Lorette Indian Day School building.

A supply of forms is being sent to you under separate cover.

Regarding the repairs required, I have to say that, in view of the recent orders for strict economy, it is regretted that the Department will have no funds to carry out any repairs during the coming fiscal year.

Your obedient servant,

Dear Sir:-

You must be aware of the fact that the rooms at the Lorette Convent are made of soft wood and in very bad order.

The nuns wish to get these remade out of hard maple wood. There are two rooms one 24"x9', one 12"x9' and a hall 26'x4½', also two other small places 8'x3' and 3'x3'.

I have asked what would be the total cost, the lowest is 75.00. Hope you can see your way to allow this to an Indian Carpenter, Mr. Narcisse Savard, who is ready to do the work at once.

Thanks.

Yours respectfully.

Village des Hurons,
May 3rd, 1932.

Dear Sir:-

I have been asked the following from the Superior of the Lorette Convent:

- 1% The usual grant of 15.00 for seeds, given each spring.
- 2% A Grant of 10.00 for prizes to be distributed to the worthy pupils at the end of the school term.
- 3% The fence at the back of the Convent is in poor shape and urgent repairs must be done.
- 4% Few glasses are broken at the Convent and must be renewed.
- 5% The upstairs rooms in the Convent, which the walls of one room and floors of all rooms are in a terrible state and need one coat of paint, specially within September as the Bishop of Quebec, is coming to visit our Church and Convent.

All the work enumerated above mean perhaps a total expense of 50.00 so I expect it will be satisfactory with you.

Yours Respectfully,

Ottawa, May 9, 1932.

Sir:

I have your letter of the 3rd instant, regarding the request which you received from the Sister Superior of the Lorette Indian Day School.

15⁰⁰
10⁰⁰
In reply I have to say that the Department will approve of an expenditure not exceeding the sum of \$15 in the purchase of the garden seeds, and you may arrange, after consulting the Reverend Sister as to the seeds required, for the purchase from a firm on the list to receive consideration. The Department will also approve of a grant not exceeding the sum of \$10 in the purchase of prizes for the pupils, to be distributed before the school closes for the coming summer holidays. You should obtain itemized accounts, in duplicate, covering the cost of the seeds and for the prizes. These accounts you should attach to proper voucher forms, certify in the usual manner and send to the Department for payment.

70⁰⁰
50⁰⁰
Regarding the repairs required to the fence at the back of the school and also the replacing of broken glass in the windows, I have to say that the Department will approve of you arranging to have these repairs carried out. We will also approve of you arranging for the painting of the upstairs rooms in the school. You should arrange for the purchase of the paint, and any extra labour required should, if possible, be performed by the Indians. An account, in duplicate, properly certified, should be forwarded by you, after the work has been completed, covering the cost of the repairs to the fence, installing of the glass and painting of the rooms with one coat of paint. The total expenditure for all the above mentioned purposes should not exceed the sum of \$50.

Sir:

I have to acknowledge receipt of voucher to the amount of \$50 covering the cost of seeds, prizes for pupils, repairs and labour at the Lorette Convent. This voucher is being returned herewith, as it is necessary, before payment can be made, that receipts, in triplicate, be received covering the various items of the expenditure. Full particulars should be stated regarding the quantity of paint, wax, turpentine and oil purchased, and details should be given of the work performed by the painter, the number of hours he was employed and the rate per hour.

If the Reverend Sister has made payment of this account, the voucher should be made in her favour and receipted accounts attached, and a cheque will be sent to reimburse her. If, however, the accounts should be paid to the individuals from whom the supplies were purchased, it will be necessary for you to prepare separate vouchers, in triplicate, and attach the accounts. The voucher which you forwarded does not show to whom payment should be made.

With reference to your letter of the 15th instant regarding payment for washing, cleaning, etc., at the Lorette Indian Day School, I would refer you to official letter of August 24th, 1931, in which you were informed that the Department would allow \$50.00 a year for this service.

It is noted that you have included the Reverend Sister Superior's name on the quarterly pay-list. If you have not already forwarded a pay-list for the amount due her for the June quarter, viz., \$12.50, you may do so.

Owing to lack of funds, the Department can only allow for this service the \$50.00 a year previously authorized. I may add that, during the current fiscal year, there is a deduction of 10% from this amount.

EXTRACT from Inspector McGookin's Report of
August 30th, 1932.

The condition of the cellar in the Country Day School was brought to my attention. At the present time water to a depth of two inches covers the floor, making the cellar not only unuseable, but a menace to health. There is a most disagreeable odor from it which spreads through the whole building. I would suggest that Mr. Orr be requested to look into this matter, which I consider urgent, at the earliest opportunity.

Dear Sir:-

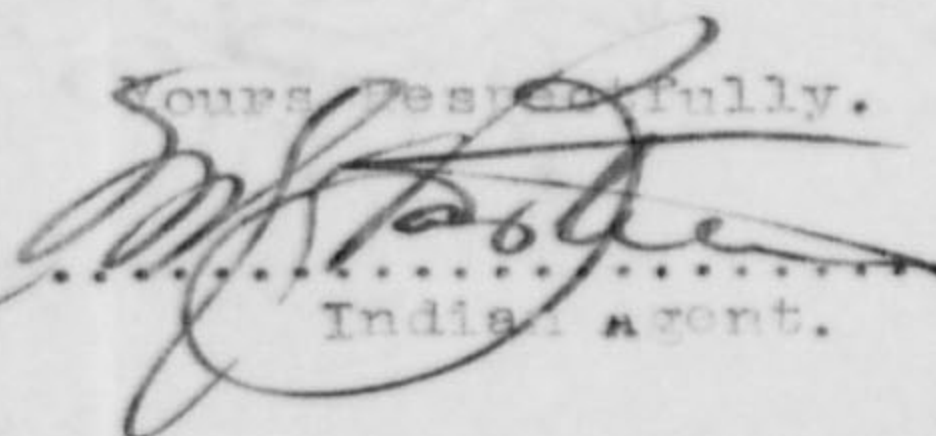

I have had the pleasure recently to meet your
Mr. Mackenzie, and advised him that the roof of the
Lorette Convent, is in a terrible state.

Water is going through the shingle roof,
and will certainly spoil the inside.

I would suggest that a tin roof be put on
before the cold weather sets in, and as the latter
is very cheap at present, the expense would not be
tremendous.

Kindly advise your wishes, and oblige.

Sir:

I have your letter of the 22nd instant, regarding the condition of the roof of the Lorette Indian Day School building.

In reply I have to request that you will state if it would not be possible, by making minor repairs, to place the roof in serviceable condition for the coming winter months. Our funds are so limited that it will not be possible to authorize having metallic roofing placed on the building this fall. Please state the type of roofing at present on the building. If it is shingled, would not a few repairs to prevent leakage during the present fall and winter months be sufficient? Please state the cost of carrying out the repairs that are absolutely urgent at the present time. You might also furnish an estimate of the cost of putting on metallic roofing, in order that we will have complete information when consideration is being given to placing an amount in our Estimates for next year to cover the cost.

An early reply giving the information asked for above is requested.

Dear Sir:-

Yours of the 26th ultimo received, bearing number 14-1-5, and wish to advise that a local carpenter is willing to do the necessary work for this fall, at a cost of 18.00

The Shingles are in a miserable state, but with some new ones in the worst spots, plastic and a few pieces of tin, he will see that it stands the winter months.

note
A new roof, made with number one tin, would cost two hundred and twenty five dollars, or about. So you can base your estimates on the latter for next year, and advise at once as to the former.

Ottawa, November 9, 1932.

Sir:

I have to acknowledge receipt of the account which you have submitted for light supplied to the Lorette School for the period March to September, 1932. In checking these accounts, it is noted that, for the period ended March 11, 1932, there was paid \$1.44, less the discount, or a net amount of \$1.26.

The account for the period March 11 to April 11 was paid at \$2.69. This included an item of \$1.44 arrears. From the information received, it would appear that you have paid twice for the period ended March 11th. Therefore, the account which you submitted should be \$1.44 less. Please prepare a new account totalling \$15.50. The accounts from the Quebec Power Company, which are enclosed, should be attached to your new voucher and returned to the Department.

The Department is in receipt of the enclosed account for \$18.00, in connection with work done at the Lorette Indian Day School by Narcisse Savard.

Before payment can be considered, it will be necessary for you to show on the account the work that was done, the number of days during which Mr. Savard was employed and the rate per day. You should, also, quote on the account the date of the letter authorizing the expenditure, viz., October 17th, 1932.

Dear Sir:-

As in former years, I wish to ask for the following grants, for the early summer:

15.00 for the sewing of the plot surrounding the Lorette Convent.

10.00 for prizes given to the worthy students at the end of the school term.

200.00 for doing necessary repairs to the roads of the Reserve.

Also note that the roof at the Lorette Convent, must be made anew this year, and I recommend a tin roof, the approximate cost to be 150.00 to 200.00. You will remember that this fall we put a few minor repairs, to enable us to stand the winter, with the understanding of a new roof this year. With further reference to your letter of the 23rd ultimo regarding the Lorette Indian Day School, I beg to say that the Department will be unable to authorize the sum of \$15.00 for planting the plot surrounding the school.

There is no provision in our appropriation for an expenditure of \$150 to \$200 for a new roof and this matter will have to stand until next year.

In connection with your request for \$10.00 for prizes, you should make a further application about the first of June, at which time the Department will be in a position to decide what funds, if any, will be available.

Sir,-

With reference to your letter of the 3rd instant, I beg to say that, except in cases of extreme urgency where delay may cause distress, no expenditures should be incurred without first obtaining authority from the Department at Ottawa. Should it be necessary to incur expenditure before departmental authority has been obtained, you should report same immediately to the Department for approval. It is considered, however, that, in the case of the Lorette Indian Day School, it is unlikely that anything will occur of so serious a nature as to necessitate your taking action without securing authority. I may add that telegrams should only be used in cases of extreme urgency.

The Department's funds during the current fiscal year are limited and Indian Agents and teachers are expected to cooperate with departmental officials in keeping expenditure to the lowest possible point.

Dear Sir:-

I have been asked by the principal of the Lorette Convent, to advise you of the following facts:
The fence at the Lorette Convent is in a miserable state, almost torn to pieces. Repairs would cost about 50.00 to make it look like something, a new one would cost 150.00

The stairs where the students go by needs repairs badly, at an approximate cost of 20.00, the roof of the verandah is leaking badly as well as the roof of the Convent, which had few repairs done last fall with the understanding of a new roof this spring, the cost is about 200.00 for the two, as you don't seem to be prepared to do this, you may rest assured that the inside of the Convent will suffer from that.

They also need Cedar oil to repair the floors which have been badly tramped upon, without anything to stand the wear.

Kindly look into this, and advise.

Yours Respectfully.

Sir:

I have your letter of the 9th instant, regarding repairs required to the fence at the Lorette Indian Day School and also the repairs required to the stairs and roof of the convent building.

In this connection I have to say that an officer of this Department will be visiting Lorette at an early date, and, when a report is received from him regarding the requirements, consideration will be given as to what funds can be provided to carry out repairs at this school.

Sir:

On November 3, 1932, you forwarded a voucher, in favour of Bastien Brothers, Loretteville, for electric light used at the Lorette Convent during the months of March to September, 1932. The Auditor General has drawn attention to the difference in the amount charged for the lighting service for the period from July 12, 1932, to August 10, 1932, which amounted, less discount allowed, to the sum of \$7.99, while, during each of the other months, the amount charged was \$1.25. Please inform the Department why there was such an increase in charges for the period July 12th to August 10th, over that charged for the other months. Why was there more electric current required for that period, when the school was closed for holidays, over the other months? Your early reply is requested.

Yours of the 30th ultimo received, and wish to advise that to make an accurate enquiry into this, you must send back electricity accounts stated in yours, including about six monthly accounts with the one for 7.99, which is surely an error.

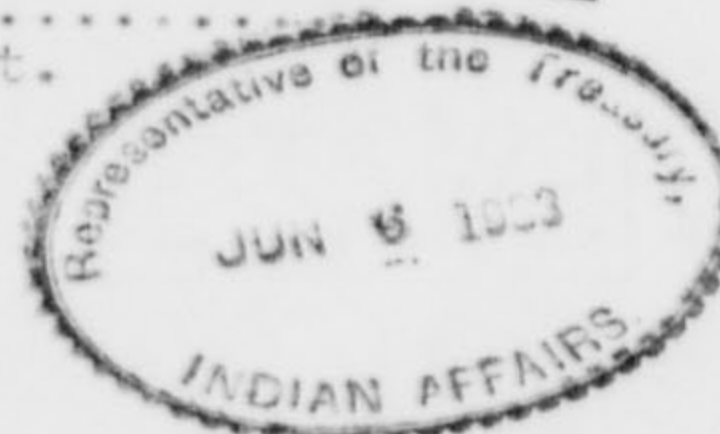

As soon as received, will check that up at once.

Ottawa, June 9, 1933.

Sir:

I have your letter of the first instant, regarding the account which was paid Bastien Brothers, Lorette, for electric light used at the Lorette Convent during the period from July 12, 1932, to August 10, 1932, which amounted, less discount allowed, to the sum of \$7.99.

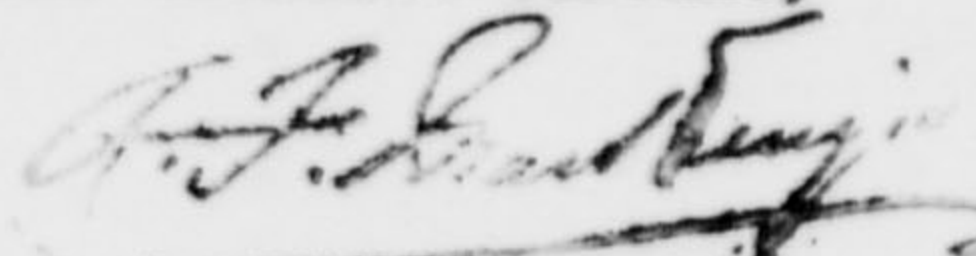

The Department does not consider it necessary to return the accounts, which are at present with the Auditor General. You should interview the Company and ascertain definitely from them and the Sister Superior of the Convent why the amount charged for the period mentioned was so greatly in excess of the accounts usually rendered. The Department desires a full explanation in connection with this matter. The Sister Superior may be able to furnish information as to the excessive use of electric current and you should also interview the Company to ascertain if a mistake was made in the meter reading. If any refund is due, you should obtain same from the Company and forward to the Department with a new account, showing the corrected charge for the period mentioned.

The Department expects you to give this matter your early attention.

Dear Sir:-

Kindly advise as to the following minor repairs
to be done at the Convent:

Door lock out of order. One piece piping broken
in the kitchen, water coming out through it. Two windows
to be puttied. Three windows needing small repairs. Seats
in classes to be repaired. Need of oil on two class floors.
Cloths for washing floors. New roof on the Convent.

All repairs except the new roof, would cost
about ten to twelve dollars. As to the roof I am always
awaiting your answer as to the above, to save the inside of
the Convent.

Thanks.

Sir:

Replying to your letter of the 10th instant, I have to say that, as our Appropriation this year has been so greatly reduced, I regret the Department will be unable to provide any amount for the purpose of purchasing prizes for the pupils of the Lorette Indian Day School, to be presented to them at the end of the present academic year.

You may incur an expenditure, not exceeding \$12.00, in having the minor repairs mentioned in your letter carried out, viz.: repairing of door lock; supplying and installing a piece of broken pipe in the kitchen; the puttying of two windows and the small repairs required to three windows. You may also have the seats in the classroom repaired and the quantity of oil required supplied for oiling the floors of the two classrooms. You should forward an account, in triplicate, properly certified, covering the expenditure incurred in carrying out the above authorized repairs.

With reference to the installing of a new roof, I have to say that it is regretted we will have no funds to provide the cost of having this work performed.

Memorandum:

Mr. Sutherland.

While at Lorette last week my attention was brought to the condition of the cedar shingle roof of the day school convent, which is leaking in many places.

The roof was laid a number of years ago, and I would suggest that if renewed it might be made of galvanized iron shingles, which would cost about \$150.00. Should funds not be available I would recommend that the valleys be made with galvanized iron, and that cedar shingles be replaced where required, which work would cost about \$75.00.

The wire fence around the school lot has partly fallen down, the wooden posts are rotten and the whole offers a very disagreeable site, as it is located on the Queen's highway. A good portion of the wire fencing could be used in the rear of the lot and the sides. I estimate that the cost of reconstructing the entire fence would cost around \$98.00.

The work if authorized could be performed by local Indians.

Monsieur:-

Je veux plus d'informations à propos du compte de lumière pour le Couvent du Village Huron. Tous les comptes habituellement se chiffrent à 1.25 par mois, comme vous pourrez le constater, mais il est arrivé que l'année dernière j'ai payé, du 12 Juillet au 10 Août 1932 un compte de 7.99 alors qu'il n'y avait personne dans le Couvent, les Soeurs étant à St. Damien à la Maison Mère.

Le Gouvernement demande des explications car il y a certainement une grande erreur de votre part.

Quoiqu'il soit vrai que les comptes
pour le Couvent étaient généralement de \$1.25, d'un autre
côté, celui que vous avez payé au mois d'août de \$ 7.99
était pour deux mois et nous sommes certains que le cou-

vous voulez prendre la peine de référer à vos comptes

J'espère que cette explication sera
satisfaisante.

I must ask you again, to reconsider the building of a new roof on the Lorette Convent. From recent visits of Mr. Parker, Mr. Chene and Hon. Mr. Murphy, they have had the occasion to look it up and I am advised by the teachers that during the last storm they have had to put pails all around the Convent, to collect water coming out of the ceiling, it will mean a lot of damage to the building if you don't take care of this now.

Kindly advise your wishes, and oblige.

October 3rd, 1933

Dear Sir:-

I wish to be authorized to buy the necessary articles for the Lorette Convent as in former years, namely soap, coal oil, machine oil, matches, brooms and powder for toilet cleaning. The total would amount to about eight or ten dollars in a year.

They need also new washers on the washing machine, kindly give me your consent. Minor repairs must be done to the electrical system, kindly allow same.

How about the coal, this is urgently needed now?

Thanks for your attention.

Yours respectfully.

Sir:

With reference to your letter of the 3rd instant, I beg to say that you may purchase the soap, coal oil, machine oil, brooms and cleaning powder required at the Lorette Indian Day School. It is noted that the total cost of this will not exceed \$10.

Regarding the new washers on the washing machine and the repairs required to the electrical system, please let the Department have an estimate of the approximate cost.

Concerning the coal, you will be advised under separate cover.

Dear Sir:-

I have your certificate E.R. 876, requisition for reshingling roof of the Lorette Convent with galvanized iron shingles, and find it impossible to do the work at appraisal put up of 150.00. It takes 32 1/2 fathoms of galvanized shingle, the best quality costing 4.20 per fathom, the second quality 3.70 and third quality 3.30. Besides it takes 54 feet of Roof topping at 20 cents per foot, 102 feet of corner shingle at .08 cents per foot, plus 6.00 worth of plain tin and 9.00 of nails, making total of 140.00 for 3rd quality, 152.50 for second quality and 168.50 for first quality.

Besides we have the work which will cost approximately 90.00 to 100.00. So would ask you to determine what should be done and as soon as I hear from you, will give my attention.

The delay was occasioned to that part of your letter where you advised me to get the work done by our Indians, we have only one doing this work and he was away until now. He has left again for two months, so will have to use somebody else.

Memorandum:

Schools Branch.

Please refer to Indian Agent Bastien's letter hereunder, which advised that the cost of renewing the wooden shingle roof of the Lorette Convent with galvanized iron shingles of medium quality will amount to \$252.50.

In my memo of June 20th I mentioned that the work would cost approximately \$150.00. I may say that this estimate was based on information given to me on the ground by Agent Bastien, with the understanding that local Indians would do the work at very little cost. Should there not be funds available to carry out the work using galvanized iron shingles, I would suggest that best quality cedar shingles be used, the cost of which will be within the amount already encumbered.

*Mr. Chene
Only \$150 available
and I ~~have~~ therefore
afforded your suggestion
to use cedar shingles.

Dear Sir,-

Referring to your letter of the 7th instant, concerning the reshingling of the roof of the Lorette School, Lorette Reserve, Que., I beg to request that you arrange to have the reshingling done using wooden shingles.

The work should be carried out in the same manner as previously. I understand that there are some local Indians who are able to undertake this work by day labour, under your supervision,

In order to give this roof greater durability I would suggest that you dip the shingles in some approved kind of creosote stain. Competitive prices should be obtained for the purchase of materials and the accounts should be sent in duly certified by you for payment.

Yours very truly,

A. F. MacKenzie.

Dear Sir:-

I am enclosing for your attention, accounts for new roof on the Lorette Convent. As per yours of the 17th, you gave instructions to use wooden shingles instead of tin, but found a more satisfactory way to do so, they use ~~2~~ first quality tin on the whole top of the Convent, and the repairing of the balance of shingle, for a first class job, on the sides.

I only had one Indian and his son, that could do the job and from informations taken the price is very cheap, as the tin, alone, without work, costs one hundred dollars.

Trusting you will find this satisfactory.

I have your letter of the 25th instant, enclosing an account in favour of Narcisse Savard covering the cost of repairs to the roof of the Lorette School.

In reply I have to say that it will be necessary for you to forward itemized accounts, in triplicate, covering the cost of the material used in the repairs, also full particulars as to the number of hours the Indian and his son were engaged in the work and the amount charged per hour for their services. If Narcisse Savard paid for the materials the accounts should be receipted as paid. When we have the information asked for, consideration will then be given to payment of the account.

I am returning, for amendment, the account which you submitted. Please give full particulars as asked for.

Sir:

With reference to your request, made during your recent visit to the Department, for certain repairs at the Lorette Indian Day School, I beg to say that you may have the closet repaired and also the broken pipe. You may purchase four panes of glass, one spring for door, and an electric light bulb. It is understood, of course, that all the above articles will be purchased at as reasonable a cost as possible and that no unnecessary expenditure will be incurred.

As you were promised when you called at the Department, you may incur an expenditure not exceeding \$6.00 in the purchase of prizes, to be given to the pupils of the Lorette Indian Day School when the school closes at the end of June, next.

Dear Sir:-

As the school term ends tomorrow, we wish to advise of the following work which must be done before reopening same.

1% - The water system doesn't go up to the upper floor, probably through some defect in the piping.

2% - When the Nuns leave the Convent, it must be disinfected against cockroaches which they found this year in the classes, the total disinfection would be about fifty dollars, with gas.

I wish also to get the grant, as in former years, to send to the Commercial Academy of Loretteville twelve boys attending the above school presently, at a cost of \$30.00 a year each, as in former years.

Kindly advise.

Yours Respectfully.

EX. 14.

Ottawa, June 26, 1934.

Sir:

With reference to your letter of the 20th instant, I beg to say that an officer of the Department expects to visit your Agency in the near future, and he will inspect the water system. When he reports, the Department will decide what repairs should be made.

Regarding the cockroaches in the convent, I may say that Bulletin No. 112 of the Department of Agriculture suggests the following:

"Cockroaches may be readily controlled by means of sodium fluoride. This material should be lightly dusted in places frequented by the roaches such as about sinks, baseboards, cupboards, hot water pipes, etc. The sodium fluoride adheres to the legs and antennae of the roaches, and in cleaning themselves the insects are poisoned by it. Sodium fluoride retains its effectiveness and may be left undisturbed as long as convenient or until the cockroaches have completely disappeared. As the chemical is somewhat poisonous reasonable precautions should be taken to prevent children or domestic pets from gaining access to it.

"Two other materials which form the basis of many proprietary roach powders and which often are recommended, are pyrethrum and borax. Pyrethrum insect powder is less effective than sodium fluoride, it loses its effectiveness quickly on exposure to air, and has to be used in larger quantity. Borax, also, is less satisfactory than sodium fluoride. It is easily obtainable, however, and mixed with equal parts of powdered sweet chocolate, is a fairly effective remedy. Superheating and fumigation with hydrocyanic acid gas are also effective in destroying cockroaches. In the case of hydrocyanic acid gas fumigation, however, our experiments indicate that a concentration of gas produced by using 1½ lbs. of calcium cyanide per 1,000 cubic feet, although effective against nymphs and adults, does not destroy the eggs."

You will note from the above that fumigation by gas is not recommended, and, therefore, the Department is not prepared to authorize the expenditure that would be required for this purpose. You may, however, purchase the sodium fluoride which is required. This can be secured at any drugstore, at a low cost.

Sir:-

I beg to report that on the 30th of June I left Ottawa according to your instructions, to inspect the following reserves: Becancour, Pierreville, Lorette, Seven-Islands, Bersimis Restigouche, Maria, Cacouna, Les Escoumains, and Pointe-Bleue which were visited in the order above mentioned.

LORETTE

I visited the school and the Rev. Sister Superior informed me that the water did not reach the second floor, Probably on account of defective piping or perhaps because the pipe is too small. During the rainy season the cellar of the school is flooded and the water having no outlet remains until late in the summer. I believe a drain should be placed in this cellar and I would recommend that it be done during the summer or at least before the Autumn rains.

Camp, des S. de M. de P. Secours
Village Huron, Sept. 8. 1934.
Department of Indian Affairs
Ottawa.

Gentlemen

Kindly receive my sincere thanks for your generosity in delivering the scribbles and other articles requested. Mr. Bastien, Agent, told us that we would receive those missing at the last shipment.

We will continue to encourage the economy of all these effects by having the children appreciate the advantage they have.

I now wish to solicit the authorization to have the small repairs which are necessitated during the course of the school year: W. C. - door knobs, window hooks & fixed school benches - glasses to be replaced.

Some expenditures for the cleaning of the classrooms and washing: brooms - soap - brush - powder or cleansing liquid - door mat - fly traps. The water does not yet reach the upper floor. The heat from the stove which is communicated to the dry reservoir must deteriorate it. On the school room floor we are sometime deprived of water.

I hope you will see as soon as possible to give us satisfaction in this matter and also about the drain to keep our cellar dry and prevent water from running in during the Spring.

I thank you in advance as I rely on your kind attention.

Yours very humbly in O. S.

Ottawa, September 18, 1934.

Sir:

I have your letter of the 10th instant, enclosing a communication from the Sister Superior of the Lorette Convent, requesting certain repairs and materials.

In reply I have to say that you may arrange to have knobs installed on the doors of the water closets, Hooks fixed on windows, window glass replaced where required and school benches repaired. In having these repairs carried out, you should keep the costs as low as possible. You may arrange for the purchase and delivery of 3 brooms, one dozen cakes of soap for cleaning purposes, one brush, 25 lbs. dustbane and one cocoa door mat. Please obtain accounts, in triplicate, covering the cost of the repairs and the materials, which you should certify in the usual manner and forward for payment.

The Sister Superior states that the water does not reach the upper floors - possibly on account of defective piping or perhaps because the pipe is too small. Please submit an estimate of the cost of having the piping renewed or placed in a satisfactory condition, so that an ample supply of water will reach the second floor.

The Sister further draws attention to the condition of the drain from the cellar. Please state if there is any outlet from the cellar to drain off the water. If there is an old drain for this purpose, no doubt it is blocked. If a new drain is required, you should state the length necessary. Please give full particulars regarding this matter and submit an estimate of the cost of either repairing the present drain or installing a new one that would be satisfactory to carry off the water from the cellar.

Our funds this year are extremely limited, and, unless the renewing of the piping for water supply and the installing of a drain are absolutely necessary, favourable consideration could not be given to authorizing the expenditure required in having the work carried out.

Monsieur l'Agent,

Monsieur Gros-Louis
a essayé à trois reprises de réparer le

Je lui ai aussi demandé
pour remplacer le poteau cassé, qui sou-

En me répondant de cher-

Mr. Agent

Mr. Gros-Louis has tried 3 times to repair the hot water tap, of which I spoke to you previously. He says it must be replaced.

I also asked him to replace the post which is holding our clothes line and which is broken. It would be necessary to get a farmer to cut a cedar post and bring it here after it has been sawed. It is difficult for me to find a man and this matter is pressing as the ground will ^{soon} be frozen.

By answering me to get someone myself to do this work you perhaps meant that it should be done at our expense; please tell me so, it would then be another affair.

I hope your health is improving every day.

Ottawa, November 14, 1934.

Sir:

I have to acknowledge receipt of the communication which you forwarded, from the Rev. Sister Superior of the Lorette Indian Day School. In this connection I have to say that you may arrange to have a new hot water tap supplied and installed. You may also arrange for the replacing of the post which holds the clothes line. Please have these repairs carried out as soon as possible, forwarding an account, in triplicate, properly certified, covering the cost.

I have to refer you to official letter of September 18th, last, in which you were requested to supply information and an estimate of the cost, in connection with the defective piping in the water supply system, in order that an ample quantity of water will reach the second floor. You were requested, also, to report concerning the drain from the cellar, stating the cost of any work you would recommend. I would request that you give the information asked for, at an early date.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Dear Sir:-

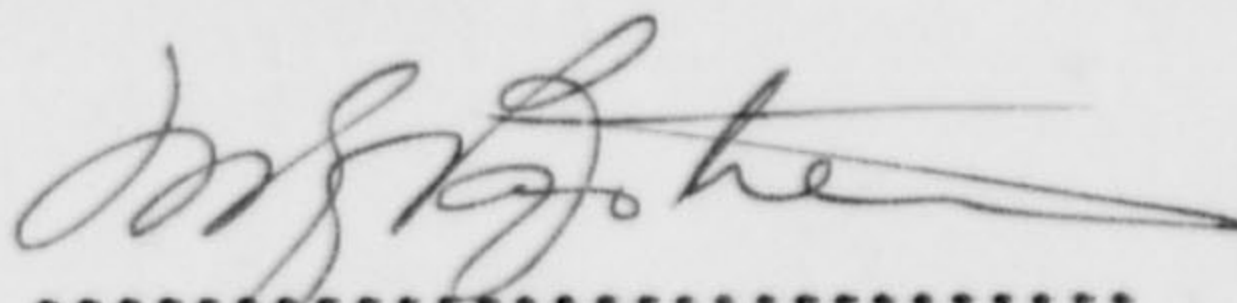

Thanks for yours of the 14th, bearing number 14-1-5,
to which in the last paragraph you refer to a letter written
Sept 18th last.

I may advise that the work instructed to do, has
been done without charge to the Department, as I have used
people under relief to do the job.

Hope this will be satisfactory to you. Thanks.

OFFICE OF

Village des Hurons, Que.
May 9th, 1935.

Dear Sir:-

Wish to advise of the following matters in reference to local Convent. The fence is in a miserable state, most of it is broken down and would cost some \$200.00 for a new one, I propose getting a group of Indians under relief and make them put it up again as well as possible, witen it, this to be done without remuneration, the only part that bothers me is they may have to get a few new boards to replace broken ones at a total cost of some ~~\$10.00~~. The sidewalk leading from the Main Road to the Convent is in the same state and intend to proceed likewise, with your approval.

Could you spend some \$50.00 to ~~\$60.00~~ to repaint part of outside, Indians would also do this without being paid, most of the paint is gone and the need is urgent to save the wood.

I ask you the usual grant of ten dollars for prizes to be given out to students at the end of the school term, this is appreciated so much. I also need a good size rope to tie the flag to the mast here.

Will you give this your immediate attention, and oblige.

Yours Respectfully.

Sir,-

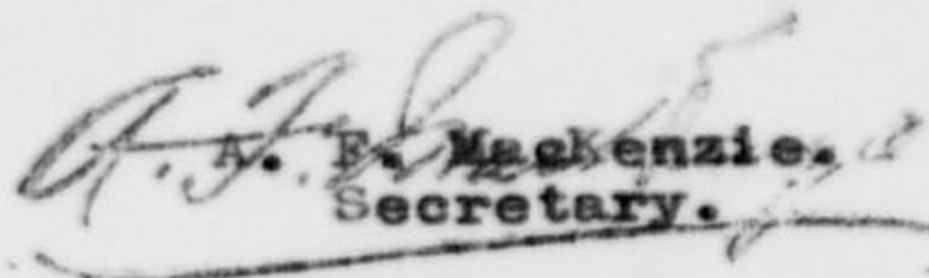

With reference to your letter of the 9th instant, I beg to say that you may arrange for the purchase of the lumber required to repair the fence and the sidewalk at the Lorette Indian Day School. It is noted that the cost of this material will be, approximately, \$10.00, and that the labour will be performed by Indians who are on relief and, consequently, there will be no expense to the Department for labour.

You may, also, expend an amount not exceeding \$60.00 in the purchase of paint. In this case, also, it is noted that the labour will be done by Indians free of cost.

The Department is not prepared to authorize any expenditure this year for the purchase of prizes to be given to the pupils at the end of the school term.

Ottawa, June 15, 1935.

Sir:

I have to acknowledge the receipt of your voucher of the 11th instant, in favour of Bastien Brothers, to reimburse them for the payments made by them to the Quebec Power Company, covering the cost of electric light service to the Lorette Convent for the period from December 2, 1932, to May 15, 1935 - approximately 2½ years.

The Department fails to understand why there has been delay in rendering these accounts. The Appropriations for the fiscal years 1932-33, 1933-34, and 1934-35 have lapsed, and it is therefore extremely difficult to make payments of accounts for expenditures incurred in those years. The Department would like to hear from you as to the reasons for the delay in forwarding accounts.

In future, when you receive these accounts covering the charges for electrical service, you should immediately forward them to the Department, when payment will be made here. You should prepare a voucher, in triplicate, certify same, attaching the account thereto, and forward to the Department for payment. It is expected that you will carry out these instructions, as all accounts for electric light services are paid direct by the Department.

Payment of the voucher which you now submit is being withheld until a full explanation is received from you, regarding the delay in forwarding these accounts. The Auditor General may take exception to payment covering such a long period of time.

Your obedient servant,

A. F. MacKenzie

Ottawa, June 27, 1935.

Sir:

I have to acknowledge receipt of your letter of the 17th instant, regarding the voucher which you submitted in favour of Bastien Brothers, to reimburse them for payments made by them covering the cost of electric light service to the Lorette Indian Convent for the period from December 2, 1932, to May 15, 1935.

It is necessary to return the voucher, with the receipted accounts attached. It is noted that some of the accounts show a minimum charge of \$1.00, while on others the minimum charge is \$1.25. We are not aware why there should be this variation in these charges. I would request that you obtain a copy of the contract from the Quebec Power Company setting forth their rates, and forward same to the Department.

It is noted that several of the accounts show arrears. I may say that the Treasury Department will not pay arrears on electric light accounts. A number of the accounts do not show that the discount allowed was obtained. In any reimbursement, it will be necessary to deduct the discount.

It appears that accounts for the following months are missing: May, July, August and October, 1933; May, July and December, 1934, and January, 1935. The account for August, 1934, shows an overpayment of \$1.50, and the account for October, 1934, shows a credit of 50 cents. An explanation should be given regarding these two accounts. If you paid these missing accounts, you should obtain copies, certify that they have been paid, and prepare a new voucher, in triplicate, for the amount due, which you should also certify and forward to the Department. You should also furnish an explanation regarding the other accounts referred to.

You will see the difficulty there is in making payment of these delayed accounts, as it is not always possible, at this late date, to make any correction of errors. However, you should furnish full explanations as requested, and return the accounts, with a voucher attached, when consideration will be given to payment.

A. F. MacKenzie,
Secretary.

The back verandah at the Convent needs repairs, the floor is rotten and the roof is leaking badly, I think if you could spend about thirty dollars, I could fix it up alright.

I also need a few lengths of piping to repair drainage, which is broken and smells terribly bad, the cost would be little and may be able to get in the expense named above.

Dear Sir:

The Department finds it necessary to return the voucher which you submitted in favour of Ludger Bastien for water supplied to the Lorette Convent during the period November 1, 1935, to November 1, 1936.

In making payments for the water supplied to the Lorette School in previous years, the Department only allowed \$12.50 a year. We, therefore, cannot understand why the price has been raised to \$25, as we have been unable to find any authority for this increase.

Dear Madam,-

The Department is in receipt of an application from Mr. L. Bastien for an amount of \$25.00, to cover the cost of supplying water to the Lorette Indian Day School for the period November 1st, 1935, to November 1st, 1936.

I would appreciate your advising me the number of taps in the school and residence, also if the water supplied is used only for Indian day school and residence purposes.

Yours truly,

Dear Sir:-

Replying to yours of the 28th instant, bearing number 14-1-5, I did not state that reference to price was made between yourselves and L. Bastien, but you took note of a new contract between the members of the Tribe here and L. Bastien, which was also applying to Convent here.

Anyway he is charging you \$25.00, which is cheap indeed, and kindly send him check to cover.

Thanks.

Yours Respectfully.

Dear Sir,

It is already a month since we wrote to you in connection with a shipment of bilingual school books for our library, and much to our regret we have not received a reply from you.

We firmly hope that we shall not be disappointed in this matter which we undertook upon your request.

It is very important that you should reply to us as soon as possible concerning the enlargement of the convent; otherwise, the classrooms shall continue to be over-filled and the progress and amelioration of the education of the Huron school children shall remain inexistant. And yet, you seemed sincere enough when you wrote to us concerning your very laudable decision.

I trust you will forward a favourable reply as soon as possible.

Yours faithfully,

With reference to your letter of the 7th instant, it is regretted that the books you ordered have not yet reached you. However, you can be assured that the order will be placed and the books will be available for the next academic year.

With regard to the last paragraph of your letter, it is not found possible to provide funds this year for enlarging the Lorette Indian Day School. You will realize that it is extremely difficult to obtain funds that are required for the many pressing demands that we receive.

Le Kelvinator le plus utile jamais construit.

Il n'y a aucun doute quant au Kelvinator 1937. Avant que les ingénieurs Kelvinator n'entreprennent la préparation de ces modèles avancés, des centaines de maitresses de maison furent consultées et donnèrent leurs avis et leurs idées. Et voici le résultat . . . le Kelvinator le plus pratique jamais construit.

Vous bénéficiez de cette attention minutieuse dans les détails par la réelle commodité de ces cabinets modernes. Aujourd'hui, vous atteignez sans effort le fond des tablettes. La nouvelle lampe centrale s'allumant automatiquement dès que la porte s'ouvre, jette partout sa clarté. Le compartiment aux aliments, construit scientifiquement simplifie votre travail. Dans ces modèles remarquables il est une place — justement celle qu'il faut — pour tout ce qui entre dans un réfrigérateur.

Si vous ajoutez à toutes ces spécialités pratiques les points si importants d'économie et la certitude que vous pouvez en dépendre,

deux faits avancés d'abord; et votre bon jugement vous dira que c'est là le réfrigérateur qu'il faut acheter.

Mieux encore . . . point n'est besoin d'attendre. Votre vendeur Kelvinator se fera un plaisir de vous prouver comment, avec ses termes faciles, vous pouvez dès maintenant acquérir un Kelvinator.

Modèle PK 9-37 — Hauteur totale 66 $\frac{1}{2}$ " ; profondeur totale 28 $\frac{1}{2}$ " ; largeur totale 34 $\frac{1}{2}$ ". Capacité alimentaire nette: 9.2 pieds cubes; surface utile 18.22 pieds carrés; 5 tiroirs à glace avec séparateurs en caoutchouc; 162 cubes de glace; 21 livres de glace. Épaisseur isolante 3.58 approximativement.

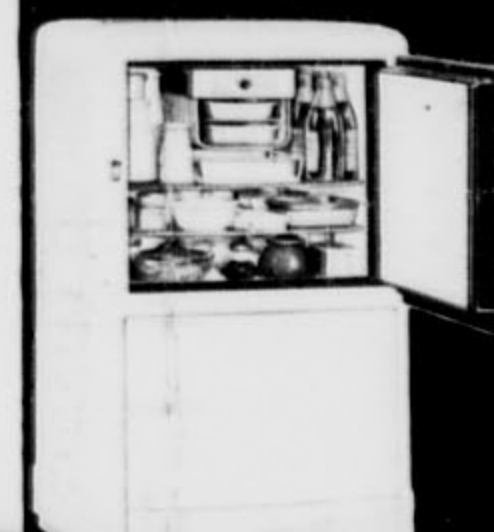

Modèle K 7-37 (ci-dessus) — Hauteur totale 64 $\frac{1}{2}$ " ; profondeur totale 24 $\frac{1}{2}$ " ; largeur totale 33 $\frac{1}{2}$ ". SÉRIES KS

Vous penseriez que ces deux modèles de séries KS coûtent en réalité beaucoup plus. Ils offrent tant en beauté, qualité, commodité, économie! A l'intérieur comme à l'extérieur, ils sont une révélation d'utilité pratique. Leur fini permanent Permalux, d'un blanc brillant, se nettoie facilement et paraît neuf indéfiniment. De nombreuses spécialités pour le compartiment alimentaire, répondent exactement à la demande des maitresses de maison.

Modèle PK9-37

Une porcelaine inusable, à l'intérieur comme à l'extérieur, habille la beauté étincillante de ce Kelvinator modèle PK 9-37. Toutes les spécialités d'utilité pratique offertes par les Kelvinator 1937, sont ici réunies, avec en plus la qualité durable de la meilleure porcelaine.

Modèle KS 50-37 (ci-dessus) — Hauteur totale 58" ; largeur totale 29 $\frac{1}{4}$ " ; profondeur totale 23 $\frac{1}{2}$ ". Capacité alimentaire 5.16 pieds cubes; surface utile 10.72 pieds carrés; 88 cubes de glace; 9 livres de glace; 4 tiroirs à glace avec séparateurs en caoutchouc.

Modèle KS 60-37 (ci-dessus) — Hauteur totale 60" ; largeur totale 31 $\frac{1}{2}$ " ; profondeur totale 23 $\frac{1}{2}$ ". Capacité alimentaire 6.13 pieds cubes; surface utile 14.03 pieds carrés; 88 cubes de glace; 9 livres de glace; 4 tiroirs à glace avec séparateurs en caoutchouc.

SÉRIES K

C'est la réfrigération de luxe à prix ordinaire. Les cinq modèles de séries K pour 1937 offrent les améliorations et les spécialités les plus avancées jamais incluses auparavant, dans un réfrigérateur à ce prix modique. Fini en Permalux, d'un blanc brillant ne se détériorant pas, les modèles K retiennent leur beauté indéfiniment. Un simple essuyage à l'extérieur les tient propres et à l'état de neuf.

Construction d'acier corroyé

Les modèles de séries K sont construits pour durer et supporter de longues années de service. Leur construction en acier corroyé fait du cabinet Kelvinator une seule pièce, forte et rigide, cette solidité assurant un meilleur fonctionnement et une plus longue durée.

Nombre de spécialités

Les modèles séries K sont actuellement la meilleure valeur de réfrigération. Ils ont effectivement plus de place utile qu'aucun autre réfrigérateur de mêmes dimensions et prix. Chaque détail de l'espace réservé aux aliments a été attentivement considéré pour être le plus pratique. Le contrôle Kelvin, si commode, vous offre un choix de vitesses de congélation et le thermomètre construit à même le cabinet, certifie les températures protectrices. Les tiroirs à glace congelent plus de cubes et le font plus vite.

2 FAITS

Rien ne pourrait être plus important à considérer que ces deux faits essentiels lorsque vous choisissez un nouveau réfrigérateur. Ils sont pour vous la promesse définitive d'économie parfaite dont vous pouvez dépendre pour de longues années à venir. Le thermomètre construit à même vous prouve constamment que les aliments ont bien le degré voulu pour leur préservation.

Par un certificat écrit, Kelvinator vous garantit la dépense minime de courant de ces réfrigérateurs. L'unité de "pouvoir-plus" pourvoit abondamment une réserve capable de congeler rapidement quels que soient vos besoins et à n'importe quelle température. Cette unité "pouvoir-plus" prévenant la détérioration des aliments, vous permet d'acheter en plus grande quantité, ce qui revient à dire à meilleur compte. À tous ces avantages, Kelvinator avec son plan de protection de cinq ans vous garantit un service parfait pendant plusieurs années.

Fait No. 1 . . .
Le nouveau Kelvinator est "pouvoir-plus." Il a une capacité double de la plupart des autres réfrigérateurs de même dimension.

Fait No. 2 . . .
Le nouveau Kelvinator n'emploie de courant que pendant la moitié du temps habituel; pour le reste, il maintient les températures froides sans se servir du courant.

Plus de spécialités que jamais!

Le Kelvinator 1937 vous donne toutes les spécialités déjà éprouvées comme économie et commodité, plus de nombreuses et nouvelles améliorations.

Plus de commodité

Au contrôle si commode Kelvin vient s'ajouter un thermomètre construit à même, permettant une surveillance constante des températures. Les coins arrondis des compartiments se nettoient facilement, de même que l'unité frigorifique toute en porcelaine. Tous les tiroirs à glace sont munis de tablettes à congélation rapide et un levier construit à même en facilite le dégagement. Une tablette glissoire et des tablettes lourdes, étroitement espacées genre bar, prouvent chaque jour leur commodité. Le couvercle du légumier sert aussi de plateau. De nouveaux arrangements mettent tout à portée de la main. Le retour automatique du décongélateur assure une reprise rapide de la congélation. Ceci, et nombre d'autres spécialités

font du Kelvinator 1937 le réfrigérateur le plus commode et le plus complet.

Économie

L'unité "pouvoir-plus" est chargée à extra capacité . . . pour cette raison la consommation normale du courant est réduite. Une isolation extrêmement épaisse préserve de la chaleur et conserve le froid; aussi le fonctionnement de chaque minute compte. Fait d'acier corroyé, tout comme les nouveaux autos, ce cabinet moderne est un modèle de force et de rigidité.

Beauté reconnue

La beauté des cabinets Kelvinator est traditionnelle. Un nouveau fini, développé récemment continue la tradition. Le blanc brillant Permalux est certainement le fini non porcelaine le plus facile à entretenir.

Vérifiez tous ces points du nouveau Kelvinator et vous serez convaincu.

Kelvinator aide à résoudre le problème de confort à bon marché

Imprimé au Canada.

Dear Sir:-

"Att. Mr. Phelan."

B

As per conversation with you last Thursday, I am enclosing a small catalogue of refrigerators made by Kelvinator.

The styles suitable for the Lorette Convent, are K.4-37 and K.S.50-37. The price list being included, from which you will get an allowance of 15%. It is understood that a guarantee of five years is also extended.

I think you will agree with me that this is badly needed at the Convent, and should have been given a long time ago, to preserve their food.

Your attention will oblige.

Yours Respectfully.

Sir:

The Department is in receipt of your letter of the 26th ultimo, with reference to supplying a Kelvinator for the teachers' residence of the Lorette Indian Day School.

You may purchase Model #K.4-37. It is noted from the list forwarded with your letter, that this can be secured at a cost of \$199.00, less 15%.

Yours truly,

R. A. Heey,
Supt. of Welfare & Training.

Ottawa, Ont., Feb. 11, 1938.
Sir:

I made an inspection of the Lorette reserve on January 28th and beg to submit the following report.

Agency Buildings

The school house is the only one owned by the Department. This is an old building and some repairs are needed; roof-hip type- has been renewed in part only about five years ago, the balance then considered good enough, is now badly leaking in many places and should now be renewed as the water has damaged ceiling and walls in upper part of building. Verandah roof is also leaking all over, and floor of small verandah at back of building will have to be renewed or the most of it. The outside of the building needs a coat of paint which could be put on by some of the Indians now on relief.

I noticed that there was no fire escape; an ordinary iron ladder could be set up at end of building to reach the roof, in case of fire, and passing near the dormitory window, would be used as fire escape if needed. The cost would not be very high.

The fence around the grounds is in a dilapidated state and gives the premises an air of abandonment which is not pleasant to the eye.

I noticed that fifteen double desks in the classrooms are not fit to be used and should be replaced.

The inside of the whole building is kept exceptionally clean.

The old electric washing machine is obsolete and should really be replaced.

Statement of expenditure - estimated.

Part of roof on house and on verandahs..... \$150.00
Small verandah floor and inside minor repairs..... 25.00
Fence around the school grounds..... 150.00
Iron ladder - installed - to roof..... 40.00
New electric washing machine..... 75.00
Fifteen new double desks..... ?

School boys and girls all appeared to be healthy and bright.

J. Thibault.
Inspector of Indian Agencies
Quebec Inspectorate.

Dear Sir:-

I need the following repairs and
articles for the Lorette Convent:

yes
no
no
/
6 Broken glasses to be renewed .
1 Quart Black japalac for steam
piping to save further damage by
rust. The Pipe organ in the
Convent must have a minor repair
done, about ten dollars I presume.
Also need a washing machine, as
the old one is completely useless
and broken down, not even repairable.
Also would like your approval to
spend about ten dollars in June,
for prizes to be given to the worthy
students at the end of the school
term.

oblige.

Your attention to the above will

Dear Sir:

With reference to your letter of the 21st instant you may purchase 6 panes of glass and 1 quart of Japalac for use at the Lorette Day School. You may also have the organ repaired at a cost of \$10.00.

The Department is not prepared to supply a new washing machine at the present time. We have had many requests for grants for prizes to be given at the end of June. Owing to lack of funds we have been unable to allow such expenditure. Under these circumstances no authority can be given for an allowance of \$10.00 for prizes at the Lorette School.

Dear Sir:

I am in receipt of your letter of the 27th ultimo in which you again refer to the washing machine requested by the teacher of the Lorette Indian Day School.

In view of the large number of Indians on relief in your Agency, some of whom could be employed to do any washing required, do you consider it necessary to supply a power washing machine at this school? If so you should let me have an estimate of the cost of the machine which you recommend, also full particulars such as the size and catalogue number.

Dear Sir:-

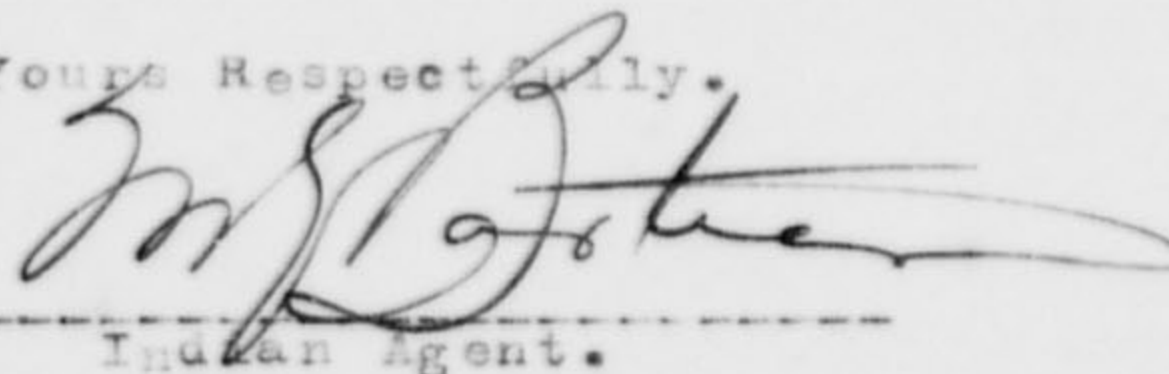

Replying to yours of the 4th instant, bearing number 14-1-5, kindly find enclosed small catalogues of washing machines, with prices marked by the merchant himself. If would refer to model "10" which is big enough for the Teachers of the Lorette Day School, price is \$84.50 plus another \$10.00 for chrome wringer if wanted.

I understand that the letter is important as it will keep the machine much longer. Now you can pick either one, with the regular or chrome wringer at \$84.50 or \$94.50 and the merchant will allow you 15% on these prices.

As regards gettings Indians on reliefs to go and do the washing this is hopeless, and this machine is surely needed. It surely will be a great help to the Teachers here, who have asked for it repeatedly.

Thanks.

Yours Respectfully.

Dear Sir:-

Up to now, the books asked for the school term 1938-1939, haven't arrived yet, will you give this your attention at once, and oblige. There are five teachers at the Convent this year, and a small chiffonnier for one of the rooms, is needed. Either a second hand or new one will do.

I also wrote you last year about getting an electric washing machine for the teachers, and heard no more about same, will you kindly give this your attention.

Thanks.

Yours Respectfully,

Indian Agent.

Dear Sir:

With reference to your letter of the 19th instant the Department has no record of having received a requisition for school supplies for the Lorette Indian Day School. The last requisition received from this school was in October, 1937.

Please let me know the approximate cost of the chiffonnier which you recommend be supplied.

The Purchasing Agent has been requested to secure the electric washing machine and it is hoped that this will be shipped in the near future.

Yours truly,

I am enclosing for the second time,
a list of books and articles needed at the Lorette
Convent, for school term 1938-1939, to which I would
ask your immediate attention, as school is opening up
September first.

Glad to note, as per yours of the

Dear Sir:-

Lorette Convent - Lighting Service.

I have your letter of January 26th., claiming that our cheque for \$9.14 was not sufficient to balance your account. In checking over these items, I find that this cheque covers light service for the months of October, November, and December, which according to your figures amounts to \$9.14. The September account was paid by official cheque No. 14684 for \$2.81, and is acknowledged on your statement. The August account was paid on August 24th., by official cheque No. 78578 for \$1.00 and evidently you have overlooked crediting this amount to our account. The cheque has been returned by the Bank as paid.

I am returning to you cheque No. B 71168 and trust that you will find that it settles our account in full.

July A/c - \$1.00

With reference to your letter of the 8th instant in connection with the above-noted item, will you please render an account, in triplicate, for this amount to our Agent, M.E. Bastien at Loretteville, who will certify and forward to the Department for payment. In this connection we wish to advise you that items in your accounts marked "Arrears" have to be deducted, so it is important that your accounts be rendered monthly and, as mentioned above, in triplicate. We are advising our Agent to the same effect.

Quebec Power Company Accounts

(Incl.)

I am inclosing herewith copy of a letter addressed to the Quebec Power Company in connection with their accounts. I wish to call your attention particularly to the remarks re items of arrears and also the rendering of accounts monthly. When you have forwarded a voucher to the Department covering a certain service it is important that you do not include that item in any future account as arrears or otherwise. An example in point is your including of the September account for light from the Quebec Power Company along with the October, November and December accounts when you had already forwarded it for payment under your voucher dated September 30.

Yours truly,

Dear Sir:

In reporting on his inspection of the Lorette Indian day school on the 13th instant Inspector Letarte states that the ventilation in the closets should be improved. No doubt this will only involve a small expenditure and you may arrange for the necessary work.

The Inspector states that the smell of gas in the school was very pronounced on the day of his visit. Apparently the man in charge of the furnace was not performing his duties properly on that day at least. Please give the man in charge of the furnace instructions regarding its proper operation.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sirs:

I am in receipt of your letter of the 17th instant with reference to your account of \$2.25 for supplying one door frame Mogul No. 7 to the Lorette Indian day school.

This account was forwarded to the Department under cover of Indian Agent Bastien's voucher of October 20. Cheque 4354 in payment of the account was issued on December 1 and forwarded to you. The cancelled cheque has been returned and was endorsed with a rubber stamp reading: "Deposit to credit of Terreau & Racine Limited". It was cashed at the Bank of Montreal, Quebec, on December 3, 1938.

Yours truly,

Monsieur le Secrétaire,

Nous sommes de retour
au couvent du Village Huron et je dois vous dire
combien nous avons été déçus à la vue du cou-
vent non réparé. En vérité cette maison n'est
presque plus habitable; l'eau pénètre par le
toit, les galeries ne tiennent presque plus, les
conduits pour l'eau ne donnent pas assez
de rendement. la rouille empêche la pression
les boîtes se remplissent très lentement.
ce qui occasionne de grands malaises par
l'odeur désagréable qui se répand dans les

Dear Sir:

We have just returned to the Convent of the Huron Village and we cannot tell you how disappointed we are over the convent not having been repaired. Indeed, this house is almost uninhabitable; the roof leaks, the verandas are falling apart, the water pipes are too small, rust cuts down the water pressure and the boxes fill very slowly, giving off a very bad odor in the classrooms.

The classroom furniture is in bad shape and the pupils complain that the seats are very uncomfortable.

We trust that you will at least look after the water supply and the furniture, which would require an expenditure from \$300.00 to \$375.00

Yours truly,

Dear Sir:-

Many times I have brought to your attention, the general condition of the school house.

The school desks need repair, the roof is leaking quite badly, the upper part of the Convent need general repairs, and soon will amount to a lot of money. I would estimate an amount of about two hundred dollars and this should be done at once. Everytime an inspector has come, he has been shown these, and has taken note almost without result. The Nuns have been complaining bitterly and I can give them very little satisfaction, consequently would ask you to see about this at the earliest possible date, as schools will soon open and the teachers are back. Thanks.

Respectfully,

Dear Sir:

I am in receipt of your letter of the 21st ultimo with reference to repairs that you state are required to the Lorette Indian day school.

Please let me have at once detailed information regarding the material that is required for the repairs to this building in order that purchase may be made by our Purchasing Branch.

You should also state if Indians can be employed to do the work. If white labour is required you should let me know the tradesmen necessary and the approximate time that they will be employed.

Inclosing copy of necessary material
to make reparations at the Lorette
Convent, which by the way is quite
urgent. Could not give you an
estimate of the time, as since
the war started, no carpenters
are to be had at any price.
But I have an Indian willing
to do the work at about
50 cents an hour. Kindly advise
at once what to do, as this must
be done in a hurry now.

Dear Sir:

With reference to your letter of the 8th instant you may arrange for the purchase of the material shown on the attached list in connection with the repairs required at the Lorette Indian day school.

All purchases should be made from firms on the approved list and the cost should be kept as low as possible. It is noted that you can engage an Indian to do the necessary work at 55¢ an hour. You should supervise his employment and have the repairs completed as quickly as you can.

Yours truly,

Tant qu'au mobilier on vous a dit qu'il était irréparable; les sièges tombent les planches des Tables sont fendues, il faut:

10 pupitres simples avec chaises pour élèves

de 12 à 14 ans.

10 " " " " " " de 9 à 12

10 " " " " " " de 7 à 9

nous nous permettons de vous suggérer un fournisseur qui vous livrerait chaise et pupitres pour \$3.75 Adresse: Louis Thibault Gommagh, Cte de Bellechasse.

Le mobilier servira pour la classe des plus avancés. Le mobilier de l'autre classe est un peu réparable. Nous espérons que vous prendrez ces demandes en considération.

Cong. des SS. de N.-D. du P.S.
Lorette, Huron Villages

Mr. Secretary,

On our order for the month of May, we had requested 500 ruled ink copybooks with historical covers, sold by the Canadian General Library, 5608 Starling Ave., Montreal. As we did not receive them, we wrote again adding to our order 18 "Manuels d'Hygiène de Bienséances et Civisme", written by a number of professors, for classes 5, 6, 7 and 8 of the Elementary grades; 6 illustrated composition books for the 6th and 7th grades; one master's copy of the same; procurable from the Frères de l'Instruction Chrétienne, Laprairie, Montréal. We have not received any of the above.

This fact is detrimental to our students; we shall expect an answer in the next eight days; else, we shall order the material and send you the bill.

As for furnishings, we have told you that it is not repairable: seats are falling apart, table boards are split, and we require the following:

10 simple desks with chairs for students between 12 and 14 years of age
10 " " " " " " " 9 to 12 "
10 " " " " " " " 7 to 9 "

We take the liberty of suggesting a merchant who would deliver chairs and desks for \$3.75. His address is Louis Thibault, Armagh, Bellechasse Co. The above furnishings will be used in highest class. The furniture in the other class is still repairable.

Hoping that you will favour our request, we remain,

Yours truly,

Dear Sister:

With reference to your recent letter I may say that under separate cover you are being written regarding the first paragraph in connection with books that you have requested.

I note your request for 30 desks with chairs and you state that you could secure these at a cost of \$3.75 each. Do you mean that the cost of a desk and chair is \$3.75 or will a desk cost \$3.75 and a chair \$3.75? Could you let me have any description of the kind of desk to which you refer?

With reference to your statement that you will order material and send us the bill I may say that in the event of your following this line of action it would be impossible for the Department to consider payment.

Dear Sir:

We immediately reply to your letter and we are enclosing a design of the proposed desk. The desk and the chair would cost \$3.75 (for both); therefore, this would entail a total expenditure of \$112.50.

The thirty desks should be as follows:

Ten for pupils 7 to 9;

Ten for pupils 9 to 12;

Ten for pupils 12 to 14.

Dear Sir:

With reference to the attached return of labour covering the work done in connection with the repairs at the Lorette school you are being forwarded under separate cover an accountable cheque for \$121.83. When this reaches you you should pay the persons whose names are shown on the attached form and return the three copies of the form properly receipted in order to account for the advance.

Yours truly,

dans ce cas.

Je profite de l'occasion pour vous dire que la réparation faite sur le toit ne sert à rien, l'eau continue de pénétrer. Les ouvriers disent que le bois est pourri en dessous de la tôle et que les clous ne peuvent plus tenir. Nous remarquons la même chose pour les boiserie des châssis et les pices de bois qui reposent sur le polage. L'extérieur de la maison est dans un piteux état ainsi que le trottoir et la clôture qui entoure le terrain de l'école.

J'espère que vous tiendrez compte de ces choses et que d'ici au printemps prochain vous enverrez quelqu'un d'expert qui sera en mesure de juger ce qu'il y aura à faire afin que les réparations se fassent à temps et durant la belle saison.

T.R.L. MacInnes, Esq., Secretary,

Sir,

Mr. Louis Thibault, of Armagh, Bellechasse Co., P.Q., to whom we sent the order for desks and chairs, has notified us that he accepted the order under the terms mentioned, but that you would have to pay the transportation charges. These desks and chairs will be ready in about two weeks. If the roads are still open to traffic in that district at that time, we could send for them at a cost of about \$10. to \$15; if not, they will have to be shipped by train. Kindly tell us what we are to do in such a case.

I take this opportunity to inform you that the repairs to the roof were of no avail, as it is still leaking. The workmen claim that the wood is decayed under the tin and that the nails cannot hold. The same condition is noticed in regard to the window frames and the timber resting upon the foundations. The outside of the house is in a poor condition as well as the sidewalks and the fence enclosing the school grounds.

I trust that you will take the above into consideration and that you will send before spring an expert who will be in a position to determine what is needed, and that the repairs will be done during the spring and summer.

Yours truly,

Dear Madam :

With reference to your letter of the 1st instant I may say that when your previous letter was received it was understood that the price quoted covered delivery to Loretteville.

It is now noted that it will involve an expenditure of ten or fifteen dollars for transportation of the desks from Armagh to Loretteville. If necessary you may incur an expenditure of this amount.

Yours truly,

You will notice that the accounts sent by Mr. Garneau were substantially increased without your authority. We relied in this connection on what Mr. Origène Sioui told us to the effect that we could make repairs for an amount of nearly \$200. I thought that these items could be included. Please excuse us if we have acted thus, but we have requested only the articles which were absolutely necessary.

Monsieur le Secrétaire,

Vous trouvez que les factures envoyées par M. Garneau ont été augmentées de beaucoup sans votre autorisation. Je me suis basée sur ce que M. Origène Sioui m'a dit que nous pourrions faire des réparations pour près de \$200. J'ai pensé que ces articles pourraient être compris là-dessus.

Veuillez m'excuser si j'ai eu tort d'agir ainsi. Nous avons demandé que ce fût était d'extrême nécessité

Votre toute dévouée

Dear Sir:

The Department finds it necessary to return the attached account covering the cost of electricity supplied to the Lorette school during the month of November. Please let me know in what manner the Company arrives at the charge of \$3.83.

In checking this account it was considered that the charge should only be \$3.16.

Ottawa,
November 21, 1939.

Dear Sir:

The Department finds it necessary to return the attached account covering the cost of electricity supplied to the Lorette school during the month of November. Please let me know in what manner the Company arrives at the charge of \$3.83.

In checking this account it was considered that the charge should only be \$3.16.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Cher Monsieur,

Pour faire suite à la vôtre du 21 novembre, nous vous adressons sous pli une facture corrigée qui établit un montant de \$3.16 pour la période du 10 octobre au 9 novembre, au lieu de \$3.83 tel que précédemment.

Quant aux arrérages de \$3.31 pour la période du 11 septembre au 10 octobre, ce montant est absolument exact et n'apparaît pas avoir été payé.

Nous regrettons énormément l'erreur qui a été commise dans le calcul de la consommation d'électricité pour la dernière période et vous prions d'accepter nos excuses.

Dear Sir:-

The bottom of the furnace at the Local Convent, has to be renewed, as the furnace man has come in today to report that he has to hold in the coal by jacking it with wood, and there is a loss of coal. With your consent, I will get this renewed and keep the cost as little as possible.

Thanks.

Dear Sir:-

I have been asked by the Superior of the Lorette Convent, if I could supply them with a typewriter, it would be very handy for the school. They suggested a second hand one, and I thought that if you gave a new one for the use of the Agency, I would send them one from my office that would be just right for them.

Anyhow, just suit yourselves in this matter.
Thanks.

Yours Respectfully

Dear Sir:-

Since you have decided not to allow tuition grants for more than ten Indian boys at the Commercial Academy of Loretteville, and that the teachers of the local convent, will be left over with some of the older boys for further teaching, the Superior has brought a list of tools, she would ask the Department to supply, as they would try and show the elementary work of carpentry to these older boys.

They would also try and get repaired the fence around the convent, for which a grant was asked, the only thing to supply would be the wood for an amount of about twenty five to thirty dollars.

I imagine that the total cost of these tools would be twenty dollars. May I have your permission to arrange for this.

Thanks,

Yours Respectfully,

April 19th, 1941.

Dear Sir:

I had the visit this morning, of the Superior of the Lorette Convent, who made the following demands: The usual grand of \$12.00 for seeds, to sow the piece of land adjoining the Convent. She needs 100 lbs. of lime to paint the old fence surrounding the Convent. Three gallons of green paint, half gallon of white, three gallons of white, three gallons of grey, to paint the new frontal fence erected by the students, since last fall.

Per [unclear]
If you could supply, ten gallons of cheap grey paint, two gallons of white, and ten pounds of putty, could get the outside of Convent painted free by those on relief.

The roof is also in bad shape, they must use pails in many places inside to collect the water; would cost about \$50.00 to put roof paint. They need aluminum paint to fix radiators. Also one heavy pole to hang their wet clothing.

Trust you can afford to grant the above, and oblige.

Respectfully,

Dear Sir:

With reference to your letter of the 19th instant the following expenditures are approved:

1. An amount of \$12.00 for the purchase of seeds;
2. 100 Lbs. lime to paint the fence;
3. An amount of \$50.00 for repairing the roof.

The paint for the exterior painting of the school is being secured by the Purchasing Branch. It is noted that you will be able to have the work done free of cost by those receiving relief.

Our funds are limited and the above expenditures for repairs and improvements at the Lorette School are all that can be considered for the current fiscal year.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Mr. Hoey.

With reference to your requisition of the 25th ultimo, for painting supplies for repairing the Lorette Indian Day School, I may say that we have secured a quotation from Alfred Verret, Loretteville, P.Q., of \$34.80. Mr. Verret quotes on Ramsay paints; \$2.25 per gallon for the grey; \$2.35 for the white, and .06¢ per pound for the putty. If the quality of paint offered at these quoted prices is satisfactory to Indian Agent Bastien it will be in order for him to buy the supplies from this source. We suspect, however, that either a second or third quality of paint is being quoted on, or that there has been an error in the prices quoted, as they are below the current prices for standard paints. If the grade offered is not satisfactory, it will be in order for Mr. Bastien to procure a higher grade of good standard paint.

Dear Sir:

With reference to your letter of the 19th ultimo requesting paint for the Lorette Indian Day School the Purchasing Branch has obtained the following quotation from Mr. Alfred Verret, Loretteville, Quebec: Grey paint, \$2.25 per gallon; white paint, \$2.35 per gallon; putty, 6¢ per pound; total cost of the quantity required, \$34.80.

The Purchasing Branch believes that the paint on which Mr. Verret has quoted is second or third quality. If the quality of the paint offered at the above prices is satisfactory you may buy the paint from Mr. Verret.

If the grade offered is not satisfactory you may procure a higher grade of good standard paint. As a general rule it is considered inadvisable to use cheap paint.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sirs:- Re: Cheque no. 52624

We acknowledge receipt of your cheque for \$ 4.05
and beg to point out that the month of July for
L'Ecole du Village Huron, amounting to \$ 2.80, is
still outstanding in our books.

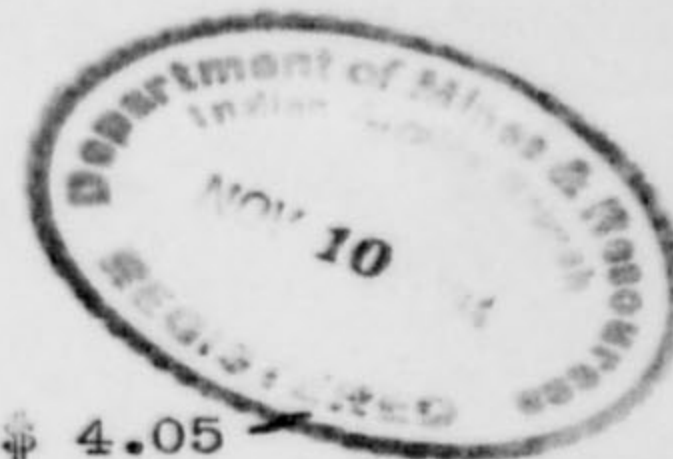

You will find enclosed copies of that bill and we
would ask you to kindly forward your cheque at your
earliest convenience.

Yours truly,

Ottawa,
November 14, 1941.

Dear Sir:

The Department is in receipt of a letter from the Quebec Power Company enclosing the attached account. This amount was included in your voucher No. 11170 of August 20 but as the only entry appearing on the account submitted at that time read - "Arrears \$2.80" - it was struck off. If you consider the amount shown on the attached account is still owing you should submit the usual voucher.

When a bill for electricity is received please attach same to form 506 and forward to the Department for payment immediately. Do not wait until the company renders a second bill which naturally will have the previous item included as arrears.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

I am returning the attached payroll covering the cost of labour at the Lorette Indian Day School.

An accountable cheque for \$84.50 is being forwarded to you under separate cover, and, when received, you should pay those who did the work and have them sign the labour return forms, which you should then send forward as an accounting for the cheque.

Yours truly,

Encl.

Dear Sir:

Enclosing for your attention a letter
written by the Superior of the Convent here.

There is only one spot I wish to call
your attention to, where the school boys using
a long ladder belonging to a neighbor Michel
Sioui, let it fall down and broke it in two.

The teacher wishes to know if the
Department could replace same, as this poor
Indian cannot buy another one for his home.

Your attention will oblige.

Pour peindre la maison les peintres se sont servis d'une échelle appartenant à M. Sioui le voisin, la veille de la procession les enfants aidés de ma S. St Aubin ont voulu la descendre et ils l'ont échappée vous comprenez bien qu'elle s'est cassée, j'ai offert à ce Monsieur de la rembourser avec l'argent de la communauté mais quoique cette échelle lui soit indispensable en cas d'incendie il n'a pas voulu accepter cette offre. Cet accident ayant été causé par les enfants ne pourriez-vous pas la lui remettre en la faisant payer par le Gouvernement ? Si oui je vous en serais bien reconnaissante !... c'est toujours regrettable de causer des dommages sans pouvoir remettre surtout quand il s'agit d'une famille dans la gêne.

Mr. M.E. Bastien, Indian Agent, Loretteville, Que.

The Department is in receipt of your voucher 11439 which reads as follows:

"For electric light supplied to the Lorette Indian Day School during the period February and March, 1943 -- \$7.47."

On checking the account which was attached to your voucher it was found that it covers the period December 17, 1942, to March 15, 1943, and payment for electric services for the period mentioned has previously been made and consequently no cheque is being issued at the present time.

In future it would be appreciated if you would forward the voucher for the electric services at this school every month. You receive the account monthly from the company and there should be no difficulty in sending it monthly to this office.

Supt. of Welfare & Training.

Vous serait-il possible de
vous obtenir \$15.00 du Département
pour les travaux d'embellissement de
la cour et pour jardinage.

Vous nous obligeriez aussi en nous per-
mettant de demander un souven pour
faire quelques réparations très nécessaires
aux fenêtrés et aux bancs des classes.

Les cheminées devraient aussi être nettoyées

(La partie du convent du côté de la rivière
n'a pas été peinte l'an dernier... Le tuyau

I am enclosing for your consideration,
a letter from the Superior of the Lorette Convent
which speaks for itself.

I have examined these demands thoroughly,
they should amount to an expenditure of \$ 75.00
or so.

Mr. M.E. Bastien, Indian Agent, Loretteville, Que.

With reference to your letter of the 4th instant, the following expenditures are approved at the Lorette Indian Day School:

1. An allowance of \$15.00 for work in the yard and garden;
2. Small repairs to windows and desks;
3. Cleaning the chimneys.

It is also noted that the Principal requests that one side of the building be painted. Please let me have an estimate of the cost of the material and labour required to do the work which she suggests.

Replying to yours of the 8th instant, thanks
for first paragraphs. Re-work at the Convent.

As regards painting the back of the building,
would estimate fifty dollars for paint and work.
Also estimate same amount for repairing the sewer
system, and this must be done as Dr. Devarennnes of
the Quebec Government, wishes this to be done at once.

Respectfully,

Dear Sir:

Referring to your letter dated May 13th last, bearing number 14-1-5, allowing \$ 125.00 for repairs at the convent; at the time I asked about \$ 150.00 to make a fair job.

We have painted three faces on the convent, the back only was not painted, the roof does not leak anymore, and quite proud of the job as it looks like a new convent, and feel that you won't mind if the total expense has run up, to \$ 141.00 or so.

Hoping this is satisfactory,

Respectfully,

I have your letter of the 6th instant, in which you state that the approximate cost of the fence required at the Lorette School would be between \$300.00 and \$350.00. I presume that this figure covers the cost of both material and labour.

Please let me know what type of fencing you consider most suitable. You should also state the quantity required, in order that the material may be secured by our Purchasing Branch.

Do you not think it is safer to ask
for prices and give this by contract, the fence would
be made of wood, or else of good wire fencing, the
latter preferably.

Monsieur,

Veuillez agréer nos meilleurs remerciements pour les effets que vous avez eu la bonté de nous envoyer pour nos classes. La clôture, les moustiquaires pour portes et fenêtres manquaient, mais on nous a dit: que vous vous étiez occupé de les faire confectionner. Nous les attendons sous peu. Les cahiers, crayons et règles, demandés au gouvernement, ne sont pas arrivés.

Maintenant un autre besoin se fait sentir. Notre poêle de cuisine et celui de la cave ne chauffent pas bien; ils sont très difficiles à allumer et fument beaucoup. C'est sans doute la cheminée qui a besoin d'un bon

camouflage. Vous serait-il possible d'envoyer quelqu'un pour faire ce travail et quelques autres réparations: vitres à poser, poignées de portes à réparer, peintures, etc. Nous avons fait les petites réparations dont nous étions capables, et si vous pouviez nous procurer 1 doz. de crochets pour fenêtres; 2 pouces de longueur.

2 crochets de 20 à 25 pes.

2 verrous, pour portes de toilette: 2 pes.

nous les poserons nous-mêmes.

Je crois que nous n'aurons pas assez de bois de chauffage. Je vous prie d'avance afin de vous en faciliter l'achat avant qu'il soit trop rare.

S'il vous était possible de vous rendre au couvent, nous serions heureuses de vous connaître et vous constateriez la nécessité de ces choses. Je vous fais aussi jusqu'au plancher de deux chambres qui, d'après moi, mériteraient bien d'être recouvert d'un prélaie.

Il est de bois mou et les planches sont fendues ou presque trébuchées en dessous des pattes des couchettes. Ces chambres ne sont pas très grandes; une de 9 x 12 pds. l'autre de 9 x 24 pds.

J'espère que ces demandes ne vous importuneront pas, je suis assurée que vous les avez déjà prises en considération et que grâce à votre bienveillance nous recevrons le tout bientôt.

Vous remerciant à l'avance je demeure votre très reconnaissante,

Mr. Maurice Bastien, Agent,
Village des Hurons,

Sir:

Please accept our thanks for the supplies which we received for our classes. The fencing and screens for windows and doors, are still lacking but we are informed that you are having them made. The note-books, pencils and rulers requested from the Government have not yet arrived.

There is another pressing need: our kitchen stove and the furnace in the cellar are not drawing well and are not giving good heat. They are very difficult to light up, and smoke considerably. No doubt the chimney needs a good cleaning. Could you send someone to attend to this as well as to other minor repairs: window panes to be replaced door knobs to be repaired, hinges, etc. We have attended to some minor repairs ourselves, as far as we could, and if we could obtain one dozen 2-inch hooks for the windows and two 20-to 25-inch hooks together with two 2-inch bolts for w.c. doors. We will put them up ourselves.

I believe we will run short of fuel wood. I am informing you in advance so that you may purchase more before it becomes too scarce.

If it were possible for you to visit the convent, we would be pleased to make your acquaintance and specially show you the necessity for these things. I would also let you judge by yourself the fact that the floor of two rooms require a linoleum. The floor is of soft wood and the boards are split and almost worn through under the legs of the bed. These rooms are not very large: one measures 9x12' and the other 9x24'.

I trust that you will be able to give your continued consideration to these requests and that we will receive the material shortly.

Thanking you in anticipation, we remain,

Yours truly,
S. Ste Jeanne d'Arc, Superior.

Will you kindly read attentively
the enclosed letter sent by the Superior of the
local Convent, and report on each item as you see
fit. As far as the fence is concerned better wait
until next spring, it can be made cheaper, as far
as screen doors and windows are concerned these are
presently made and will be ready soon.

Mr. Maurice E. Bastien, Indian Agent,
Village Huron, Que.

I have your letter of September 19, enclosing
a letter from the Principal of the Lorette Indian Day
School.

With reference to the fence, I believe that
as the season is so far advanced it should be delayed
until next Spring. However, you should obtain prices
early in the Spring for doing this work by contract
and forward same for our consideration.

The following expenditures at this school
are approved:-

1. Purchase of 1 dozen 2 inch hooks, two 20 to 25 inch
hooks together with two 2 inch bolts for W.C. doors.
2. Employing a man to clean the chimney and attend to
minor repairs around the building.
3. If additional wood is required, you may purchase
same.
4. If you can secure linoleum rugs for two rooms,
mentioned in the Principal's letter, you may do so.

Dear Sir:

Att: Mr. Phelan

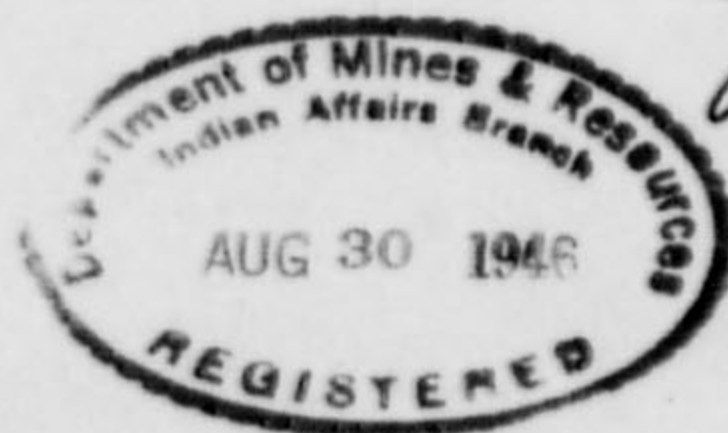

The local Convent here is in bad shape, as far
as the roof is concerned specially.

It rains upstairs where the teachers reside and
the wood is half rotten supporting the roof. A good
job would cost about four to five hundred dollars.

Seing that I did not make the repairs to the fence
as allowed last fall, I think it is more urgent to fix this
roof for the coming winter and spring. The verandah in the
back is also rotten and needs repair. Will you allow me to
do so at once.

You will oblige,

Respectfully,

Dear Sir:

The Superior of the Lorette Convent advises
of the following, missing from their order:

Red flannel to cover the teacher's desks
Sweeping powder
Drawing books
World sphere
Note books.

If you cannot supply the above, will you
give us a permit to buy these locally.

With reference to your letter of the 29th ultimo, you may purchase for use at the Lorette Indian Day School:

1. One covering for teacher's desk
2. Sweeping powder.

The other items have been ordered from the Stationery Office and will no doubt, reach the school in the near future.

Mr. M.E. Bastien, Indian Agent, Village Heron, Quebec.

I have your letter of the 23rd ultimo,
with reference to the roof of the Lorette School.

It is noted that you estimate the cost at
approximately \$400.00. Please let me have a quotation
from the person who has applied to do the work. This
quotation should show in detail the work he is prepared
to do for the sum mentioned in his tender and should
also give the price regarding materials that he will use.

Dear Mr. Doucet:-

In a letter dated Aug. 23rd, Indian Agent Bastien reported that a new roof is required on the Lorette School. He estimated the cost at from \$400 to \$500.

We wrote to him on Sept. 3rd requesting a quotation showing in detail the work required. No reply has been received to that letter and when you visit Lorette, I would like you to examine this building and if the new roof is required, make immediate arrangements to have it done. It is understood that the expenditure will not exceed the estimate given by Mr. Bastien. Materials for this work may be purchased locally if they can be obtained.

Yours truly,

Philip Phelan,
Chief, Training Division.

Kindly send someone to repair a toilet which is running all the time, also a coil which could not be repaired during the Summer along with the other work done. As the furnace was not operating, we could not find that trouble then.

If you will have the Sisters prepare in duplicate a requisition for the type of clock which they want, we will endeavour to supply them as soon as possible.

I would suggest that they quote the number, type and page of clock from either Eaton's, Simpson's or other supply firm catalogue so that we will know exactly the type which they wish.

Dear Sir:-

Last spring the writer asked your Department, for the supply of a good cooking stove for the Lorette Convent. You asked to enquire about a price and in sending the sketch of same, I was quoted \$ 150.00 which you thought too expensive.

Considering the quality and number of years of service I still recommend same as it is now more than urgent, the Nuns, have to go to an Indians' home near the Convent, to do part of their cooking.

Kindly advise.

Dear Sirs:-

As ordered by your inspector Mr. Doucet,
an all around utility man has repaired the local convent, and done
a very fine job of it. All inside painted, desks repaired as well
as ceilings in the teachers Residence. A new veranda built outsi-
de and nice fence around the property.

I have also ordered a new stove for the tea-
chers, and there are two things remaining to be done to complete the
job and be an asset to the Reserve and your Department: First putting
new linoleum on the floors of two classes and painting the outside of
the Convent.

I imagine that the two jobs represent an ex-
penditure of some five hundred dollars. I hope it is possible to do
so as this is an old building and it will prevent you of a much higher
expenditure soon.

Trusting you will see your way to do so.

Respectfully.

Dear Sir;

Further to yours of the second instant, bearing number 14-1-5 (W T L), note what you have to say about expenditure at Lerette Convent.

If you will check up My estimates for the last five years, you will note a demand of \$ 1500.00 to repair the local convent. It had to come or else the convent would be no more a convent. This job was needed and when Mr Deucet ordered the work, it was more than time to do it.

The accounts are just and salaries well earned, the Convent itself looks like something new, and it is there to check up. As the two workmen, Vincent and Savard are in need of their salary, hope you can settle same in good time. Thanking you.

The Secretary,
Department of Indian Affairs,
Ottawa, Can.,

Dear Sir:-

Following yours of the 30th ultimo, bearing No 14-1-5(E1), you must realize that since you placed the order 22540, and the date of delivery, prices went up to 15% at the foundry. The Quincaillerie Verret notified me accordingly when the stove arrived at the local station, but due to the urgent need of it, I took the liberty to authorise delivery to the Convent.

Hoping this explanation clarify the situation. I Remain.

Respectfully.

DEPARTMENTAL PURCHASING AGENT

Re: Purchase Order 22540

In a letter of August 21, 1947 in which he ordered a stove for the Lorette Indian Day School, Indian Agent Bastien stated that it could be secured for \$130.50. We gave your office this information and purchase order was issued.

We are now in receipt of the attached account amounting to \$206.40. We wrote the Indian Agent regarding the increased amount and I enclose for your information a copy of his reply.

Under the circumstances I would appreciate it if you would approve the increase so that we can have the account paid.

Memorandum: Indian Affairs Branch.

Re: Purchase Order 25540

We note from Mr. Neary's memorandum of the 5th instant that the vendors are charging an additional amount of \$25.19 for the stove covered by the above order.

There have been increases in this type of equipment between the time the order was placed, August 28th, and the date of the invoice, December 17th, 1947. Likewise, Mr. Bastien authorized delivery at the increased price, due to the urgent need of the stove.

Under the circumstances, and in view of the fact that we were not furnished with a tender, or quotation, in writing which would be binding in any way on the vendor, it will be in order to arrange for payment of the account of Quincaillerie Verret Engr., as rendered.

Dear Sir:-

I would like to point out to you the following, about the local Convent:

A new roof should be put on to remedy to the numerous leaks, and trouble we have been experimenting for the last ten years or so. We should build two new toilets from the outside of the building and adjacent to same, as the ones existing and forming part of where the students hang their clothes, has been condemned by the Provincial Department of Hygiene.

We should also paint all the outside of the Convent. This would entail an expense of some three thousand dollars, but at the same time keep this old building standing for some time to come.

Trusting I may have your consent, so that this work is done during the coming vacation.

Respectfully.

Mr. Maurice E. Bastien, Indian Agent,
Village Huron, Que.

We have your letter of the 26th instant in which you state a new roof is required at the Lorette School and it is noted that you also recommend painting outside of the building. The total work is estimated to cost \$3,000.00. As you are aware, we spent a considerable amount on this building last year. As a matter of fact, the cost was much more than originally authorized.

Regarding the repairs to the roof, we received a quotation from Alfred Savard on the 11th of September, 1946 offering to repair the roof for an amount of approximately \$400.00.

It is our intention to have Mr. Doucet visit your Agency during the latter part of this month and at that time you can discuss with him the repairs that are absolutely necessary.

Re: Loretteville Indian Day School.

While on an inspection trip at the above Indian Reserve on August the 11th. the Indians asked what was being done in regard to the repairs ~~for~~ requested for the above school.

Could Mr. Doucet visit this school and authorize the necessary repairs, as it seems the roof is leaking badly, the toilets would have to change place etc.

If it is not the intention of the Department to build this Fall at Seven Islands, could some of that money be used to repair the Loretteville Day School? I would appreciate it very much if it was possible to help this reserve in repairing their school and I am quite positive that this branch will do everything in its power to do so.

Mr. M.E. Bastien,
Supt. of Indian Agency,
Village des Huron, P.Q.,

I will be in Lorette, Thursday,
Friday and Saturday of this week.

On this trip I intend to study the
question of school improvement. I would appreciate
it if you would contact a good contractor so that
we could visit this school together and determine
what should be done.

As soon as I arrive in Quebec City, I
will ring you up.

Dear Sir:-

Att: Mr. Neary.

I had an interview with the teachers of the Lorette Day School, who advise me that for the next school term of 1949-50, they will have from 70 to 72 Indian students following their classes. I also understand that you have estimates of eleven thousand dollars for the repair of the present convent, built about forty five years ago.

When Mr. Doucet was here last, he truthfully stated that it was useless to spend that money on such an old school. I am writing this letter to ask you to give the Reserve a new convent, with decent quarters for the teachers. They have so far been living in quarters which are far from decent, if we consider their position.

The question of having Loretteville build a school to receive the Indian students is surely out of order, if you consider that their convent is over one half of a mile from the Village and as we have mostly young children from five up, you can imagine what would happen in the winter months. Furthermore Loretteville will not build schools to accomodate other municipalities, they have enough to look after their own. They do not object to accept them when they are old enough to go to college, but again only when there is room left to take them. This year they refused a few we had ready for the eight grade, having no facilities to accept them.

I hope you will take these facts into consideration, and arrange for a new convent at once.

Respectfully,

Maurice E. Bastien

MEMORANDUM TO the

Deputy Minister

For the

Director of Indian Affairs.

Mr. Wilfrid LaCroix has written to the Minister under date of May 9th, enclosing copies of three letters which have been written to the Director of Indian Affairs under date of May 6th by Mr. Maurice E. Bastien, Indian Agent at Huron Village, Quebec. These letters concern --

1. The question of a raise in salary to Mr. Bastien.
2. A letter asking that the Reserve build a new convent and school rather than have the Village of Lorette-ville construct a school there to receive Indian students.
3. A request to have a graduate Indian nurse, Mrs. Roger Vincent added to the staff on the Reserve.

The Minister is making an interim acknowledgment to Mr. LaCroix, but would you please provide me with further comments on these letters.

Memorandum:DIRECTOR.Lorette Indian Day School.

Mr. Doucet will be leaving next week to go to Lorette in order to make a thorough educational survey of this reserve.

The present school is very old and would cost about \$10,000.00 to repair. It is a frame building and it is doubted whether we would still have a good school even after a complete renovation.

Mr. Doucet also intends to enquire into the possibility of having some of our Indian children attend the local municipal schools. When he returns, we will be in a position to decide our future policy on this reserve.

Dear Mr. Doucet:

Our file regarding the type of school at Lennox Island is not definite, but I telephoned Mr. Morris this morning and he states they built the standard two-room school and teacher's residence, plus an addition.

PP
Under separate cover I am forwarding you the blueprint of the two-room school and teacher's residence. I am also forwarding the blueprint of the plumbing and heating and a blueprint which Mr. Hall picked up in the Lennox Island Indian Superintendent's office on the occasion of his last trip. Mr. Morris states that this is a blueprint of the extra rooms added on to our plan.

I trust that these will assist you. You will note that one of them has to be returned to Mr. Hall.

Yours sincerely,

Memorandum:

SUPERINTENDENT OF INDIAN EDUCATION

Re: Lorette Indian Day School

It is recommended that a two room school with teacher's residence be built on this reserve. Advanced pupils and boys of advanced age would be encouraged to attend provincial institutions whenever possible. This would leave an enrolment of approximately 70 pupils. This proposition was discussed with the teachers in the presence of the agent and the Regional Supervisor and seems to be satisfactory to all parties concerned. Mr. Ross, who was doing work for the Waterworks at Lorette, condescended to mark off the locality where the school should be situated. It will be a great satisfaction to these people to see a new school take the place of the old building which has been there for approximately 50 years. This building is beyond economical repair.

Respectfully submitted,

A. J. Doucet

Memorandum:

DEPUTY MINISTER

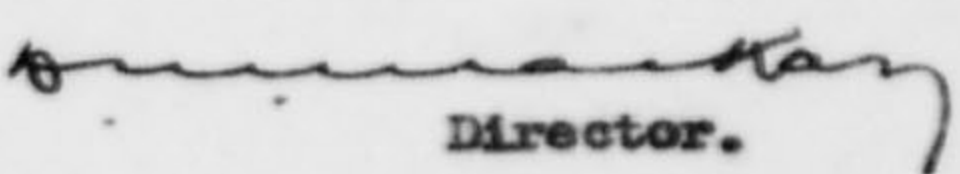

Lorette Indian Day School.

Included in our main estimates for 1949-50 is the sum of \$11,000.00 for the construction of a one-room additional classroom at the above school. We had intended to try to carry on with the old frame building for another two or three years, but have now received two reports on the building which indicate that it will have to be condemned. Therefore it is our recommendation that we erect a new two-room school at a cost of approximately \$32,000.00 and transfer funds so that this project can be completed this year.

In addition to the reports from our own officials, the Provincial School Inspector stated as follows in his report of May 19, 1949:

"The school is very old. I recommend a new school for the benefit of teachers and pupils. Spending money on repairs is useless."

We have requested authority for the transfer of funds under separate cover and would request that authority be given for the calling of contracts in accordance with the advertisement attached hereto.

Lorette Indian Day School

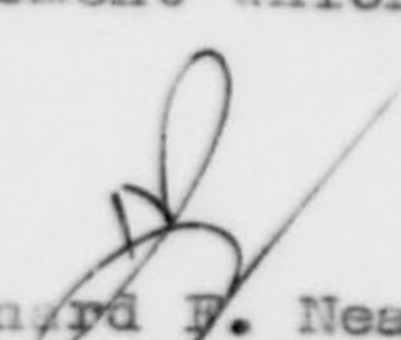

I understand that Mr. Doucet has already sent you six plans of the proposed school, No. 891. In his letter of June 21, he does not mention sending the specifications. If you have not received six sets of the specifications, please write me at once when I will mail them to you.

The advertisement will be appearing in the papers recommended by you, and you should shortly be getting calls from contractors who will require these plans and specifications so that they can submit their tenders.

Attached to this letter please find the following documents which should be given to each contractor who intends to submit a tender:-

- (a) 8 "Instructions to Tenderers"
- (b) 8 "Tender Forms"
- (c) 8 "Tender Envelopes".

Please let me know about the specifications by return mail so that there will be no delay in giving this information to the contractors concerned. I also attach a copy of the advertisement which can be posted in your office.

DIVISION DES AFFAIRES
INDIENNES

DES soumissions cachetées, adressées au directeur de la division des Affaires indiennes, à Ottawa, Canada, et portant sur l'enveloppe l'inscription: "Soumissions pour l'externat indien de Lorette", seront reçues jusqu'à midi le 10 août 1949, concernant la construction à l'entreprise:

d'un externat indien de deux pièces et d'une résidence y attenante pour les instituteurs, sur la réserve indienne de Lorette, village des Hurons (P.Q.).

Les entrepreneurs doivent soumissionner conformément aux croquis, devis et documents pertinents fournis par le ministère des Mines et des Ressources. Ils peuvent soumissionner pour une de ces entreprises ou pour les deux.

Les croquis, devis et autres documents seront affichés à l'endroit suivant à compter du 30 juin 1949 jusqu'au 10 août 1949 inclusivement:

chez l'agent des Indiens, au village des Hurons (P.Q.).

Les instructions générales aux soumissionnaires, les croquis et les devis peuvent être obtenus au bureau susdit contre le dépôt d'un chèque visé de cinq dollars (\$5) fait au nom du Receveur général du Canada. Ledit dépôt sera retourné au soumissionnaire lorsqu'il aura fait remise des croquis et devis en bon état à:

l'agent des Indiens, village des Hurons (P.Q.).

en dedans d'un mois de la date finale d'acceptation des soumissions.

Pour qu'elles soient prises en considération, les soumissions doivent être préparées sur les formules fournies aux soumissionnaires et accompagnées d'un chèque visé sur une banque canadienne à charte, fait à l'ordre du Receveur général du Canada, représentant dix pour cent (10%) du montant de la soumission, ou d'obligations, au porteur, du Dominion du Canada ou de la compagnie des Chemins de fer Nationaux du Canada et de ses sociétés composantes, garanties sans réserve quant au capital et à l'intérêt par le Dominion du Canada; ou bien les soumissions peuvent être accompagnées des obligations susdites et d'un chèque visé, si nécessaire pour compléter un montant.

Le ministère se réserve le droit de refuser une soumission quelconque ou toutes les soumissions, et n'acceptera pas nécessairement la plus basse.

H. L. KEENLEYSIDE,
Sous-ministre.

DEPARTMENT OF MINES
AND RESOURCES
INDIAN AFFAIRS BRANCH

SEALD TENDERS addressed to the Director, Indian Affairs Branch, Department of Mines and Resources, Ottawa, Canada, and endorsed "Tenders for Lorette Indian Day School", will be received until noon on August 10, 1949, for the construction by contract of:—

1. Two-room Indian day school and attached teachers' residence, Lorette Indian Reserve, Village Hurons, P.Q.

Contractors shall tender in complete accordance with the relevant drawings, specifications, and tendering documents supplied by the Department of Mines and Resources. Contractors may tender on one or more of these projects.

The drawings, specifications and other documents will be exhibited at the following points from June 30, 1949 until August 10, 1949 inclusive:—

1. Indian Agent, Village Hurons, Que.

General instructions to Tenderer, Drawings and Specifications are obtainable at the above offices upon deposit of Five Dollars (\$5.00) in the form of a certified cheque made payable to the Receiver General of Canada. This deposit will be refunded upon return of the drawings and specifications in good condition to

1. Indian Agent, Village Hurons, Que.

within one month from the date on which tenders close.

To receive consideration, tenders must be submitted on the tender forms provided and must be accompanied by a certified cheque on a chartered bank in Canada, payable to the order of The Honourable the Minister of Mines and Resources, equal to ten per cent (10%) of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies, unconditionally guaranteed as to principal and interest by the Dominion of Canada, or of the aforementioned bonds and a certified cheque if required to make up an odd amount.

The Department reserves the right to reject any or all tenders and the lowest tender will not necessarily be accepted.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT the Indian Affairs Branch of the Department of Mines and Resources has provided for the construction of a two-room Indian Day School and attached teacher's residence on the Lorette Indian Reserve, Lorette Indian Agency, Province of Quebec, for the education of the Indian children living there;

THAT, in accordance with the provisions of the Public Works Act, tenders have been advertised for in local and trade newspapers;

THAT we have received, as a result of these advertisements, the following five tenders:

Joseph Eugene Tremblay, 127 de la Ronde St., Quebec City, P.Q.....	\$42,102.60
Keet Construction Company, Gros Pin, P.Q.....	\$43,750.50
Magloire Cauchon, Ltd., Quebec City, P.Q.....	\$44,870.00
Alfred Parent, 174 Rue Racine, Loretteville, P.Q.....	\$48,868.00
Eugene Jinchereau, 321 de la Salle, Quebec City, P.Q.....	\$52,500.00

THAT the above tenders have been examined by Departmental officials and it is found that they comply with the conditions outlined on tender forms which had been prepared by the Indian Affairs Branch and the plans and specifications as prepared by the Lands and Development Services Branch;

THAT Departmental officials recommend the acceptance of the lowest tender, namely that of Joseph Eugene Tremblay, 127 de la Ronde St., Quebec City, P.Q. in an amount of Forty-Two Thousand, One Hundred and Two Dollars and Sixty Cents (\$42,102.60);

THAT funds are available for this purpose in Vote 230, 1949-50, Indian Affairs Branch, Department of Mines and Resources.

In accordance with the provisions of the Public Works Act, we advertised for tenders for the erection of a two-room Indian Day School and attached teacher's residence, with full basement containing manual training and domestic science rooms.

These tenders have now been opened and tenders were received from five contractors. We would recommend the acceptance of the lowest tender, namely that of Mr. Joseph Eugene Tremblay of Quebec City, P.Q. A memorandum was received from Mr. Levy on August 8th concerning Mr. Alfred Parent. You will note that his tender is \$6,700.00 higher than that of Mr. Tremblay.

DEPUTY MINISTER

Re: Lorette Indian Day School

I am in receipt of Miss Hoey's memorandum of August 26th requesting that the name of Messrs. Parent and Daigle of Loretteville, P.Q., be added to the list of those who might be asked to tender on the new two-room school.

In memorandum dated August 22nd, I forwarded to you Submission to Council, requesting the acceptance of the tender of Joseph Eugene Tremblay. In the Submission to Council I mentioned the names of five firms from whom tenders had been obtained. One of these names was "Alfred Parent, 174 Rue Racine, Loretteville, P.Q.", who quoted an amount of \$48,868.00.

Mr. Alfred Parent is the same firm as Messrs. Parent and Daigle mentioned in Miss Hoey's memorandum.

SEALED TENDERS, addressed to the Director, Indian Affairs Branch, Department of Mines and Resources, Ottawa, Canada, and endorsed "Tenders for Lorette Indian Day School," will be received until noon on

AUGUST 16, 1949,

for the construction by contract of:—

1. Two-room Indian day school and attached teachers' residence, Lorette Indian Reserve, Village Hurons, P.Q.

Contractors shall tender in complete accordance with the relevant drawings, specifications, and tendering documents supplied by the Department of Mines and Resources. Contractors may tender on one or more of these projects.

The drawings, specifications and other documents will be exhibited at the following points from June 30, 1949, until August 10, 1949, inclusive:—

1. Indian Agent, Village Hurons, Que.
General instructions to tenderer, drawings and specifications are obtainable at the above offices upon deposit of Five Dollars (\$5.00) in the form of a certified cheque made payable to the Receiver General of Canada. This deposit will be refunded upon return of the drawings and specifications in good condition to

1. Indian Agent, Village Hurons, Que.
within one month from the date on which tenders close.

To receive consideration, tenders must be submitted on the tender forms provided and must be accompanied by a certified cheque on a chartered bank in Canada, payable to the order of The Honourable the Minister of Mines and Resources, equal to ten per cent (10%) of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies, unconditionally guaranteed as to principal and interest by the Dominion of Canada, or of the aforementioned bonds and a certified cheque if required to make up an odd amount.

The Department reserves the right to reject any or all tenders and the lowest tender will not necessarily be accepted.

H. L. KEENLEYSIDE,
Deputy Minister.

Gentlemen:-

Sometime ago tenders were called for the erection of a School House on the Reserve. At the same time firms placing tenders had to send accepted checks for ten per cent of the above tender. I have had two calls so far for the return of their checks, Keet Construction and Alf. Parent, will you see that same is returned at once, and oblige.

Respectfully.

MEMORANDUM

Re: Lorette Indian Day School,
Plan No. 891

4094

In reply to your marginal notation dated October 11th on memorandum of October 7th from the Director of Indian Affairs in which he states that it has been brought to his attention that the flat roof provided on the above plan is too weak.

The information conveyed to the Director of Indian Affairs is definitely incorrect, the roof being quite safe for the loads to be supported. It has been designed in accordance with the allowable stresses specified by the National Building Code as well as that of the National Lumber Manufacturers Association, which codes also provide for a factor of safety.

In connection with Major MacKay's observation regarding 2" x 4" studs in the bearing partition, we may say that while these bearing partitions are capable of carrying the loads they are called upon to support, it is felt that we might improve the design by some changes to simplify this construction so that this question will not be brought up again in the field.

The 2" x 4" studs of bearing partition under the 2" x 12" joists @ 12" centres, have been changed therefore to 2" x 6" @ 12" centres and the 2" x 4" studs in basement partition under the living quarters to 2" x 6" @ 16" centres.

A blueprint showing the changes in stud bearing partitions as explained above, is being sent direct to the contractor today.

MEMORANDUM

Re: Lorette Indian Day School,
Plan No. 891

In reply to your marginal notation dated October 11th on memorandum of October 7th from the Director of Indian Affairs in which he states that it has been brought to his attention that the flat roof provided on the above plan is too weak.

The information conveyed to the Director of Indian Affairs is definitely incorrect, the roof being quite safe for the loads to be supported. It has been designed in accordance with the allowable stresses specified by the National Building Code as well as that of the National Lumber Manufacturers Association, which codes also provide for a factor of safety.

In connection with Major MacKay's observation regarding 2" x 4" studs in the bearing partition, we may say that while these bearing partitions are capable of carrying the loads they are called upon to support, it is felt that we might improve the design by some changes to simplify this construction so that this question will not be brought up again in the field.

The 2" x 4" studs of bearing partition under the 2" x 12" joists @ 12" centres, have been changed therefore to 2" x 6" @ 12" centres and the 2" x 4" studs in basement partition under the living quarters to 2" x 6" @ 16" centres.

A blueprint showing the changes in stud bearing partitions as explained above, is being sent direct to the contractor today.

The Department finds it necessary to
return the above Voucher.

When issuing it, we would appreciate
it if you would use the term "cutting weeds

\$15.00 was very high for this work. Is there
any reason why such an amount was paid?

Dear Sir:-

Att: Mr. Phelan. Re: Voucher 125

Further to yours of the 3rd. instmt, bearing number 317-5(E.1), kindly note that up to this year we could give the weeds and hay for the cutting. Nobody was interested last summer so we had to get this done through an Indian who worked three days on same.

Trust this is satisfactory explanation.

Respectfully.

Re: Purchase Order No. 50302

The carload of cement of approximately 600 lbs., covered by the above purchase order, has not been delivered as yet, and the Indian Affairs Branch officials state that it is no longer required as it has been necessary to make other arrangements.

Under the circumstances, Purchase Order No. 50302 is hereby cancelled.

Yours very truly,

W. M. L. L. L.

Re: New Indian School
Loretteville, Que.,

Dear Sir,

We had today the visit of your
M. A. J. Doucet, Inspector, who have inspected the works
with M. Bastien, Agent, and M. Tremblay general contractor.

They have accepted the No. 2
progress payment to the amount of \$10,732.00 that I am en-
closing you herewith also with a fire insurance policy No.
894548 issued by The Royal Insurance Co Ltd, for the amount
of \$20,000.00 covering event losses and payable jointly to
His Majesty The King and J. Eugène Tremblay as provided by
the contract.

You will find also with the pre-
sent invoices and statement amounting to \$4,561.47 covering
supplementary works made to date upon your inspector's re-
commendation.

I had prepared these documents to
be handed to M. Doucet while he was here but he asked me to
address them direct to you because he did not expect to be in
Ottawa before a certain time.

Hope every thing will be found in
order.

Cordially yours,

We are prepared to declare this building surplus to our requirements and to have the Indian Council assume responsibility for its dismantling. Our normal practice in such cases is to allow one year for the building to be dismantled and for the site to be restored to its original condition. This means that the Council will have to fill in whatever excavation is at the school site and to level the ground.

Memorandum:

CHIEF, EDUCATION DIVISION

Lorette Indian Day School

The Lorette School contract was given for the sum of \$42,102.60. There will be several extras on this contract for the following reasons:

- X (1) The estimate apparently was based on the plans which gave the levels. These plans did not take into consideration the depression of the land which would, according to the plans, put the buildings about three feet below road level which was very undesirable. 3
- X (2) Providing for a dispensary for the Medical Branch.
- X (3) Because of an error in the plans themselves.

No. 1 will require extra cement, extra refill, extra lumber for forms and scaffolding and also extra labour.

X The coal bin is being used as a washroom for the Sisters and also for Domestic Science purposes and hence needed an exit to the outside from this room. X The height of the foundation at the rear was suitable for a door in the foundation here which was agreed to. This part should not exceed the cost of the door and the slight labour required which would be approximately \$40.

This involved

The extra plumbing required for a toilet and a wash basin will amount to approximately \$350. This extra should be charged to the Medical Branch since it was authorized for

their convenience. *change*

An answer from our memorandum suggesting an error in the plans of the school was agreeable. As a result new instructions were sent directly from the architect's office ordering the contractor to make the changes according to the new plans sent him. These plans required the change of 2" x 4"'s to 2" x 6"'s, also the doubling of the plates and a change in spacing which requires more material and more labour. The contractor was advised to send in these extras as soon as they were completed in order that we may prepare to meet these extra charges.

The outside of the school will require quite a bit of filling in. While in Lorette I interviewed a gentleman who has the equipment and who stated that this equipment was idle during the winter. Due to these facts he is prepared to give us a better price for this work during the slack season. He was asked to submit a tender to the Superintendent.]

At a discussion with the Chiefs of the Reserve, Mr. Gendron and the Superintendent, it was suggested that the old school should be given to the Welfare department for the construction of three small residences for needy Indians. I believe Mr. Gendron, before he left, submitted a report on this matter. I would recommend that we dispose of the school in this manner on the understanding that it should be removed and the site levelled by those who take possession.

Dear Sir:-

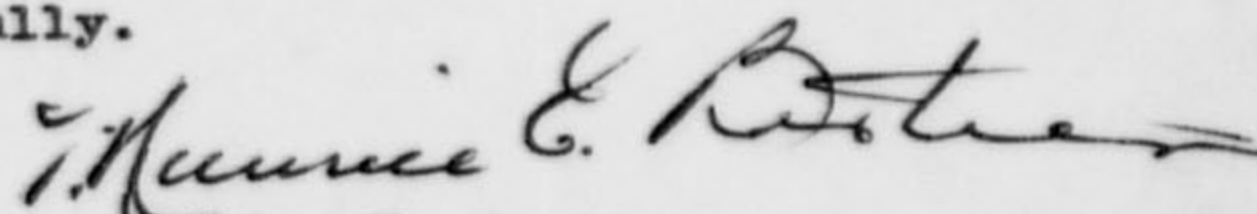

Att: Mr. B. Neary,
Supt. of Education.

Thanks for yours of the 12th. instant.
If you have the council take hold and dismantle the old school building in the spring, I can see a lot of trouble come out of it. I suggest that I get this dismantled by the interested families who will live in the new houses deriving from this material. The Dept. will then pay for the building of new houses, get the families to pay a minimum fee to live in the new houses, thus remaining under the control of the Department, and the Council having nothing to do with same. Otherwise trouble will come out from everybody wishing to live in those houses at a minimum fee.

I will be ready to take off when the teachers leave this school in the early summer.

Trusting this to be in order.

Respectfully.

The heating contractor still has some work to do in the boiler room, but the boiler is set up and connected to feeds and returns. However, the pump is yet to be installed.

Carpenters are almost finished with the wall board and, as the building is heated by temporary means, no time is lost through bad weather.

MEMORANDUM TO THE DIRECTOR:

Lorette Indian Day School

Reference is made to your notation on a memorandum from the Director of Indian Affairs Branch regarding inspection of the above mentioned project by our engineer who is supervising the installation of the Lorette water supply.

When Mr. Ross established Mr. Lancaster at Lorette in connection with the water supply, arrangements were made whereby he would inspect the Indian Day School and submit periodic reports on its progress. This arrangement was agreed to by Mr. C.H. Buck, Chief Architect, who is kept advised of the progress and any comments in connection with construction details.

We are attaching a summary of the progress reports received to date.

Honourable Minister,

I belong to the Huron Village Reserve.

You are having a school built on the Reserve,
the contractor being Mr. J.O. Tremblay.

For more than two months, I have been asking
him for work, but he keeps putting me off.

To-day I requested of him employment as
painter. I have a qualifying certificate, bearing No. 8770,
but he refused to employ me.

Is this fair?

What is the reason?

Is Mr. Tremblay afraid that the Hurons might
discover that he is botching the work?

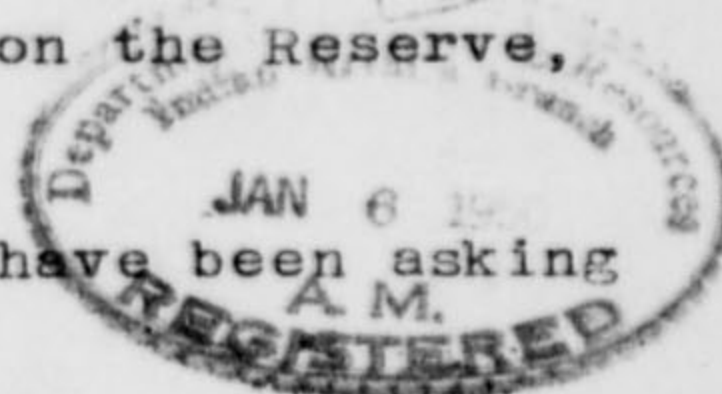

Could you, Honourable Minister, remedy
the situation, by forcing Mr. Tremblay to employ me as painter
for the inside work now being done, and to treat me the same as
other employees.

Yours truly,

(Sgd.) Camille Dumont,

Huron Village, (P.Q.)

P.S. Mr. Tremblay does not employ
any man belonging to the Huron tribe,
but only white men.

Attached for your information is a
copy of a letter received from Camille Dumont.

While we cannot oblige the contractor
to employ Indians, at the same time we always expect
them to do so if the Indian concerned is competent
to do the work the contractor requires.

In view of the above, we would appreciate
it if you would interview Mr. Tremblay and ascertain from
him if Dumont has applied for work, and if so, why he was
not employed.

Dear Sir:-

Att: Mr. B. F. Neary,

Thanks for yours of the 13th. instant,
bearing number 317-5 (E1). In reference to Camille Dumont,
I know he tried to get a job as painter at the Convent, from
Mr. Tremblay and I have seen the latter in reference to the
above. He states he could not employ Dumont before his job
was ready for the painting of the school, and he will do his
best when it is time to do so, as long as Dumont will not try
and boss him. I know for a fact, that every Indian who worked
at the Convent, have tried to boss him in some way.

Trusting this to be satisfactory explanations.

MEMORANDUM TO THE DIRECTOR

Lorette Indian Day School.

In a report dated the 21st of January, our engineer who is supervising the construction of the above, states that nearly all the structural work is complete. The kitchen cupboards are now being placed, and with the exception of hanging the doors and completing the stairs, the most of the carpentry work is finished. Most of the wood trim, as well as the walls on the second floor, has received a primer coat of paint. All the plumbing fixtures excepting a sink and two drinking fountains have been installed. The rough concrete floor slab for the basement was poured during the past week, and is now ready for the finished concrete surface after being allowed to set.

On the whole our engineer reports that the job which is being supervised only by this Service is proceeding satisfactorily.

Messieurs,

Nous avons appris par l'entremise de M. Maurice Bastien, agent de la Réserve Huronne de Lorette que vous étiez à construire une nouvelle école dans ce village.

Etant manufacturier de meubles de toutes sortes et surtout fabriquant de mobilier de classe, il nous ferait plaisir de vous soumettre nos échantillons et nos prix pour tout ce qui touche l'ameublement de cette école.

Nous sommes prêts à négocier directement avec votre département ou encore avec tout agent ou représentant officiel de votre département à Ottawa, Quebec ou Lorette.

Dans la circonstance auriez-vous l'obligeance de nous transmettre le nom et l'adresse de votre représentant afin que nous puissions communiquer avec lui dans le plus bref délais possible.

Nous serons heureux de recevoir sa visite à notre manufacture ou d'obtenir une entrevue avec lui dès que vous aurez l'amabilité de nous donner cette information.

Espérant vous lire couds peu, nous demeurons,

Ottawa, 3 February, 1950.

Dear Sir:

Lorette Indian Day School

Attached is Progress Payment Estimate No. 3 in duplicate, dated January 17th, 1950, totalling \$14,549.83, which has been certified by our engineer, G.W. Lancaster, who is supervising the work. When submitting this Estimate, Mr. Lancaster reported as follows:-

"I have checked the items presented for payment on this form and find them fair and just.

Further, the amount of work yet to be done on the contract has been carefully checked against the balance of the contract price, plus the amount of approved extras.

It is the writer's opinion, that the Department's interests are sufficiently protected.

I therefore recommend this payment for your approval."

In Mr. Lancaster's report for the week ending January 28th, he states that the progress of the work is coming along very well, and that he agrees with the contractor's estimate that the interior of the building should be ready for use about the middle of March.

I am,

Very truly yours,

Dear Mr. Gibson:

Re: Lorette Indian Day School

I have been informed that Mr. J.E. Tremblay, the contractor in charge of the erection of the above school, has stated that his work has been completed.

As it was necessary to make certain changes in the original plans, the contractor is requesting payment of extras over and above the amount of the original contract.

Under the circumstances, I feel that it is necessary to have one of your engineers visit the school as soon as possible and make certain that all the work has been properly carried out according to the revised plans and specifications.

I would, therefore, appreciate receiving a report from you following your engineer's inspection.

Yours sincerely,

We have not decided yet what type of blind we will
instal at this school but intend to decide this on my
next visit to Loretteville. At that time I will probably
have occasion to interview you should we decide to instal
venetian blinds.

PUBLIC SERVICE BOARD

RULES AND REGULATIONS

GENERAL ORDER No. 11 (As amended on January 15th, 1942)

General Rules with Reference to the Supplying of Electricity and Gas for Lighting, Heating, Cooking and other Appliances, and Form of Application for such Services.

WHEREAS it is considered that it is in the interest of the efficiency of public services generally in the Province, and in every way in the public interest, to amend General Order No. 11, issued on the 24th of September, 1940, and that general rules and a typical form of application be adopted with respect to the supplying of electricity and gas for lighting, heating, cooking and the operation of other appliances.

WHEREFORE, be it resolved that the following general rules and typical form of application be adopted as the general rules with reference to the supplying of electricity and gas for lighting, heating, cooking and the operation of other appliances, and form of application therefore respectively, and that the said rules and application form shall come into force and effect on February 1st, 1942; and that subsequent to that date no other rules may be used by any public service in the Province.

The present order cancels and replaces all prior orders issued for the same purposes.

Montreal, January 15th, 1942.

LUCIEN DUGAS,
President.

PUBLIC SERVICE BOARD

General Rules with Reference to the Supplying of Electricity and Gas for Lighting, Heating, Cooking and other Appliances.

1.—DEFINITIONS

In these rules the word "Supplier" shall have the same meaning as the words "Public Service" as defined by the Quebec Electricity Commission Act, (25-26 George V, 1935, Chapter 24), and by the Provincial Transportation and Communication Act, (3 George VI, 1939, Chapter 16). The word "Consumer" or "Customer" shall mean any person, company or corporation receiving from the Supplier, electricity or gas for the above purposes. The word "Board" shall mean the Public Service Board. The words "Consumer's or Customer's property," and "Consumer's or Customer's premises" shall mean and include any property, building, dwelling, establishment or premises with all their dependencies, of which the Consumer is the occupant, whether as proprietor or otherwise.

2.—APPLICATION FOR SERVICE AND DURATION OF CONTRACT

(A) The Supplier may require the prospective consumer to sign an application for each service required according to the typical form hereto annexed or such other form as may be approved by the Board; no other form shall be used. Such form shall mention the kind of service applied for, the purposes and period for which it is required and the rates in force therefore. The Consumer shall be entitled to obtain from the Supplier a copy of his application together with a copy of the present rules.

(B) The Consumer shall not be obliged to bind himself for a period longer than one year for electricity or gas service not requiring the extension of a pole line or gas main, the installation of a special transformer or other special apparatus outside the Consumer's premises.

(C) Except with the Supplier's consent, no person shall make use of any service without first signing an application therefore and making such deposit as the Supplier may demand under the present rules.

(D) The Supplier shall begin the service to the Consumer as soon as possible after the signing of the application and the making of such deposit as the Supplier may demand under the present rules. Such service may be discontinued only in conformity with the present rules.

(E) The Supplier may require the Consumer to sign a new application when his requirements are so modified as to necessitate a change in the classification of service used or the charges therefore.

(F) Should the Consumer intend to move to other premises, he shall give the Supplier, at its office, written notice at least three days before the date upon which he intends to vacate the premises. Such notice shall contain the Consumer's present address, as well as the new address, and the date upon which he intends to move. The Consumer sending the foregoing notice ceases to be responsible for service to the premises as from the actual date of vacation, but remains liable for any special commitments which may have been agreed upon. The application for service at the former premises shall apply to service used at the new premises.

(G) Should the Consumer move to other premises and fail to advise the Supplier in writing to that effect, in conformity with the present rules, the contract for service at the premises vacated shall apply to the service used at the newly occupied premises.

(H) Upon expiration of the term mentioned in the application or any successive term, the Consumer may terminate his responsibility thereunder by giving a written notice to that effect to the Supplier, at its office, at least three days before the expiration of such term. Should such notice not be given by the Consumer the contract shall remain in force by tacit renewal for a like term.

(I) Whenever the Consumer during the life of the contract has no further need for such kind of service as obtained from the Supplier at either the premises supplied or at any other premises to which he may move within the territory served by the Supplier, he may then give the Supplier, at its office, written notice to discontinue the service within three days, and his responsibility for the service shall cease thereafter. However, the Consumer shall be liable for any special commitments which may have been agreed upon.

3.—DEPOSIT

Before furnishing service the Supplier may require from the Consumer a reasonable cash deposit as security for the payment of the service supplied. A receipt therefor shall be delivered by the Supplier to the Consumer.

Such deposits shall be of a minimum of \$5.00 when service is billed every two months and of \$3.00 when billed monthly, but shall not otherwise exceed an average two months' bill; such deposit shall bear interest at the rate of 4% per annum, payable at the office of the Supplier at the end of each year, or, if not claimed by the Consumer, to be paid at the end of every five years by cheque or credit note.

The deposit shall be refunded to the Consumer, with interest due to date, upon discontinuance of the service and the payment of all amounts due to the Supplier.

4.—RATES

The rates charged by the Supplier shall be those deposited with or authorized by the Board.

Except when otherwise authorized by the Board, the net rates charged by the Supplier shall be uniform in each municipality, respecting each class of consumers; for gas service, the rates shall be uniform respecting all consumers in the same class applying for service for a period of not less than one year; for electricity service, the rate differential between the one year and longer term application in no case shall exceed 1/5 cent net per kilowatt-hour.

The Supplier must give the Consumer the benefit of every general reduction in its rates, applicable to the locality in which the premises occupied by the Consumer are situated.

5.—ACCOUNTS

The Supplier shall deliver to the Consumer, at least once every two months, a detailed statement of the amount due.

Such statement must show the meter readings at the beginning and at the end of the period covered, the quantity of electricity and/or gas supplied, the unit prices which apply, and all other information which will be of assistance to the Consumer in verifying the amount due by him. The bill must also be dated, and must show the period covered and the delay within which it must be paid in order to give the Consumer the benefit of the discount. Such delay shall not be less than ten days.

Every bill for electricity or gas, or for work executed under the present rules or by order of the Board, shall be payable at an office or agency of the Supplier within fifteen days from the date it is sent to the Consumer, except that weekly bills shall be payable within three days and final bill on the day of the final reading of the meter.

6.—METERS

The Suppliers must supply and install in the premises of the Consumer such meter or meters as are necessary for the purposes of the service supplied.

The Consumer must provide a safe, convenient and accessible place for the installation of the meters.

All questions in connection with the placing and testing of meters, and claims arising from their inaccuracy, are subject to the provisions of all Federal, Provincial and Municipal regulations in respect thereof.

The Supplier shall, at the request of the Consumer, explain the method of reading the meter and ascertaining the amount of electricity and gas used.

7.—OVERHEAD SERVICE CONNECTIONS

The Supplier shall provide and install, at its expense, all wires, supports, insulators and accessories required to connect its system with the wiring of the Consumer, but it shall not be required to extend its overhead wires at its expense beyond the nearest wall of the building to be supplied, nor in any case for more than 100 feet from the line of farm lots and 30 feet from the line of building lots. This clause applies only to service connections and does not constitute an obligation for the Supplier to extend any pole line, primary or secondary circuit.

All wiring and other accessories required on the Consumer's property beyond the limit above mentioned to connect his installation to that of the Supplier, shall be provided by the Consumer at his own expense.

When the service applied for is used for less than twelve months at any premises, the Supplier may require the Consumer to pay the cost of the wires, cables and other accessories installed, inclusive of the cost of their installation and removal. In such case, after disconnection, the Supplier shall credit the Consumer with the value of any useful materials removed.

8.—INSTALLATION ON THE CONSUMER'S PREMISES

The installation of wires, piping and other apparatus on the Consumer's property shall be done in accordance with the regulations and specifications adopted by any Federal, Provincial or Municipal body having jurisdiction in respect thereof; and where no such regulations exist, the rules of the Supplier, as deposited with the Board, shall apply and the Supplier shall not be required to connect any service to its system until the Supplier has received the necessary evidence that such regulations and specifications have been complied with.

The Supplier shall not impose any other conditions than those contained in the hereinabove referred to regulations and specifications, except with the authorization of the Board.

The Consumer shall notify the Supplier in writing before making any change in the installation on his premises or in the use made thereof, which may affect the service or the charge therefor.

The Consumer must not tamper or interfere with the service or the apparatus of the Supplier, and the control of the latter over its electricity or gas shall continue up to the point of metering.

9.—ACCESS TO CONSUMER'S PREMISES

The Supplier's employees shall be entitled to enter the Consumer's premises at all reasonable hours for purposes relating to its service, but the regular meter readings shall take place only between the hours of 8.00 a.m. and 8.00 p.m. in cities and towns, and between 7.00 a.m. and 6.00 p.m. in other places, Sundays and legal holidays excepted.

10.—DISCONTINUANCE OF SERVICE

No Supplier may discontinue the service to the Consumer save in the following cases:

- a) When necessary for public safety.
- b) Upon notice from any Federal, Provincial or Municipal body having jurisdiction in respect thereof.
- c) Upon receipt of a written request from the Consumer.
- d) When a new Consumer occupies premises already connected and refuses to sign an application for service or to make such deposit as may be exacted under the present rules.
- e) When the Consumer is caught in the act of stealing gas or electricity or when there is prima facie evidence of tampering with the Supplier's equipment.
- f) When the Consumer fails to pay the amount of the Supplier's duly rendered bill within the delay prescribed in the present rules, provided the Supplier has given the Consumer a six days' notice of its intention to discontinue service. The form of notice given shall be approved by the Board and shall inform the Consumer that if he believes the bill to be inaccurate or that he is not liable therefor he has a right to appeal to the Board in writing before the expiration of the six days' notice, in which case he shall send a copy of the appeal to the Supplier. The Supplier shall not discontinue its service to the Consumer who has appealed to the Board until the Board so authorizes.

As soon as the ground for discontinuance of service has been removed the Supplier shall re-establish the service promptly. When the cause of discontinuance of service is attributable to the Consumer the cost of reconnection shall be chargeable to him.

Canadian Indemnity Company

The Roofers Supply Co. Limited

ROOF GUARANTY BOND

Know all men by these presents that we, THE ROOFERS SUPPLY CO. LIMITED, of Toronto, Canada, hereinafter called the "Principal", as Principal, and the CANADIAN INDEMNITY CO., qualified to do business under the laws of the Dominion of Canada, and having an office in the City of Toronto, hereinafter called the "Surety", as surety, are held and firmly bound to the owner named below, successors and assigns, in the penal sum of not exceeding.....
Two Hundred & Fifty dollars - - - -XX/100 (\$ 250.00) DOLLARS
lawful money of the Dominion of Canada, for which payment well and truly to be made, we, and each of us, bind ourselves, our successors and assigns, jointly and severally, firmly by these presents.

The conditions of the above obligation are such that:

Whereas, the said THE ROOFERS SUPPLY CO. LIMITED, has furnished the necessary roofing materials to construct a Roofers Supply Co. Limited Specification Roof on the building described below:

Owner..... Dept. of Mines and Resources
Owner's Address..... Ottawa, Ontario
Type of Building Indian Day School with teachers quarters
Location of Building..... Indian Reserve, Lorette Village, Que.
Approximate area of The Roofers Supply Co. Limited Specification Roof Guaranteed (...34.....) Squares
Type of Roof Guaranteed..... 4-Ply Pitch & Gravel - wood with 1" Insulating Board
Date of Completion of Application of Roofing..... November 18th, 1949
Applied by..... J.D. Savard Limitee
Whose address is..... Quebec City, Que.

and

Whereas, the said The Roofers Supply Co. Limited Specification Roofing has been applied, on the roof of the building described above, in accordance with specifications for a Roofers Supply Co. Limited Specification Roof; and

Whereas, the said THE ROOFERS SUPPLY CO. LIMITED, as Principal, guarantees, under the conditions hereinafter set forth, that during a period of...20.....years from specified date of completion of application of roofing, it will, at its own expense, make any repairs (excepting repair of injury from any cause other than wear and tear incident to the ordinary and normal action of the elements) that may become necessary to maintain the said The Roofers Supply Co. Limited Specification Roof in watertight condition, exclusive of Metal Work, Steep Surfaces, Flashings, Distortion, Alterations or Failure of the Foundation on which said roof rests, or other conditions beyond its control; and

Whereas, said guaranty is made with such further conditions:

- The owner of said roof will notify the said THE ROOFERS SUPPLY CO. LIMITED, in writing, at Toronto 4, Canada, if such repairs are required; and in case of failure of THE ROOFERS SUPPLY CO. LIMITED to make such repairs within a reasonable time, then the owner shall immediately notify the CANADIAN INDEMNITY CO. at Toronto, of such default, by registered mail.
- Nothing herein shall be construed to render THE ROOFERS SUPPLY CO. LIMITED, or said Surety, liable in any respect for any damage to said building or any contents thereof.
- THE ROOFERS SUPPLY CO. LIMITED will not be responsible for any damage to The Roofers Supply Co. Limited Specification Roofing caused by defects or failure of any material used as a roof base over which it is applied.

Now, Therefore, if the said, THE ROOFERS SUPPLY CO. LIMITED, its successors and assigns shall in all things well and truly perform and observe all and singular the covenants, agreements, stipulations and conditions shown above to be performed and observed by it, then this obligation shall be void, otherwise to be in full force and effect.

IMPORTANT !

This Bond is your guarantee that the roof covered by it will give satisfactory service for the period stated.

We keep a plan of the roof in our files showing any openings on the roof, such as vent pipes, drains, chimneys, penthouses, etc., which were there when the roof was completed.

It is important that if any openings are to be made in roof, or any structure erected thereon, that we be notified before such work is done, and any necessary roofing work be performed according to our specification and under our supervision, otherwise the Bond becomes void.

This condition, of course, is covered in the Bond itself, but we are emphasizing the point due to past experience with many owners who have neglected to do this.

Thanks for yours of the 3rd. instant. Another question has crept up, an Indian of the Reserve has made a similar offer to take the house away, but I have told him that he must make a deposit of 500.00 to make good the levelling of the ground. If this is satisfactory, kindly advise me, his name is Harry Grosblouis Jr. and resides next to the Convent.

Dear Mr. Bastien:

I have just received the recent bid that you have sent me from Harry Grosblouis. I believe that I could work it for him without going through the Salvage Department as he is an Indian. I am not sure whether I have the problem clear in my mind. If I am not mistaken, Harry Grosblouis is offering \$200 for the old school building with the understanding that he will fill the basement and make the site level with the rest of the ground.

Please let me know by return mail whether my assumption is correct. I would like to have this in writing in order to present it to the Director.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT P.C. 4355 dated August 31st, 1949, awarded a contract to Joseph Eugene Tremblay, 127 de la Ronde Street, Quebec City, P.Q., for the erection of a two-room day school with teacher's living quarters attached, on the Lorette Indian Reserve, Province of Quebec.

THAT after construction was started, it was found necessary to make certain changes in the plans and specifications.

THAT as a result, the firm has submitted an account of \$6,802.72 for extras.

THAT the Departmental engineers have examined the building and report that the extras have been carried out in a satisfactory manner, and in their opinion, the amount requested is reasonable.

THAT funds for the purpose are available in Vote 59, 1950-51, Department of Citizenship and Immigration (Indian Affairs Branch).

The undersigned, therefore, has the honour to recommend that authority be granted to pay Joseph Eugene Tremblay, 127 de la Ronde Street, Quebec City, P.Q., the amount of \$6,802.72.

Respectfully submitted,

PP/ST

Minister of Citizenship & Immigration.

Memorandum:

DEPUTY MINISTER

Re: Lorette Indian Day School,
Lorette Indian Agency, Province
of Quebec, Electoral District of
Quebec-Montmorency.

P.C. 4355 dated August 31st, 1949, awarded contract to Joseph Eugene Tremblay, 127 de la Ronde Street, Quebec City, P.Q., for the erection of a two-room day school with teacher's living quarters attached.

After construction commenced, it was found necessary to make certain changes, and as a consequence, extras in an amount of \$6,802.72 were incurred. The following is an explanation of the extras.

1. The original estimate submitted by the company was evidently based on our plans which gave the levels. These plans did not take into consideration the depression of the land, and if the plans had been followed, the building would have been placed about three feet below road level, which was undesirable. To overcome this difficulty, we required extra cement, extra refill, extra lumber for forms and also extra labour.
2. In addition, it was found that the room originally shown on the plans as a coal bin would be required for a washroom for the Sisters in charge of the school, and also for Domestic Science purposes. Consequently, this required an exit to the outside. Extra plumbing for the toilet and wash basin was also required.

.....2

3. After construction commenced, it was found that there was a mistake in the plans, and as a result, new instructions were sent directly from the architect's office ordering the contractor to make certain changes. This involved changing the 2" x 4"'s to 2" x 6"'s, also the doubling of the plates and a change in spacing, which required considerably more material and labour.

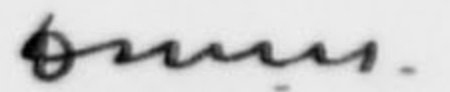

The building has recently been completed, and an Engineer from the Department of Resources and Development reported on it in a memorandum dated April 12th, 1950, as follows:

"Structurally, both materials and workmanship are good. The sub-trades, plumbing, heating and electrical contracts, were carried out by competent firms and the installation of these facilities are very satisfactory. Certain local conditions that developed after the contract was awarded, necessitated changes being made in the original plans, and as a result, extras had to be allowed in order to meet the requirements. These extras have been carried out in a satisfactory manner, and the amount requested by the contractor for them is considered reasonable."

Memorandum to Council is enclosed.

We have received four tenders for levelling

The tender of Marcel Legare is considerably
lower than the others, but before submitting the matter

Further to yours of the 9th. instant, kindly
be advised that from what I hear around, he is the tenderer
with the best facilities to make the job at the convent.

He owns his own gravel pit, and has three trucks

Dear Sir:-

Att: Mr. A.J. Doucet,
Sup. Vocational Training.

Have met Mr. GrosLouis and he asks me to wait
until he returns from guiding American fishermen, about June
5th. to settle the matter of the old convent. He is not very
rich, and he claims he will be able to settle this then.

I think you should do this to help him along.
Kindly advise your reaction if any.

Mr. A. J. Doucet,
200 Fisher Ave.,

Sir,

Two months ago Mr. Lancaster passed at Loretteville, and this was to have been the last inspection so that the school would be accepted. Since, I have written to Mr. Selend and I have not yet received an answer.

Moreover, I would want the contract for the light to be sent either to Mr. Bastien or myself, so that the Quebec Power will look after putting in the electricity. I would also like to pick up the material that belongs to me at Loretteville as I need it.

I am referring this to you so that you will see that this affair is settled. Further, I am counting on you to give in a good word for me for the submission of Seven Islands. It has already been three weeks since the submission has gone and I have not yet received an answer.

Hoping to receive favourable news soon, and thanking you in advance, I remain

Yours very truly,

Citizenship and Immigration (hereinafter called the "debtor"), securing and/or
covering (b) deposit of \$4,200.00 made with tender re contract of Indian Day School,
Loretteville, Que.

the said moneys, claims, rights and demands or any of them, or any part or parts thereof, being hereinafter
referred to as the "debt."

(2) The undersigned agrees that the debt shall be held by the Bank as general and continuing
collateral security for the fulfilment of all obligations, present or future, of the undersigned to the Bank,
whether arising from dealings between the Bank and the undersigned or from any other dealings by which the
Bank may be or become in any manner whatsoever a creditor of the undersigned, and whether such obligations
were or be incurred alone or jointly with another or others, and whether as principal or surety, and whether
matured or not, and whether absolute or contingent.

(3) The undersigned expressly authorizes the Bank to collect, demand, sue for, enforce, recover and

and with the debt and other securities as the Bank may see fit, without prejudice to the liability of the
undersigned or the Bank's right to hold and realize this security.

(8) The Bank shall not be liable or accountable for any failure to collect and/or enforce the debt
and the Bank shall not be bound to institute proceedings for the purpose of collecting and/or enforcing the
same or for the purpose of preserving any rights of the Bank, the undersigned or any other person, firm or
corporation in respect of the same.

(9) The Bank may charge on its own behalf and also pay to other persons, firms and corporations
reasonable sums for services rendered and for expenses incurred in collecting or attempting to collect and/or
enforcing or attempting to enforce the debt and may add the amount of such sums to the indebtedness of the
undersigned and/or retain the said amount out of the moneys received by the Bank.

(10) The undersigned covenants and agrees with the Bank that all of the obligations of the under-
signed and others concerned under or in virtue of the instrument and all other agreements incidental or
ancillary thereto shall be fulfilled, and the undersigned shall from time to time forthwith on the Bank's
request furnish to the Bank all writings and information requested relating to the obligation in respect of
which the debt is payable and the Bank shall be entitled from time to time to inspect any books, papers,

Re: Purchase Order 57748

Dear Sir:-

On the 6th instant we placed the above order with you for an electric range and a washing machine for Lorette Indian Day School, Loretteville, P.Q. Subsequently we were informed by our Indian Affairs Branch officials that the electric range is not required, as there was a duplication of request for this commodity. In a phone conversation with this office, you advised that the range had not yet been shipped and could be deleted from the order.

Under the circumstances, the Moffat electric range Model 1013 covered by Purchase Order 57748 is hereby cancelled.

Yours very truly,

H.E. Reaume

Re: Lorette Indian Day School No. 317

J. Eugene Tremblay, 127 de la Ronde Street, Quebec City, P.Q. was awarded a contract for the erection of the above school by P.C. 4355 dated August 31st, 1949. A security deposit cheque for \$4,200.00 was forwarded to the Department of Finance under cover of your letter of September 8th, 1949.

The building has now been completed, and Certificate of Acceptance has been issued by the Supervisor of Construction. It would, therefore, be appreciated if you would have his security deposit cheque return to Mr. Tremblay immediately.

Re: Lorette Indian Day School

With reference to your letter of the 20th ultimo addressed to Mr. Doucet, the Department approves an expenditure of \$67. for wax, floor cleaner and floor polisher. Provincial tax does not apply to purchases made by the Dominion Government.

It should be understood by the Reverend Sisters at the school that while the Department is supplying the polisher we will not be responsible for any repairs that might be necessary for its operation.

Memorandum:DEPUTY MINISTER

Re: Lorette Indian Day School,
Lorette Indian Agency, Province
of Quebec, Electoral District of
Quebec-Montmorency.

P.C. 4355 dated August 31st, 1949, awarded contract to Joseph Eugene Tremblay, 127 de la Ronde Street, Quebec City, P.Q., for the erection of a two-room day school with teacher's living quarters attached.

After construction commenced, it was found necessary to make certain changes, and as a consequence, extras in an amount of \$6,802.72 were incurred. The following is an explanation of the extras.

1. The original estimate submitted by the company was evidently based on our plans which gave the levels. These plans did not take into consideration the depression of the land, and if the plans had been followed, the building would have been placed about three feet below road level, which was undesirable. To overcome this difficulty, we required extra cement, extra refill, extra lumber for forms and also extra labour.
2. In addition, it was found that the room originally shown on the plans as a coal bin would be required for a washroom for the Sisters in charge of the school, and also for Domestic Science purposes. Consequently, this required an exit to the outside. Extra plumbing for the toilet and wash basin was also required.

3. After construction commenced, it was found that there was a mistake in the plans, and as a result, new instructions were sent directly from the architect's office ordering the contractor to make certain changes. This involved changing the 2" x 4"'s to 2" x 6"'s, also the doubling of the plates and a change in spacing, which required considerably more material and labour.

The building has recently been completed, and an Engineer from the Department of Resources and Development reported on it in a memorandum dated April 12th, 1950, as follows:

"Structurally, both materials and workmanship are good. The sub-trades, plumbing, heating and electrical contracts, were carried out by competent firms and the installation of these facilities are very satisfactory. Certain local conditions that developed after the contract was awarded, necessitated changes being made in the original plans, and as a result, extras had to be allowed in order to meet the requirements. These extras have been carried out in a satisfactory manner, and the amount requested by the contractor for them is considered reasonable."

Memorandum to Council is enclosed.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL

The undersigned has the honour to report:

THAT P.C. 4355 dated August 31st, 1949, awarded a contract to Joseph Eugene Tremblay, 127 de la Ronde Street, Quebec City, P.Q., for the erection of a two-room day school with teacher's living quarters attached, on the Lorette Indian Reserve, Province of Quebec.

THAT after construction was started, it was found necessary to make certain changes in the plans and specifications.

THAT as a result, the firm has submitted an account of \$6,802.72 for extras.

THAT the Departmental engineers have examined the building and report that the extras have been carried out in a satisfactory manner, and in their opinion, the amount requested is reasonable.

THAT funds for the purpose are available in Vote 59, 1950-51, Department of Citizenship and Immigration (Indian Affairs Branch).

The undersigned, therefore, has the honour to recommend that authority be granted to pay Joseph Eugene Tremblay, 127 de la Ronde Street, Quebec City, P.Q., the amount of \$6,802.72.

Re: Lorette Indian Day School,

Regarding the Minister's query respecting omissions in tenders being at the contractor's risk, it is felt that Mr. Harris should be advised that where a reputable contractor prepares an estimate, he is expected to have ability and knowledge to prepare it correctly, and after investigation and his assurance that all items are included, a department of government might be justified in limiting him to the amount of his estimate.

However, at Lorette, the successful contractor, Joseph Eugene Trembly, was not a high-classed contractor and was obliged to prepare his tender without access to technical personnel for advice or comment regarding the peculiarities of the site and the method to be followed in adapting a typical design to an eccentric site. As a result, a bona fide error was only discovered when construction was well advanced. Since he was instructed to proceed following correction of his error, it is felt that he should receive consideration in connection with the resultant extra cost involved.

Where the necessary technical personnel is available to establish correct procedure in construction, tenders are examined and the contractor's methods and items explored before a contract is awarded. Since in this instance correct practice was not followed, we do not feel that the contractor should be penalized.

C. H. Buck.
Chief Engineer.

MEMORANDUM TO THE DEPUTY MINISTER.Re: Lorette Indian Day School, Lorette Agency, Quebec.

Complete analysis of the matter covered by my memorandum to you under date of May 17th last, with reference to the above, has been delayed due to the absence from Ottawa on field duty of our Education Service Officer most familiar with the matter. The said officer, having recently returned, we have been able to discuss the matter with him, and the following comment is offered:

The Submission to Council, forwarded with my memorandum, seeks authority for our Minister to pay to Joseph Eugene Tremblay, the Contractor, extras beyond the limit of his contract to the amount of \$6,802.72.

This school was one of the buildings for which our Education Service was forced to assume construction responsibility due to the volume of work upon which the Engineering and Construction Service, Department of Resources and Development, were engaged at the time supervisory assistance was badly needed by this Branch.

The contract had been awarded as the outcome of advertised invitations for tenders, and one of the contractor's obligations in tendering was to visit the site and acquaint himself with the conditions and difficulties that he might encounter in construction, one of which was to adapt a typical set of working drawings to the site.

*shouldn't this
be at contractor's
risk?*

The contractor evidently was not able, when tendering, to visualize that, to obtain solid bearings for his footings and, at the same time, place the main floor in the correct relation it should bear to the street, it would be necessary to increase the height of the foundation walls above that shown on the typical design, and the cost of the additional concrete required was not included in his tender. Construction had been initiated and most

of the concrete had been poured when the correction was made, but there was no alternative to having the contractor carry the wall to the required height as an extra item. During the course of construction, approval was given for the installation of a small dispensary in the basement for the use of the Health Supervisor of the Department of National Health and Welfare, and further approval was given for the installation of laundry equipment to convert the original fuel storage room to a small laundry. Also, during construction, the contractor was authorized to change the heating system from coal to oil fuel, necessitating the installation of an oil burner. During this period, it was further decided to increase the size of structural timbers in the bearing partitions carrying the roof construction.

The school frame work had been completed and the building closed in before intermittent supervision by a Construction Supervisor from Resources and Development was available.

All of these changes involved revisions to water lines, electric wiring and drainage; and the combined cost of all items, amounting to \$6,802.72, is considered reasonable by our own recently appointed Engineering staff. I might say that the cost involved in providing a dispensary for the Health Supervisor will be recovered from the Department of National Health and Welfare.

As building operations progressed, and the various items involving extras arose, authorization should have been obtained and the increases in cost brought to the attention of our Treasury officials with written evidence of approval from the proper source. This would have eliminated the necessity of securing the approval of Council for a total expenditure beyond the limit of our Minister's authority.

However, funds are available and, as the charges are legitimate, there appears no alternative to obtaining authority to pay them. Work on the school, including the extras, has been completed in a satisfactory manner, and a Certificate of Acceptance has been issued by the previously-mentioned Supervisor of Construction.

It is recommended, therefore, that the Submission dated May 17th, 1950, and already signed by our Minister, be forwarded for action by Council. The copies you returned to Mr. Buck are attached hereto.

The fill and finished grading necessitated by the peculiarities of the site are not part of Tremblay's contract, and tenders are presently being invited from properly equipped contractors for that final phase of operations.

In reply to your letter of the
12th instant, the Department finds it difficult
to understand why you should receive another
electric range.

This range bearing P.O. No.
57748 had been cancelled by our Purchasing Branch
on June 14 and only one had been ordered. You will
recall that two were purchased from a Quebec firm
and that you have received one which you forwarded
to Caughnawaga.

This one that you sent to Caughnawaga
must be the one on which you have just received notice.
On the same Purchase Order a washing machine was ordered.
You should still receive the washing machine.

Please let us know should this be
otherwise.

Re: Indian day school
Loretteville, Que.

Dear Sir,

Please find enclosed herewith No. 4
progress payment on that contract for the account of M. J.
Eugène Tremblay, General Contractor, 127 de la Ronde St.
Quebec.

This progress ^{payment} leaves a balance of \$
\$200.00 two hundreds dollars, covering balance of painting
outside of the building which can not be done before the
early part of April and perhaps later depending then on the
temperature.

Will advise for final inspection.

Cordially yours

Ottawa, August 1, 1950.

MEMORANDUM:

SUPERINTENDENT OF INDIAN EDUCATION

I have your request of July 28th to return the security deposit of J.E. Tremblay in connection with the Lorette Indian Day School.

A similar request was received from you on July 7th, and action was taken immediately, resulting in the transmission of a cheque for \$4,263.21, being sent Mr. Tremblay under letter dated July 20th, 1950.

Dear Mr. Tremblay:

Lorette Indian Day School

We have your letter of the 20th ultimo enclosing a statement requesting payment of an additional \$11,584.10.

We recently forwarded to you a cheque for \$6,802.72. This cheque covered the following items:

November 25, 1949	- \$3,849.47
February 17, 1950	- 987.03
February 17, 1950	- 1,351.87
April 1, 1950	- 614.35
	\$6,802.72

The Finance Department was also requested to return your deposit cheque of \$4,200.00, and no doubt you have received this plus the interest that was allowed on it.

With regard to the item of \$147.13 for oil, it is doubtful if this is a fair charge against the Department. However, your account is being submitted to our Indian Superintendent.

Lorette Indian Day School

The attached account has been received from Mr. J.E. Tremblay, General Contractor, in connection with the construction of the Lorette Day School.

Final inspection of the new school was made on March 6th, 1950, and if the oil mentioned on the account was used while the contractor had charge of the building, we do not feel that the cost of the oil is a fair charge against the department. However, you might discuss the matter further with Mr. Tremblay and let us have a recommendation.

In the event of your recommending payment of the account, it will be necessary to have a receipted bill from the firm who supplied the oil. Under no circumstances will we allow the extra 10%.

Dear Mr. Phelan:

We are in receipt of a letter
from the Prime Minister's Office in Quebec
City, concerning Mr. J.E. Tremblay, general
contractor, 127 de la Ronde, Quebec.

Mr. Tremblay has built the
school presently administered by Indian
Affairs in Lorette.

-- It would seem, from the repre-
sentations made on his behalf, that some delay
has occurred in the payment by the Government
of Mr. Tremblay's bills, copies of which are
attached.

Anything you could do to help
settle this matter would be greatly appreciated.

Yours very truly,

Dear Mr. Asselin:

I am in receipt of your letter of the 2nd instant with reference to the payments due Mr. J.E. Tremblay, General Contractor, 127 de la Ronde St., Quebec, P.Q.

On July 28th Mr. Tremblay was forwarded a cheque for \$6,802.72 covering the balance which this Department considered due him for extras on his original contract for the erection of the Lorette Indian Day School. On July 20th our Treasury Branch forwarded to him another cheque for \$4,263.21 (his security deposit of \$4,200.00 plus \$63.21 accrued interest).

The only item outstanding at the present time is an account for \$147.13 for oil. It is doubtful if this is a fair charge against the Department, but before making a definite decision we have communicated with our Indian Superintendent, and on receipt of his reply we will decide whether the amount can be paid.

I trust that the information contained in this letter will prove satisfactory to you.

Yours very truly,

The Indian Affairs Branch has no authority to dispose of the old Lorette Day School. We are obliged to have the Crown Assets Disposal Corporation arrange for its disposal.

Enclosed are the necessary forms on which you should let us have full details regarding the type and size of building, and any furnishings that you consider we should sell. Under the heading "Original Cost" on the form, you should let us know what you consider the value of the building is.

As soon as we receive the forms properly completed from you, the matter will be referred to the Crown Assets Disposal Corporation.

Re: Lorette Indian Day School

We are in receipt of the following Vouchers covering the cost of materials and equipment for the above school, and for which no authority was granted:

Vr. 374 - Quincaillerie Sioul - \$ 90.60

Vr. 380 - Terreau & Racine Ltd. - \$193.53

Before we can have these accounts passed for payment, it will be necessary to issue a Purchase Order and it would be appreciated if you would let us know why these purchases were made without first securing our approval. I might point out that no more equipment or materials should be purchased for this school without first securing authority. Otherwise, the accounts will not be paid.

We are returning Voucher 392 as the \$38.35 appears to be a very high amount for installing an electric stove. Evidently, Mr. Genest is charging for 11 hours of time for one man and the same period of time for an assistant. Are these figures correct?

Re: Site treatment and landscaping - Indian
Day School, Lorette Agency, Quebec.

Forwarded herewith are duplicate copies of a brief report with estimate of cost, and a tracing of a rough sketch showing proposed grading work required for the above, but which was not included in the contract for building the school.

The tracing is taken from Mr. Goedike's original rough sketch, and may be retained for your files. Mr. Doucet should obtain blueprints in sufficient numbers to supply copies to parties tendering on the work.

Please note that the estimated cost of fill in place is \$696.00. Gravel for walks is estimated at \$10.50.

It is felt that, to maintain the terracing formed by the fill, sodding should be carried out. This item will be, by a large measure, the most expensive phase of the operations. It is estimated that sodding will cost in the neighborhood of \$1440.00, bringing the total cost for site work to \$2146.50.

REPORT ON LORETTE RESERVATION SCHOOL

Lorette school has been completed, the contractor having made a first-class job and could be released from contract and final payment made.

There is plenty of water and pressure is good.

The grounds need filling around foundation, grading and slopes trimmed and sodded to make a finished job. The accompanying sketch shows work of this nature to be done. Fill required - 870 cu. yds. which can be secured and placed for 80¢ a cu. yd. - for walk at rear of school $3\frac{1}{2}$ cu. yds. of $\frac{1}{4}$ " crushed stone or gravel - 535 sq. yds. of sodding.

Mr. A. J. Doucet, Education Branch, has requested information re the quantity of fill.

Estimated cost	4800 sq. ft. @30¢	\$ 1,440.00	(Sodding)

Memorandum:DEPUTY MINISTERRe: Lorette Indian Day School

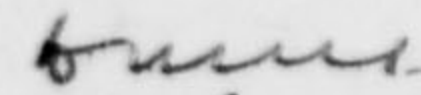

The Chief Engineer, Mr. Chas. H. Buck, has prepared a tracing of a rough sketch showing the proposed grading work required for the above school. The grading was not included in the contract for the erection of the school.

Mr. Buck estimates the cost of the fill (a finished job) at \$696.00 and the gravel for the walks at \$10.50. To maintain the terracing formed by the fill, sodding should be carried out. Mr. Buck states that this will be the most expensive phase of the operations and estimates that the sodding will cost in the neighbourhood of \$1,440.00. This will bring the total estimated cost for the work to \$2,146.50.

Some time ago we received quotations from the following: Marcel Legare, 261 St. Ambroise, Loretteville, P.Q.; R. Dumas Transport Reg'd, Quebec City, P.Q.; Joseph Bedard, Loretteville, P.Q.

In view of the requirements now outlined by the Chief Engineer, it will be necessary for us to call for new tenders so that we may make certain that those quoting will carry out the work as required by the Chief Engineer. It would be appreciated if you would let us know if the tenders should be requested from persons other than those mentioned above.

THIS LETTER HAS BEEN SENT

Ottawa, October 16th, 1894.

Sir,

I have the honour to acknowledge the receipt of the Return of Miss Melvina Cyr, Teacher of the Micmac Indian School at Maria for the Quarter ended 30th September last and in reply I beg to say that the statement of the Teacher in the recapitulation, that there were no holidays in the quarter is incorrect as the school was only open 43 days in the quarter which contained 65

School days which would leave 22 days to be accounted for as holidays. This inaccuracy is however overlooked as the teacher is entitled to a summer vacation, but the aggregate number of holidays during the quarter including Saturdays and Sundays must not exceed 149. I may add that it is no longer necessary that the requisition for the Teachers' Salaries should be made out in duplicate.

Grammar (concluded)

An Interjection is an exclamation expressive of feeling.

Ex. Hurrah! we have gained the prize.

Hurrah! Inter. because expresses gladness for having gained the prize.

There are three kinds of sentences, Assertive, Interrogative, Imperative.

Ex. (Ass) I go to school. (Int.) Where are you going?

(Imp) Go and write your lesson.

Dictation

Temperance

A hideous demon goes stalking about. No finger-post is needed to point out his path, misery, want, desolation, poverty, robbery, treachery, arson, suicide, and a million kindred curses mark it at every step. Graves filled with forms that once walked the earth with firm and manly tread, that bespoke a consciousness of God-like powers, that were prematurely wrecked and blasted by the venomous breath of this merciless monster. Forms of grace and beauty, filled with souls of purity and loveliness, whose mission on earth should have been to shed the light of truth and joy, and heavenly benediction among the dark places of earth, but whose purity was soiled, whose beauty turned to ugliness, whose heaven-born graces were sacrificed at the shrine of sin, debauchery, degradation at the bidding of this heartless destroyer. Little graves of infants, born to gladden happy homes and to grow up to be ornaments, to society, but nipped in the bud of life by one chilling blast from the icy lungs of this insatiate demon.

Rev. Father Doyle.

Grammar

A sentence is a group of words expressing a thought.
Birds fly. These words make a statement about birds therefore it is a sentence. They state that birds fly.
The sun is hot. These words make a statement about sun therefore it is a sentence it states that the sun is hot.
Some noisy boys. These words do not state anything about the boys therefore it is not a sentence.

There are eight parts of speech, Noun, Adjective, Verb, Pronoun, Adverb, Conjunction, Preposition, Interjection.

A Proper noun is a name of a particular person or place.

Ex. John, Toronto, March.

A Common noun is a name that is common to a whole class.

Adjective are the modifiers of the subject of a sentence.

Ex. The day was cold, and dark and dreary.

Adverb are the modifiers of the predicate.

The cold, dark, dreary are the adjective modifiers of the noun day, it tells what kind of day.

Ex. The Indians in their snowshoes walked quite fast over the exceedingly deep snow.

Quite fast are the adv. modifiers of the verb walked.

Exceedingly by adv. Modifies the adjective deep.

The other adv. modifiers are prepositions.

Ex. That book on the box belongs to me.

On the box adjective phrase because it modifies as an adjective would to the noun book.

Ex. My pencil rolled under the table.

Under the table adverb phrase because it modifies as an adverb would the noun table.

A conjunction is a word that joins a sentence, or words, or phrases used in the same way in a sentence.

Ex. She had oranges but we had apples.

But con. joining the clause she had oranges we had apples.

Grammar (concluded.)

In this sentence the, cold, dark, dreary are adjective modifiers of subject day; it tells what kind of day.

Adverb are modifiers of predicate.

Ex. The Indians walked quite fast over the exceedingly deep snow.

"Quite fast," adverb modifiers of the verb walked.

"Exceedingly" adverb modifier of the adjective deep.

Preposition are the other adjective and adverb modifiers.

Ex. The grass in the field is wet.

In the field is an adj. phrase because it modifies as an adv. would the verb lies.

A conjunction is a word that joins together sentence or word or phrase used in the same way in a sentence.

Ex. Mary and I go to Mass. and con. joining the noun Mary to the pro. I.

An interjection is an exclamation expressive of feeling.

Ex. O Mary what a fright you are!

Cher Monsieur,

Mes sauvages jeunes & vieux désirent beaucoup apprendre à lire & à écrire leur langue micmacque, l'institutrice n'étant pas capable de les instruire dans cette langue, ils désirent avoir un sauvage de Restigouche, du nom de Nicolas Jérôme, qui est bien instruit dans cet idiome, pour leur donner des leçons un mois ou deux le plus. Ils me disent que dans cet espace de temps, ils pourront apprendre suffisamment à lire & à écrire pour leur usage. Ce sauvage demande \$18.00 par mois pour enseigner. Le gouvernement pourrait-il me permettre de l'engager en promettant de lui payer son salaire deux mois? S'il en le peut, pourrait-il m'autoriser à garder sur le chèque pour la somme du printemps prochain la somme de \$36.00?

Dear Sir:-

My Indians, young and old, wish very much to learn reading and writing in the ^{being} Micmac language. The teacher ~~is~~ unable to teach them in this language. they would like a Restigouche Indian named Nicolas Jerome, who is well up in this dialect, to give them lessons for a month or two at the most. They tell me that in this time they will be able to learn enough to read and write for their use. This Indian asks \$18.00 per month for teaching them. Will the Government allow me to engage and promise to pay this man his salary for two months? If that cannot be done, perhaps I might be authorized to retain out of the cheque for seed next spring the sum of \$36.00.

Hoping that you will grant my request,

The Secretary:-

Rev. Father Gagne of Maria writes under date of the 24th ultimo stating that the Indians under his charge wish very much to learn to read and write the Mic-mac language and that there is an Indian named Nicholas Gerome who is well up in the language and would give them lessons for a month or two at \$18.00 a month. He asks whether the Government will allow him to engage this man and pay his salary for two months; or ~~xxxx~~ authorize him to retain \$36.00 out of the seed grain distribution money for this purpose.

They have a good school at Maria, taught by Miss Esther Audet and Mr Inspector Lucier reports that she is a capable teacher of considerable experience.

The Department does not encourage the teaching of the Indian language and it would be a very unusual thing to pay a teacher for giving special instruction in Indian.

Cher Monsieur,

Je crois qu'il est urgent de procurer à la maîtresse & aux enfants de l'école de mon agence de bonne eau pour se désaltérer pendant les heures de classe: l'eau dont on s'est servi jusqu'à présent n'est pas propre & se trouve trop loin de l'école. Il y aurait moyen de faire un puits tout près de l'école, ou d'y enfoncer un tuyau de pompe, ce qui serait moins dispendieux, je crois, et donnerait une eau qui ne serait jamais contaminée. Un puits pourrait coûter environ \$25. tandis qu'un tuyau de pompe ne coûterait peut-être que \$10. ou \$15. si on peut l'enfoncer à coups de masse jusqu'à l'eau. J'en ai fixé une de cette façon ici dans mon presbytère & une dans mon étable, & le tout ne m'a coûté que \$25.

I believe that it is urgent that good water should be provided during school hours for the ~~master~~ ^{teacher} and children of the school in my agency. The water ~~that~~ has been used up to the present time is not good and it is too far away from the school. A well could be dug near the school and a pump put in, which would be less expensive, I believe, and would give water that would never be contaminated. A well might cost about \$25.00, while a pump might not cost more than \$10.00 or \$15.00, if it could be sunk down into the water. I have placed one in such a manner here in my presbytery and another in my stable and both together did not cost more than \$25.00.

Reverend Sir:

Referring to official letter of the 3rd. instant in which you were authorized to appoint Miss Margaret Isaac as teacher of the Micmac School at Maria, I beg to say that no mention was made of the rate of remuneration she was to receive. The sum of \$300.00 is appropriated for the teacher's salary of this school: and Miss Isaac will be paid at that rate.

For Mr. J. D. Morin
Your requisition has been amended and a cheque for \$75.00 in payment of the September quarter's salary will be sent to you. In future please make requisitions out for this amount in duplicate.

Few days ago the school inspector visited my school, he distributed four prizes to the children, and said he was well satisfied with my little class.

At the conclusion he advised me to help myself, for a lawyer is working with some of the Indians here, and the Indian Agent also, trying to dismiss me, to favor another white girl. I would ask you kind Sir, not to heed their petition, as these Indians are so inclined to jealousy.

I am doing my best to instruct the children; and a white teacher, not knowing their language would not do better.

You have granted many favors to my late father, and so I feel confident you will grant me the same assistance.

Sir,
We the undersigned Indians of Maria Indian Reserve beg to say that some of the Indians here brought unreasonable complaints before the Indian agent Rev J. D. Morin against our present teacher Miss Margaret Isaac. Please do not take heed of their petition and complaints they want to have her dismissed, simply through jealousy and to favor a white girl. We cannot have a better teacher than Miss Isaac, as regards her conduct and the good she instructs our children she has the advantage to use our language and makes the children understand what they learn in English. In fact we consider her competent and faithful. The school inspector was much pleased with her class of his last visit. Those Indians who are against her are hard to please, really they do not know what they want. The majority of us like this teacher and we want to have her to teach here again on this said Reserve for next year. The Indian agent has hired a teacher we again beg to state that we do not want that teacher he has engaged.

The report of the school inspector of his last visit.
On the 19th of Feb. 1909, I examined this Indian school of Maria Reserve. The pupils answered well to my questions. The French reading was good, the copy books exercises are kept clean. The children are polite and seem to be well disciplined. The school is greatly improved since one year. It requires yet two geographical maps of Canada and Quebec, and religious pictures. A cupboard with a lock would be very useful to put away books, copies, reviews, globe, and other school objects.
The teacher certainly merits compliments for zeal and competence, with which she performs her mission.

The Department would like you to state whether this is correct and, if so, by what authority you took it upon yourself to dispense with her services without consulting the Department and receiving authority to do so.

Miss Isaac is reported to be a highly efficient and painstaking teacher, and unless you can give some very good reason ~~why~~ to the contrary the Department is anxious to have her remain in charge of this school.

Sir

Your letter of the 26th instant stating that no complaints have received in the department against our teacher Miss Margaret Dease has been received. And in reply I beg to say the Agent Rev. J. D. Morin has notified our teacher that her services are required no longer and that he has hired another teacher as the department approved him to do so. Please let us know if the department approves the agent in getting another teacher that we do not want. And should he send an application in the department for another please do not approve it. Only four Indians are against her, we do not know of any reason only jealousy. And the agent cannot report anything about our school and teacher for he never comes to examine the class lines. Miss Dease has been teaching. Hoping to receive again an early and favorable answer

Sir,

I have to bring to your knowledge that I have notified Miss Margaret Isaac, Teacher of Maria Reserve to look for another school for next year. Many Complaints have been brought before me by the Chief, Peter Caplan, by Constable James Jackson, and the majority of fathers of family.

1st She does not teach English enough. She is very careless about teaching French also, and she speaks Indian to children in school. The Inspector of school, Mr. Morquin and Rev. Father Paifigue, missionary of Micmacs, owing to the knowledge of this language, have visited the school, and have given a poor note: no progress whatever.

I have in view a good teacher, the best of Bonaventure County, Miss Josephine Audet, having a very good diploma in English and French, having taught for over 15 years in United States and in Canada.

2^d Some families don't send their children to school because they don't like the teacher. They want a change, and I also.

The Department has received a letter with thirteen signatures asking for her maintenance in the school, but I must say that amongst them, only one has children of age for school, others have no children at all. The Department will be good enough to notify her to leave the school at the end of the year, June 30th 1909, and by so doing, you will oblige.

Sir,

Your letter of May the first, is just received, in re Miss Isaac teacher of Mioria School. And in reply I must say, that for the good and benefit of the Indians I have satisfied Miss Isaac that her services will not be required next year after complaints from the great majority of my best Indians from parents having children in age to attend school. I know I should have consulted the Department first but the complaints were so evident that at the first opportunity I had, I notified her. Miss Isaac has been reported to be a highly efficient and painstaking teacher, but this is not correct. Mr. Marguin our Inspector of Schools, is well paid for his reports, as I see, but how can he give a report of any kind when he visits the school once a year, and when children cannot understand his questions. He does not understand the Micmac language, and the children speak Indian only. Miss Isaac is reported to one by Chief and Constable to go and stay after dark in houses where she should not go. She has dressed herself once also with men clothes and went out on the road late in the evening. Like that, I believe this report to be the truth. Four years she is here and that is long enough. If the Department is anxious to give satisfaction to my Indians,

I have to acknowledge the receipt of your letter of the 5th inst., giving your reasons for your action in notifying Miss Margaret Isaac that her services as teacher of the Maria school would be no longer required.

In reply I beg to say that, as you have already been informed, you should not have taken this step without consulting the Department and receiving its authority.

The School Inspector, who visited Maria in February, last, speaks most highly of Miss Isaac's efficiency and success, and all his previous reports have been as commendatory. In the face of such reports, the reliability of which is borne out by officers of the Department who have visited the school, the Department is not disposed to dismiss Miss Isaac on such vague charges and insinuations as are contained in your letter. If you will state positively that you can produce evidence to

For my part I don't see how the Department ~~should~~ ^{is} strong for keeping her there!

I maintain my charges under my responsibility. Mr. Marquis, school Inspector, is my friend and he has told me that the said school was very very poor. My words and reports (with Mr. Marquis) and I have the knowledge of what he has not.

This is not done. Lots of other complaints, in immorality and liquor ^{business} have been brought before me. I told the plaintiffs to make their proofs and to accompany them with affidavits.

If the Department will order an investigation he will see that every thing reported by me was the truth.

The Deputy Supt. General,-

The Rev. J.D. Morin, Indian Agent, Grand Cascoapedia, Que., has been making charges against Miss Isaac, teacher of the Maria Indian school, and on the 11th inst. he was informed that the Department was not disposed to dismiss Miss Isaac on such vague charges and insinuations as were contained in his previous letters, but that if he would positively state that he could produce evidence to show that Miss Isaac's conduct had been immoral or her behaviour immodest the Department would order an investigation at once and her continuance in its employ or dismissal would be dependent upon the result.

The Agent has now forwarded what purports to be an affidavit from an Indian, named John Martin, with whom Miss Isaac boarded, accusing her of reprehensible and immoral conduct, as well as a statement made by Frank Narcisse Jerome to the effect that a number of the Indians complain of her inefficiency as teacher.

This statement is not borne out by the Inspector's reports and a petition was received some time ago from a number of the Indians of the band, setting forth that

the charges against Miss Isaac are unfounded.

The correspondence shows that the Agent notified Miss Isaac of her dismissal without consulting the Department.

It would only be fair to Miss Isaac that an investigation should be held, as little, if any, reliance can be placed on the affidavit of John Martin, as he signs it by mark and there is nothing to show that he knew what he was signing. The Agent seems determined to get rid of her, and Miss Isaac states that he has a relative who wishes the position.

I returned from home on that following Monday April 1st 1907 and brought with me what she requested. The woman was then confined two days afterwards, no trouble of any nature resulted from that bottle. As for keeping a man in my room for half-a-day I never did. I remember one Sunday forenoon two years ago last February, but do not exactly know the date of the month, when

[redacted] Edward Martin, an Indian of this reserve called in my room for his payment. I owed him some money for a little supply of groceries I bought from the store. The man did not stay half a day, he was sober and behaved decently. I do not see any misconduct in this concerning my services as teacher, and if an investigation is necessary for this matter I shall be ready to defend my character any time. Dear Sir:-

teaching

I am writing you on behalf of my daughter Maggie Issac *who is* on the reserve at Maria, Bonaventure County. She has written me that ~~she~~ *she* has been accused of bringing liquor on the reserve at different times and supplying it to John Martin.

Some two years ago Mrs John Martin, who is a French woman, asked my daughter to bring her down some liquor from Campbellton when she returned, but my daughter refused to do so. Mrs Martin was sick at the time *and my daughter* when ~~she~~ *she* came home she told me about Mrs Martin being sick and that she wanted a bottle of Gin. I felt sorry for Mrs Martin, went to a Doctor in Campbellton got a prescription and got the bottle of gin. When my daughter was leaving I put the bottle of gin with her clothes and sent it to Mrs Martin on my own account. Any charge that ~~my~~ *my daughter* supplied liquor to John Martin or any one else is false and without foundation.

I understand that my daughter is also accused of allowing Ned Martin to be in her room at Mrs John Martin's while my daughter was boarding there. Ned Martin is related to my daughter being married to my daughter's cousin, and came to the boarding house to see her in connection with his store business. There was not anything wrong with that and I am surprised that after two years these matters should be brought up. The whole object is to get my daughter dismissed so that a French teacher can be employed who is related to a number of the people in that vicinity. My daughter can teach English French and Indian and the other girl can only teach French and English. I hope you will not listen to these people but will ask people on the Restigouche Reserve where my daughter is well known who will tell you that she bears a good name in every way. My husband was Chief on our Reserve before he died and my ~~daughter~~ *daughter* well know here in Campbellton and on the

Ottawa, June 12, 1909.

The Deputy Supt. General,-

In reference to the charges made against Miss Isaac, teacher of the Maria Indian school, I beg to say that on the 2nd inst. she was informed that, if she denied the alleged misconduct, an investigation would be held, should she desire it.

She has written a very straightforward letter, denying any impropriety or misconduct on her part and admitting that there is a semblance of truth in the statements made by John Martin, whose affidavit was forwarded by the Rev. Father Morin in support of his action in ~~having~~ dismissing her, but that the circumstances were much exaggerated and would not bear the construction the Agent wishes to place on them.

In fairness to Miss Isaac an investigation should be held by an Officer of the Department from headquarters.

Arthur Gensler

P.S.

A letter has been received from Miss Isaac's mother since the above was written, which goes to show that the Agent in his anxiety to get rid of the teacher has put the worst possible construction on her actions.

that the majority of the band is not against
Miss Isaac; the one knows nothing.
They are favorable to her strongly.

Mrs. Susan Martin, wife of John Martin,
being sworn & cautioned says; I have known
Miss Isaac for some time. she lived in my
house for eighteen months boarding herself

and renting a room ~~there~~; she often went out at
nights; I do not know where she went, ~~but~~ I do not
know of any house that she visited, I cannot
say that there is any house upon the reserve
to which a girl should not go, nor do I know
of any such houses in this vicinity. The
report that she has stayed after dark in
houses where she should not go was not
made by me. I know nothing of her having
crossed herself in men's clothes and going
out on the road late in the evening like
that. There were known of Miss Isaac doing
anything wrong.

About two years ago a man ~~called on~~
~~Miss Isaac~~ ^{who} used to be in the house frequently,
being an Indian of the reserve, by name
Edmond Martin, called on Miss Isaac
at about seven thirty or eight in the
morning. It was on a Sunday. He stayed
in the house until twelve o'clock. The Miss
Isacs were upstairs in her room. Her room
had no door. I did not go upstairs at
all that morning. I have no ground for
thinking they committed any impropriety.
My house has three rooms upstairs &
two rooms & a hall downstairs. Only
one room upstairs was occupied at that
time, ~~the~~ one Miss Isaac had.

By Miss Isaac. Was it not about
nine when Edmond Martin called? Yes it
was not.

Was not upstairs when he called? Yes
you were downstairs.

Was it not before twelve that he left? Yes.

I have your letter of the 3rd instant, enclosing the March quarter return of the Maria Indian Day School.

In this connection I have noted the steps you have taken to have the Indian parents send their children regularly to school. Councillor Gedeon and yourself should make every effort to see that the parents send their children to school regularly each day it is in operation. I note that the classroom is kept in proper order by the teacher, who is doing her utmost to make the teaching services at this school a success.

Dear Sir,

Find enclosed Indian School Teacher's quarterly report ending March 1933.

On my visit at the Resene School, I noticed many pupils do not attend ^{quite} regularly. I questioned the parents and the reason is that influenza was the cause of many absences, but a few healthy boys are not attending regularly, so I noticed Councillor Liddon and Constable, to send to school every day those who have no reason to stay at home or on public roads. The School is well kept, clean, and every thing in perfect order. Miss Liddon trying her best to make a success of this day school.

When Mr Inspector of Schools will make his visit I will accompany him if advised of date of visit at Resene.

ADDRESS REPLY TO
Inspector of Indian Agencies
OTTAWA.

Sir,-

Referring to your letter of June 18th, file 154179-1, respecting charges of misconduct made against Miss Isaac, teacher of Maria school, I beg to report that upon the day it was received notifications were sent to the complainant the Rev. J.D. Morin, Indian Agent and to Miss Isaac that an investigation would be held on the 24th or 25th of June and that they should be prepared for it.

On the former date at 3 P.M. the investigation was commenced. The Agent was absent assigning a very regrettable cause, stated in the letter appended hereto. In view of what he says in that letter it did not appear that he was essential to the inquiry so it was decided to dispense with his attendance. There are two other points in this letter to which attention is directed. John Martin and the Chief are said to have been notified and

there is in the last sentence a complete admission that he has been making most damaging representations without personal knowledge of their truth. When this is contrasted with the positive statements he has made against Miss Isaac in his letters to the Department indignation goes hand in hand with surprise. When the Department pointed out to him that the charges and insinuations made by him were vague he replied "You should trust me being also an officer of the Department, Indian Agent, Justice of the Peace and a Priest. My words and reports are right and just and true."

Appended hereto is a minute of the proceedings and the evidence taken. It had to be decided whether to proceed in the absence of the two witnesses said to be material viz., John Martin and Peter Caplin. It was decided to proceed as they could have been present had they so desired and their representative the Agent advised that they were ~~not~~ notified.

Reference to the minute and evidence shows that all the Indians present but one were favourable to Miss Isaac and flatly contradicted the statement that the majority of the band ever wished her to be removed. Reference to the petition on file received by the Department on April 22nd bears this out as it is signed by eleven out of

eighteen of the band.

The witness, Mrs Susan Martin, betrayed strong animus, yet her evidence contains nothing that seems to be damaging. As to the time once spent by Edward Martin with Miss Isaac she is contradicted by Miss Isaac and by Edward Martin. The latter is married to Miss Isaac's cousin and she is now living with them. Mrs Martin who is a very respectable woman, scouts all idea of impropriety and no doubt does so very properly.

I think Miss Isaac is free from blame for obtaining a small bottle of gin for Mrs Martin. It was supplied under the prescription of a medical man in January 1907 over two years ago. The certificate forms Exhibit 1. Miss Isaac's mother procured the gin. Miss Isaac took it to the reserve to the sick woman as asked. She swears that she never on any other occasion obtained an intoxicant for an Indian.

The making of this charge now concerning a matter of such old date and one in respect of which there never seems to have been any concealment is rather a testimony favourable to Miss Isaac as it shows how far her assailants had to go in their attempt to make a case against her.

The reply to the Martin complaint that his child has never learned to sign her name is Susan Martin's signature at the head of page 4.

The boy Thomas Dedam refers to as his child, is Abraham Caplin (adopted) Dedam says that this boy does not know the A.B.C. Abraham Caplin's signature is on page 4. The statement that he does not know the alphabet is not true. He repeated it to me with facility.

I found nine boys and seven girls in attendance on my arrival, examined them and found their performances very fair. Miss Isaac showed me the last report of the School Inspector. I endorse what he said.

I conclude that there is nothing whatever in these charges and it is astonishing that the Indian Agent should have adopted the attitude he has. He might have caused the ruin of a young girl who seems to be of the highest worth and to have done this in view of the admission that he has no knowledge of the facts, constitutes an offence that cannot, in my opinion, be too strongly censured.

I trust the Department will see its way to condemn such conduct, and to inform Miss Isaac that she is entirely vindicated.

In reply I beg to say that the Department would like to know what notice you have given of there being a vacancy at this school and whether you have had any applications for the position. You were instructed to call for applications on the 28th ultimo and the Department considers that sufficient time should be given for applicants to apply.

I may say that it is the wish of the Department to secure the services of a qualified, up-to-date teacher for this school and Miss Audet's certificate does not show that she has the necessary qualifications to fill the position satisfactorily. Her certificate is returned herewith.

Your letter of the 12th instant received in matter of applications for Maria School. In reply I beg to say that—being a school commissioner I know perfectly well that there is no teacher at liberty at this present time. Their services are secured for the whole year and cannot at give their resignation for the sole reason of getting a higher salary. Moreover, we are short of teachers in this County and district. Many school houses are closed. I have written to four Commissioners (schools) and the answer was: we have not enough for ourselves. I am willing to call for more other applications for that position, but it is not very easy, in the middle of the year to secure any one. Miss Josephine Gaudet, is free and at our disposal, having accepted no engagements last fall because the salaries offered to her were too small. Every body knows that the school in question is vacant and have received no.

Sir,

Miss Margaret Isaac, teacher of the Maria Indian School, resigned her position in December, last, and the Department is very anxious to obtain the services of a competent successor.

The Department would be very glad if you could suggest the name of a suitable person for this position. An initial salary of \$300.00 per annum will be paid. From your experience in the inspection of these schools you are aware of the qualifications that it is necessary for a teacher to have to make a success of Indian work and any assistance than you can render the Department in obtaining a qualified teacher will be greatly appreciated.

The Department would also like to know how the salary paid by it at these schools compares with that paid at white schools in that portion of the Province.

Monsieur,

J'ai l'honneur de vous accuser réception de votre lettre du 27 du mois dernier, portant le No. 154179/1.

Melle Jeanne Loubert, Campbellton, N.B. possède les qualités requises pour bien diriger cette école des Sauvages de Maria. Je sais qu'elle est libre en ce moment.

Au cas où elle ne pourrait pas accepter un engagement pour cette fin d'année scolaire, je vous recommanderais Melle Joséphine Audet, Maria, P.Q., qui a déjà enseigné à cette école.

Ces deux institutrices possèdent chacune un brevet, la première, pour école modèle, et la deuxième, pour école élémentaire: elles ont plusieurs années d'expérience dans cette carrière et parlent bien les deux langues française et anglaise.

Quant au salaire offert, il n'est que raisonnable, à cause de la nature de l'école, bien que dans les autres écoles, il varie de \$125 à \$200. par année.

J'ai l'honneur d'être,

Monsieur,

Sir,-

I have the honour to acknowledge the receipt of your letter of the 27th ultimo, No. 154179/1.

Miss Jeanne Loubert, Campbellton, N.B., possesses the requisite qualities to conduct this school for the Indians of Maria well. I know that she is dis-engaged at present.

In case she should not be able to accept an engagement for this end of the school year, I would recommend Miss Josephine Audet, Maria, Que., who has already taught at this school.

These two teachers each held a diploma,- the first for the model school, and the second for the elementary school; they have several years' experience in their profession and speak both English and French well.

As for the salary offered, it is only reasonable on account of the nature of the school, although in other schools it varies from \$125.00 to \$200.00 a year.

I have, etc.,

On May 23, 1909, in company with Mr. Lavoie, parish priest, and the Commissioners, I made an examination of Miss Josephine Audet's class at school No.2. The children replied well to the questions that I put to them. The copy books and exercise books are well kept. The discipline and behaviour of the children appeared to me to be very good. To sum up, much progress had been made since my last visit, and the teacher deserves congratulations for the zeal shown by her.

I have to acknowledge the receipt of your letter of the 7th instant, transmitting a communication addressed to you by the Rev. J. D. Morin recommending the engagement of Miss Josephine Audet, of Maria, as teacher of the Indian School at that place.

In reply I beg to say that the Department had already received an application from Miss Audet for this position, but, as she is the holder of only an Elementary Diploma granted her in the year 1887, it communicated with Mr. G. Marquis, Inspector of Schools, Quebec, asking him to be good enough to suggest the name of a qualified teacher for this school. He recommended Miss Jeanne Loubert, of Campbellton, N.B., who is the holder of a Model School Diploma, and the Department offered her the position on the 3rd instant. She has not yet notified the Department of her acceptance and if she does not do so by the 14th instant it is prepared to engage Miss Audet.

Madam, -

The Department is in receipt of communications from three pupils of your school in which they ask for prizes for regular attendance during the year.

You will be good enough to inform these girls, whose names are Mary Beranrd, Malvina Martin and Susie Martin, that their communications came to hand safely and the Department is pleased to know that they are attending school regularly and making good progress in their studies. Had these letters been received sooner the Department would have made a grant for prizes at the close of this term, but, as it is now too late, you may inform them that the Department will make a grant of \$12.00 for the purchase of prizes at the close of the fall term to be distributed to them and to other deserving pupils of your school. You will be good enough to make your application for this grant in good time before the closing of the school and it should be forwarded to the Department through the office of the Indian Agent.

Miss Josephine Audet, teacher of the Indian School at Maria, Que., asks for an increase in salary. She is now paid at the rate of \$350.00 a year and has had charge of this school since February, 1910. Mr. Marquis, the Public School Inspector, reports that he considers Miss Audet a good teacher and that she is well liked by the pupils and takes good care of them. *She* says that she is at considerable expense to get to the school in bad weather as she is obliged to board at some distance and I think that, as a recognition of the good work that she has been doing, the Department would be quite justified in granting her an increase of \$50.00. She is a good teacher and it would be a pity to lose her.

UNSATISFACTORY ATTENDANCE. etc.

Mr. Jim Gideon, an Indian, would prefer to see his
daughter teaching at the place of Miss Awaik. Then he
has made up his mind to make trouble to the actual teacher
and then oblige her to resign. For that purpose he keeps
his children at home, and even he has decided, some other
Indian to do the same. It is for that reason that attend-
ance is unsatisfactory. It is for now, impossible for me
to suggest a remedy.

J. Gedeon, an Indian of Maria Reserve, was here to-day with a petition signed by a good number of Indians asking to remove the teacher Miss Josephine Andet from Maria school. They have no good reasons as you would see on the petition. I signed it as agent to please them. But it must be understood that I am not against Miss J. Andet. She is a good teacher and has always given satisfaction even to those who have signed the said petition. The school inspector, Mr. Litahin and I have already made good reports on her behalf. James Gedeon, the petitioner, has a daughter which he would like to put to Miss Andet to place as teacher; that is all.

Please, in your reply don't mention my name. I pray the Department to give answer to James Gedeon himself because it is better for me not to interfere in this question.

I am in receipt of your letter dated March 13th inst. stating that the Petition sent in by the Indians here asking for the appointment of Miss Rita Lydon as teacher here in place of Miss Josephine Andet had been refused by the Department, and I have brought your letter (copy of which I received from our Agent) to the notice of those Indians who signed the Petition.

In reply to your letter I beg to say that we are not satisfied with Miss Andet and with her being kept on as Teacher and we still want Miss Lydon to be appointed in her place. We take great interest in our School here and we have about 22 scholars attending and we want them to have the best teaching possible which we do not consider that Miss Andet is able to give them. I will give you some reasons for what I have said.

and ~~for~~ one thing Miss Andet is not able to teach the children the Catechism in their own language but only in English which they do not understand sufficiently to learn the Catechism properly as shown by the fact that only 3 children have made their first Communion during that 6 years. Father Pacific our Missionary examined the children last Sept^r and he stated then that the children were not properly taught and knew almost nothing. He said they should be taught the Catechism in their own language so that they would learn it more quickly and he asked Miss Gideon to do this and since then she has been teaching the children for no salary in her own home of an evening. Again Miss Andet is not so well qualified to teach in any subject as Miss Gideon because Miss Andet only holds a low diploma which she obtained about 30 years ago when the standard of education was not nearly as high as that required now. Miss Gideon on the other hand only obtained her diplomas last Sept^r and she holds a 1st class Model diploma in English and 1st class French Elementary diploma, and she passed her examinations "with distinction". Miss Gideon was educated at Carleton Convent and is a good musician and typewriter. Again Miss Andet can get a school among the white people while Miss Gideon having been

raised in an Indian Reserve would have difficulty in doing so and we think that considering the expense her parents have been at and the trouble she has taken to obtain her education and her diplomas being so much better and more recent than Miss Andet's it is not treating her fairly to give the Indian school here to a white teacher while Miss Epidon has no school. We would also point out that if the Department insist upon Miss Andet as teacher after we have given good reasons against it there is likely to be trouble among the Indians here as many of them will not send their children to the school. We would also point out that Father Moran our Agent here would naturally favor Miss Andet because she is related to him and the Inspector would naturally be inclined to agree with the Agent. But we are only desirous in bringing this matter before the Department that the best shall be done in the interest of our children to have them educated to the best advantage and having this feeling we know and are satisfied that this purpose will be best served by having Miss Epidon appointed as teacher here and therefore we ask that the Department will grant our request in this matter, or at any rate that the Department before refusing to appoint Miss Epidon will ask the opinion of Father Pacific our missionary.

who has the true interest of the Indians at heart and who we feel sure will be in favor of Miss Lydion. —
We also complain against Miss Lydion because she interferes in the affairs of the Reserves which is no part of her duty but should be done by our Agent. — She has been in the habit of keeping the school open after 4 p.m. and selling goods hats, face powder, ribbon and other things at excessive prices to the Indians for her own benefit. Also card playing and dances are strictly forbidden amongst us and Miss Lydion has on several occasions encouraged Indians here to do these things in their houses. Also she has made concerts and used the school house for that purpose without proper authority first obtained.

Hoping that the Department will hold full enquiry into this matter and grant the wishes of the petitioners and requesting an early reply

I beg to inform you that Mr. Letailier, who recently made a report with regard to his inspection of the Maria Day School, has informed the Department that he was told by Chief M. J. Martin that children belonging to three families at Maria are unable to attend school for want of clothes. The names of the parents of the children are said to be, Ph. Martin, Abraham Martin, and John Jerome. It is desired that you will make enquiry into this matter with a view to ascertaining definitely the circumstances in each case of the families. You should then advise the Department of the result of your enquiry and you should state whether you consider that the men named, are in a position to furnish clothing for their children. If you think that they cannot procure the clothing required, you should inform the Department of the cost in each case, required to provide proper wearing apparel, including boots for the children. The number of children in each family should be stated and their ages should be given. I may say that it is important that the children should attend school.

Sir,

I beg to call your attention again to the correspondence I had with your Department in the Spring of last year concerning the School on the Reserve here. - The same conditions regarding the matter still exist with the result that the Indians are not satisfied. - At present there are only about 10 or 12 children going to school out of about 25 or more who are of school age, and this because the parents are not satisfied with the teacher. - Last Spring I wrote the Department requesting that my daughter Rita Gidron should be hired as teacher and I then gave full particulars as to how I had spent considerable money and been at great trouble to have her educated at the Convent for that purpose and I gave the full particulars of the Certificate that she holds. The Department then replied that Miss Audet had already been hired for the year which ends this June. - My letter was accompanied by a petition signed by the majority of our people in favor of my daughter, and they are still desirous that she should be hired as teacher for the next school year. - I respectfully beg to point out to the Department that in other Reserves Indian Teachers have the schools and it is not just not giving us proper encouragement that on this Reserve where there is an Indian Teacher

living. - I know that the Inspector reported that Miss
Audit was quite satisfactory as a Teacher but the
real point is that she is not obliged to teach for her living
and even if she were she can get a school among the
white people whereas my daughter really does need the
money she could earn here as Teacher for her maintenance
and by reason of her Indian blood is not able by reason
of race prejudices to get a school among the white folk.
I may add that Miss Audit has several times prom-
ised me and others of our people to give up the school so
that my daughter could have it, and this I can prove by
witnesses. -

I also beg respectfully to point out that one of my
sons is a member of "Hitchener's Band" and was previously
in the Home Guards for 6 months; and that 9 or 10 other
young men from this Reserve are serving in various
other Contingents which I think proves that we Indians
are loyal subjects and intelligent and worthy of having
their wishes regarding the conduct of their affairs taken
into consideration by the Department. -
For myself I can say that I have always been a
law abiding resident of our Reserve having several
times been Chief and Constable and have always
done my best for the advancement and improvement
of our people, and I am sure that in asking that my

Sir

I like to bring to your knowledge that the chief, William Martin was here this morning. Half drunk. that he held a meeting of the Indians of Maria Reserve to discharge the teacher, Miss Cudde, having no reason or complaint, that he wants to discharge of their ^{duties} services, Peter Eglon, as janitor of school, et John Martin as Board officer. That he has abused me. that he was the chief and I had to go. etc. etc. according to his will.

Will you please write to him a good letter about teacher and agent, and other officers of Maria reserve. We are at peace. Now he will make trouble if not stop at once. We have the best of teacher and good officers. Tell him the chief that the Dept. intend to keep them. By so doing you will help me very much.

To The Secretary of State

(Department of Indian Affairs)

The humble Petition of the undersigned
Indian residents on the Indian Reserve
of St. Louis de Maria of Maria in the
Province District and County aforesaid
Sheweth as follows.

That in reply to a letter recently
addressed from the Department of Indian
Affairs to the Chief of the above named
Reserve William Martin complaining
that he had called a Meeting of the Indians
with the object of deposing the School
Mistress, and that the said Chief William
Martin was drunk Your Petitioners do
humbly admit that such Meeting was
called at their request for such purpose
and was held after same had been duly
advertised, and that Your Petitioners will
by these presents respectfully seek
to justify themselves for such action;
but Your Petitioners do positively deny
that at the time of such Meeting the said
Chief William Martin was drunk as in
said letter stated.

That the reason for which said Meeting
was so held was that by a previous
Petition

forwarded to Your Department and by several subsequent letters Your Petitioners had requested the removal of the said School Mistress and the appointment of another Mistress to that position which said previous petition and correspondence had been denied by Your Department.

That the denial of the request of Your Petitioners was and still is the cause of great discontent and unrest among Your Petitioners because the reasons which they gave for asking the removal of the said School-Mistress were actually true and Your Petitioners humbly represent that such denial to grant the said petition unjustly interferes with their right to manage their own affairs and to obtain through the Department of Indian Affairs such things as they know to be for the best advantage for themselves and their children.

That in further support of their request for the removal of the said School Mistress Your Petitioners humbly present that on account of her age and other infirmities the School-room on the said Reserve is kept too warm and without proper ventilation whereby by attending such school the health of the children suffers and they are unable to stay in the said room and that in consequence of such overheating and want of ventilation many of the children of Your Petitioners are obliged to stay away from school and therefore do not obtain proper education. That as proof of this Your Petitioners

draw specially to draw the attention of
Your Department to the fact that out of
thirty or more children within the age to
attend school there is only an average daily
attendance of 7 or 8 (sometimes only 2 or
3) and that these facts and the reasons
for them are well known to the Mount
Officer John Martin who wilfully neglects
to bring them to the knowledge of the said
Department

That so long as the present state of
affairs prevails and the present School
mistress is retained in that position there
will be discontent among Your petitioners
and their children will not attend the said
School

That such a condition is greatly
against the good order and conduct of said
Reserve and to the great educational dis-
advantage of the children. Therefore Your
petitioners do humbly pray that the
prayer of this petition may be granted
by the removal of the present School
mistress and the appointment of another
younger and more efficient mistress
whereby good order and peace and
quietness will prevail among the
residents on the said Reserve.

And Your petitioners will ever
humbly pray. etc.

The Department is in receipt of a petition signed by Chief William Martin and several other Indians of the Maria Reserve in which they again ask for the dismissal of the teacher in charge of the school there. They state that, on account of the age and infirmities, of the teacher, the school-room is kept too warm and without proper ventilation.

Gentlemen,

As you can see by my last school report, the daily attendance is small. I inquired from the parents what was the reason that so few children came to school during the last months; they told me it was owing to want of shoes and clothing to protect them during the cold weather, and they begged me to write the Department and implore them to give about \$30.00, to get raiment absolutely necessary for the children to attend school during the winter. Consequently I accede to their request & inform the Department of the case, as it exists, and they can take the matter into

Sir,

I wish to advise the Superintendent of Indian Affairs of the following:

Miss Josephine Audet, teacher for the Maria Indian Reserve school has informed me she would apply, through the Agent, for a Superannuation, a kind of pension, and wishes me to request Mr. Superintendent, first, if he deems it possible & just - fair - for her to get this favor.

She has taught at Indian children of Maria Reserve, almost 13 years - she is getting old - she is still a very good and efficient teacher.

She will not admit, her health is poor, very poor.

With a fair pension, she would give up, in favor of Miss Dora Bedon, a successful graduate of Carleton, this year.

Miss Bedon, a half-breed, would be an O.K. teacher.

MEMORANDUM:

**Acting Deputy Superintendent General
of Indian Affairs.**

Mr. Agent Leblanc states that Miss Josephine Audet, teacher of the Maria Indian Day School, desires to give up her position as teacher provided she is granted superannuation or a pension. He requests that in view of her long service, and as she is getting old, that she be granted some assistance.

There is no provision for the granting of superannuation or pensions to teachers of Indian day schools, but a gratuity on retirement has been granted in the cases of several teachers in the past.

134 years in Indian School

Miss Audet began duties at this school February 21, 1910, at a salary of \$300, which was increased to \$350 on July 1, 1910, and to \$400 on September 1, 1912, and to \$450, her present salary, on July 1, 1918. During the last three years she has also received the bonus allowed teachers at the rate of \$150 per annum. She has a diploma for the teaching of French and English, and the Inspector has invariably reported that her services are satisfactory.

The Department has, in the past, granted gratuities in several cases, as follows: -

In 1909, Mrs. C. A. Vollick, who had taught the No. 3 School on the Oneida Reserve for a period of 17 years and who resigned on account of failing health, was granted a gratuity of \$100.00, in recognition of her long and faithful service. The salary allowed her at that time was at the rate of \$300.00 per annum.

A gratuity was granted Miss Annie Kehoe, teacher of the Goulais Bay Indian Day School, in June, 1915. Miss Kehoe was in the service of the Department for eight years. She contracted tuberculosis from her work among the Indians. In addition to teaching, she acted as field matron and visited and attended the sick on the two reserves on which she had taught. The Department allowed her a gratuity equal to one quarter of her yearly salary, or total of \$125.00.

L. F. Hardyman, teacher of the Anglican School on the Garden River Reserve, after completing 30 years of service as a teacher in Indian Schools, was granted a gratuity equal to six months' salary (March 31, 1919). The amount paid him was \$300.00.

In November, last, Mr. John R. Lickers, teacher of the No. 5 School on the Six Nations Reserve, retired after 35 years' service as a teacher in Indian Schools. He was allowed a gratuity of six months' salary, which amounted to \$350.00.

In May, 1921, a gratuity equal to one quarter salary was granted Miss Jeannie McDermott, assistant teacher at the Garden River (R.C.) Indian Day School, who had been in the employ of the Department for a period of 13 years.

The Agent states that Miss Audet is in very poor health, and is willing to retire provided she gets some assistance.

I would recommend, in view of her faithful service, and in view of the fact that she is compelled on account of her health to retire, also that it is impossible for a teacher to save any money on the salary paid her, that the Department allow her a gratuity on her retirement equal to, at least, one quarter of her yearly salary, which, in her case, would amount to \$112.50. This could be paid from the appropriation for Indian education as was done in all the above mentioned cases.

Sir, -

I have to acknowledge the receipt of your letter of the 25th instant, requesting that superannuation or a pension be granted Miss Josephine Audet, teacher of the Maria Indian Day School, and stating that, if this were granted, she would give up duties.

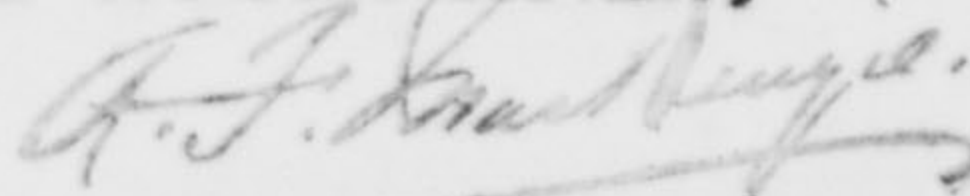

In reply, I beg to say there is no provision for the granting of superannuation or pensions to teachers of Indian day schools. A small gratuity on retirement has been granted in the case of several teachers in the past, and the Department will be prepared, in the case of Miss Audet, to allow her a gratuity on retirement equal to one-quarter of her yearly salary, or a total of \$112.50. You should inform Miss Audet accordingly, and ascertain from her definitely whether she intends to give up duties, and, if so, you should forward her written resignation.

In the event of Miss Audet retiring, the Department will be pleased to accept the services of Miss Dora Gideon to succeed her. Salary at the same rate as was paid Miss Audet, viz: \$450 per annum, which will be supplemented by whatever bonus may be provided by law.

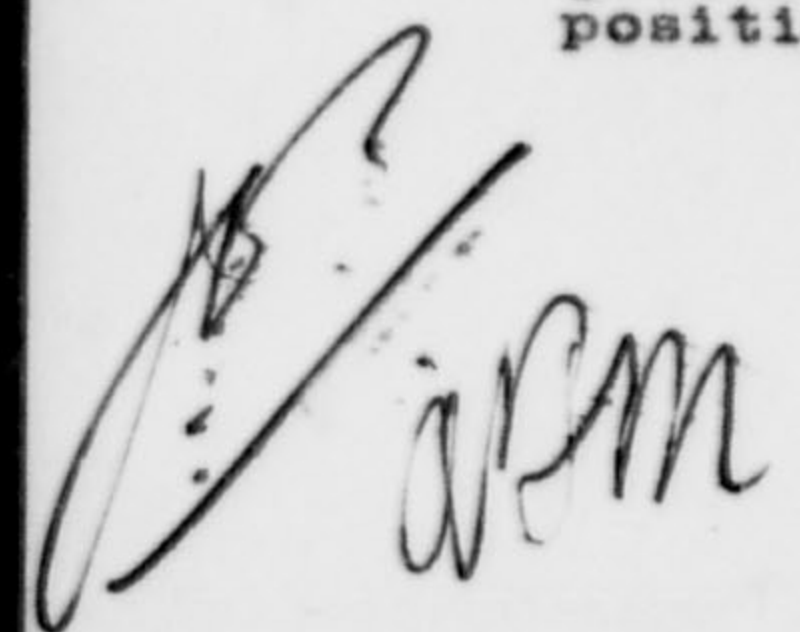

I will be pleased if you will state definitely whether Miss Audet intends to resign and accept the above gratuity, and, if so, whether Miss Gideon will accept the position to succeed her.

Gentlemen,

I beg to tender my resignation from the position of Teacher at the Indian Reserve Wabaria, in favor of Miss Doris Gedeon. This position I have held for eleven years, and have taught singing, practical farming, sewing, etc., in addition to the ordinary branches.

In consideration of the above I beg to apply for an annual gratuity or pension.

Enclosed please find application of Miss Doris Gedeon who I am convinced will fill the position to your entire satisfaction.

Thanking you in advance,

I am, yours respectfully,

Sir,-

I have to acknowledge the receipt of your letter of the 18th instant, enclosing the resignation of Miss Josephine Audet, as teacher of the Maria Indian Day School, and also submitting an application from Miss Dora Gideon for appointment as teacher of this school.

In reply I beg to say that the resignation of Miss Audet is accepted and the appointment of Miss Gideon is approved. She will be allowed salary at the rate of \$450.00 per annum which will be supplemented by whatever bonus may be provided by law.

As you were informed in official letter of July 29th last, there is no provision for the granting of superannuation or pensions to teachers of Indian Day Schools. As you were informed in that letter, the Department is, however, prepared, in the case of Miss Audet, to allow her a gratuity on her retirement equal to one-quarter of her yearly salary, or a total of \$112.50. A cheque for this amount will be forwarded under separate cover. This is the only payment that will be made and no further amount can be allowed.

Miss Gideon's diploma is being returned to you under separate cover.

O T T A W A .

Honourable Sir,

While hesitating to bother you during a time when you must be engrossed in political affairs,I wish to take this opportunity of laying my claim before you prior to your visit abroad.

I have spent twenty-eight years of my life as a teacher. For four years I taught in the United States,for twelve years in various parts of the Province of Quebec and,for a further period of twelve years,I was the teacher on the Indian Reservation situated between this village and Cascapedia.

Approximately five years ago I was obliged to discontinue this work as a result of ill health. I have every reason to believe that I gave satisfaction in the posts to which I was assigned,a statement which any investigation would serve to prove.

My work among the Indians was unusually arduous. As a rule the hours were very considerably longer than in the ordinary provincial school. A great deal of extra work was involved during my association with the Indians and,not only was the necessity of begging for them added to my regular duties,but upon occasion I assisted the Indian children with funds from my own purse.

Whereas my health precludes the possibility of my ever renewing my work as a teacher and in view of my past record,I feel that the Government might consider granting me a pension,or some alternative,but adequate,compensation for my past services.

I would ask you,therefor,to give my request your earnest and personal consideration and,if necessary,forward my claim to such Minister of your Government who may have these matters in hand.

Thanking you in anticipation of your courtesy regarding this matter and assuring you of my gratification at your success during the recent election,believe me to be,sir,

Your obedient servant

Your letter of the 24th September to the Prime Minister was received during his absence from Ottawa. Since the recent elections you will appreciate that the pressure of public business has been so great that Mr. King has been unable to carry on anything in the way of personal correspondence. Before leaving for the Imperial Conference, however, Mr. King asked me to write you expressing his cordial thanks for your congratulations on the result of the recent elections, and stating that your letter has been referred to the Honourable Charles Stewart, Minister of the Interior, who has charge of the Department of Indian Affairs, and who will be in a position to give consideration to the representations you have made.

Honourable Sir,

If you would be good enough to have your Secretary refer to your files,you will find that,just prior to the time that you sailed for England,I wrote to you with reference to obtaining a pension for my many years of service as a teacher in this vicinity.

In this connection your Secretary advised me that you had instructed him to refer the matter to the Honourable Charles Stewart. A few weeks ago I received a letter from the Deputy Superintendent of the Department of Indian Affairs advising me that there is no way in which it is possible that I can be granted any pension,or anything other than the three months salary I received upon retiring.

Although I do not wish in any way to criticise any action which your ministers may see fit to take,it seems to me that the decision reached by the Deputy Superintendent is a most unjust one.

May I so far bother you as to ask you to have the matter looked into a little more deeply? It would seem to me that the statement that "there is no way in which it is possible----" is somewhat arbitrary.

The education of Indians is a form of teaching service somewhat outside the realms of ordinary education and the average teachers' experience. Not only is this true of the amount of patience and sympathetic understanding demanded,but also as regards the number of hours work entailed,the necessity,as I have already pointed out,of continually begging for them,and the constant demands upon my private purse.

My many years of service,coupled with my present poor state of health as a result of such service,leads me to feel

Memorandum:

DR. SCOTT.

With further reference to the complaint in the letter of Anthony Martin, of the Maria Reserve, after a study of our files, I am inclined to the opinion that this Indian is not expressing the thoughts of many of his people. The Maria Indian Day School, which is taught by Miss Dora Gedeon, 27 year old Indian girl, is well attended and no other complaints have reached the Department. This teacher possesses an Elementary Teacher's Diploma (French and English) for Quebec and has taught at this school during the past 9½ years. The Provincial School Inspectors who visit the school regularly have reported very favourably.

It is entirely probable that Miss Gedeon is not a really good teacher, as she possesses the minimum qualifications. I find that the School Inspectors' reports, because of their brevity, do not paint a very good picture of this worker. The average attendance of over 20 pupils at this school for the past few years suggests that the teacher is doing fairly good work.

As I can make out, Anthony Martin, would like to have Miss Josephine Audet who once taught there, come back again.

He has no love for the Gedeon family as one of them is the constable and Anthony has to keep within the law.

He is now sending his only boy about 12 years of age to this Miss Audet at Maria.

There is also Louis Martin who has kept his boy from school since before I became agent, for the reason, the teacher would not allow him to ruin the discipline of the school.

All others seem to have no objection to this teacher, and personally I believe she is honest and capable.

The Inspector also seems to find her work satisfactory.

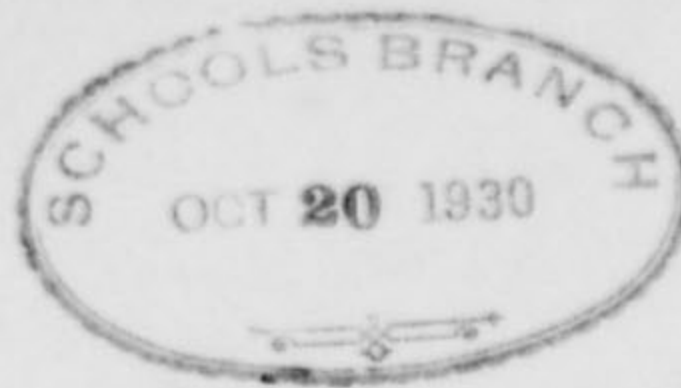

I have advised Martin that his letter was received, and referred to me.

Very Dear Sir:

I expect you have noticed well on my quarterly return of September 30th last, the full absence of Charles Martin for the month of September.

This Charles Martin, is the twelve year old grandson of Anthony Martin, who is sending him to a private class in Maria; Miss Josephine Audet, as teacher. It may be, that any person has the liberty to send their ^{child} to any class they wish, but, a person as Anthony Martin, who receive much assistance from the Department, and, whose wife is receiving the

"Relief Assistance" from the Department must act in such a manner toward the Department. He pays this Miss Budet five dollars monthly to teach this grandson, and twenty-five cents each morning on the service bus to bring him there; Now, this doings of Anthony Martin, disturbs much peace on the Reserve, among those parents who are faithfully sending their children to school; as they say, if Anthony Martin can afford to pay a teacher to teach this boy, and pay his fares on a motor bus, he can well able live and support his wife, without the Department's assistance, which he don't deserve by doing this.

It has always been my aim to see these Indians justly treated; as their visits to my school after class hours, are numerous, of which they come to me and ask my advice about their affairs, and I am happy to say, I prevented much ill-feeling among them; and it

nothing but fair of them saying all this; for this Anthony Martin is not at all of more dignity than the other Indians, who are faithfully observing the Department's rule, with great respect; and, now, I think I have taken too much interest in my class, and worked too hard, for my teachings to be called "no good" by the very character of Anthony Martin. Since March 1st last, when he thought he was "a chief", he has greatly disturbed much peace, by torturing the other people on the Reserve, with the very saying, that he could make the Department obey him, from letters of anything but lies; but, alas! we are very thankful to the Department for not sending him a paper as "chief", for the Reserve would surely have gone wild. I have done all my possible to appease the other faithful Indians, up to now, when last evening I had more visits, and I told them, I could do nothing for them on that point, as

it is not I, who allows this Anthony Martin with all the Department's assistance. So, I convinced them to be peaceful, by promising that I would write to you dear Mr. Fervier, of which I hope our pleading will be hearkened to. At the same time there are two other parents who do not send their children to my class, you will notice their names on my quarterly report, of which I will mention their names again, which are - Percy Jerome and Albert Martin, those two are not attending any class, they remain home; and whose doings are all this? the very same Anthony Martin.

I sure declare that this doings of Anthony Martin, has greatly hurt my feminine feeling, as, it's always my utmost ambition, to do my very possible to teach their children all that lie in my power; my only impossibility, is, that, I can't create new brains in them, and it is well under

understood by all the other Indians, only this Anthony Martin, he finds fault where there is not even the shadow of one; and I fear that if he is not punished by taking every Department's assistance from him; they may be others who will send their children to another class.

And, again, if this Josephine Audet would not have accept this boy, they would return to my class, as, I think, I have more right to have them at my mission class, than she has, I would have been pleased if Anthony Martin sent this boy to a higher model or Academic year class; but, he is only going to an elementary class as mine, and, he sure has a great deal to learn yet in the Elementary course, as he wasn't the brightest pupil of my class.

And, again, may I say a few words of myself. This same Anthony Martin has said enough of ill-talk of my family; my poor brother, was

just tortured last winter by his wife
and talk, just because he rented a
piece of shallow land to the English

we call it. All the bad stories of
lies, that he would tell people he
saw about me; well, that, I didn't
heed so much, as I knew my own
conscience and wasn't guilty; but,
when he took this boy from my
class, and sending him to another,
without any reason, whatever, made
me so angry, with the thought that
he gets off with all his dirty doings,
and, then, he'll laugh, scoff and
mock, boast and torture of how
he gets along, and that the other
Indians can't do likewise, because
they are cowards; and, for sure these
people don't like this said to them; but
I always encourage them, by telling
them; why listen to such talk? don't
let on you hear him; don't let on
you notice his actions; but that
won't do; so, I decided that I would

So, dear Mr. Herrier, use your own judgment about it; but to my great opinion, is that, if such people do not send their children to class, and who are at the same receiving assistance from the Department, and if this assistance were taken from them on that account - no fear, very soon they would send their children back to school, and they would understand that they don't deserve any help if they don't obey the Department's rules.

Dear Mr. Herrier, may I ask another question. Is it my duty to take the books from this Charles Martin, as they are belong to the Department's school, and not to me; as, the Indians say again, why, don't Anthony Martin supply him with books; why allow him to keep the Department's books? for he should be able to buy the books, as, he has no other expenses,

for the Department keep him.

Whatever you think about it, I would be very pleased to receive advice on that point, so, if any Indian come to me and speak of the books, I would appease them by reading your letter to them, as they say, it's I, who should just go and demand the books, but, I ask your advice to what to do, of course, if you say, it is my duty to take them, I kindly ask you to send a letter to this Anthony Martin, telling him to send back the books which are belong to the Maria Indian Day School, and he has no right to keep them, as, for peace-sake of the other Indians, it will have to be done.

Dear Mr. Fenner, I am indeed very sorry to have to interrupt you with this letter; but that's I, - I do anything for peacefulness. Hoping this will make things brighter on my part.

I am, Very Respectfully,

Dora Hideon,
Maria Indian Reserve Teacher

17-1-1.

Ottawa, October 20, 1930.

Dear Madam:

I have your letter of the 14th instant, with reference to difficulties at the Maria Indian Day School. The Department has received a report from Mr. Indian Agent Nadeau, concerning Anthony Martin and the trouble he has caused. I believe that you should not give prominence to his annoyance and you should carry on doing your best for the children of the reserve. The Department tries to be patient with the Indian people and at the present time is not prepared to order Martin to send his grandchild to our school. He is paying for his tuition elsewhere and, in due course, he may see the folly of this action. If there are any children on the reserve who are not going to school and who should attend the Maria Indian Day School, you should present the facts to Mr. Indian Agent Nadeau. I feel that the question of the school texts which Charles Martin has retained is too trivial to cause any comment and, if I were you, I would not worry further about the matter.

Your obedient servant

January 27, 1931.

DR. SCOTT.

Herewith are two letters from the Maria Indian Reserve complaining of the alleged actions of Miss Gedeon, a school teacher on the Reservation. If Miss Gedeon is employed by the Department of Indian Affairs it would seem that the charge of ill using children should be thoroughly investigated.

One of these letters is supposed to have come from Anthony Martin, Chief, but the signature on it is entirely different from that of Anthony Martin, whose name appears on another letter going forward to you today with regard to some difficulties concerning the cutting of wood. All of the correspondence is in the same handwriting.

Martin has complained before & the Agent reported he was a troublemaker & that the teacher was popular & doing good work

Dear Sir:

Anthony Martin has written to the Prime Minister, complaining about Miss Dora Gedson, teacher of the Maria Indian Day School. He has enclosed a communication from Mrs. Louis Caplin, who claims that, on January 13th, her 11 year old daughter received several bruises on hands and arms and that she was generally illused by the teacher, who was using a pointer. Mrs. Caplin further complains that this daughter has been at school for 6 years and is not yet ready for her first communion.

You will please make careful investigation into this complaint and let the Department have a full report without delay.

Yours very truly,

I, the undersigned father of Alice

made a false report, against
Miss Clara Gideon, teacher of the Mania

bruising of the points, the hands of
my eleven year old daughter,
Alice Caplin. This is all false, I
knew nothing of my wife making
this report, until the teacher

My wife did not do this by her

to do this false reporting by the chief

who are the two constant dispute
makers on the reserve.

My little girl Alice, has made
her first communion three years

she is now preparing for her

TO DATE OF THIS LETTER

Sir,— You will find enclosed a declaration, signed by Louis Caplin husband of Mrs Caplin who made a complaint about the teacher.

It is my opinion that the teacher is being libeled by Anthony Martin - Louis Martin and a few others, who are trying to find cause to have her put out as teacher, for the following reasons.

She has had the courage to remain master of the school in spite of their rough unruly boys who would want to do as they please, and unfortunately encouraged by their stupid parents.

As for the daughter of Mrs Louis Caplin she may have been punished, but if it had been out of the ordinary - the father who was at home, would have known about it.

It would seem to me that should the parents be upheld against the teacher, no female teacher will be able to keep discipline.

This school is well, and cleanly kept and I would hesitate to recommend a change of teachers, as the school could so easily become a source of trouble.

As for the quality of the education they are getting I have no means of judging, as the Inspector never notifies me when he is to inspect the school, and I have no experience nor inclination to inspect them myself.

I would suggest the Department notify the chief to see that the children make full use of the instructions to be had at this school, and appreciate that a teacher has a difficult work to perform.

Memorandum:

MR. BUSKARD.

Upon receipt of your memorandum of the 27th ultimo, enclosing two letters from the Maria Indian Reserve, complaining about the school teacher, I wrote to the Indian Agent for a report. The Indian Chief, Anthony Martin, has made complaints before and our representative has reported that he was a trouble-maker and that the teacher was popular and was doing fair work.

Mr. Indian Agent E. Nadeau has reported on the 9th instant that Martin's last charge is unfounded. He encloses a letter from Louis Caplin, the husband of the woman who is supposed to have signed one of the letters forwarded by Martin. In this letter, Mrs. Caplin complained that her daughter was ill-used and that, after being to school for five years, she had not yet taken first communion. Caplin's letter declares that his wife made a false report and that she did not do it of her own free will but upon the urging of Anthony Martin. He writes that his daughter took first communion three years ago and that she is now preparing for confirmation.

 some Indians they hear all my complaints
 and I explain I told Mr Nadeau that Teacher
 she using my children like a animal she beat
 my little girl on Jan 13th 1931 she give awful
 beaten she used a hard wood Pointer when she
 beat my little girl she gave some marks on
 her hands and arms and also on her leg all
 bruises and. then she ~~knocked~~ knocked on the
 floor and dragged her. and after she took on her
 hair and ~~too~~ put her on her seat she nearly
 pulled her hairs and make her two lumps
 and I told Mr Nadeau that what she done to my
 little girl and after a week time when she has beaten
 my little girl she again beat my little Boy again
 she hit on his nose and give again nose bleeding

 Teacher about their children and he say
 I'll send that report to Ottawa. But since
 we never get no news. Perhaps that
 Mr Nadeau never send my complaint because
 he wouldn't send any report to those Gedeon
 because he is too kind for them and
 I loved them everything they are all kind
 or very best friends. If some complaints
 Mr Nadeau had from Gedeon he wouldn't
 listen to us. he just favored them those
 Gedeons and I tell you Mr Bennett when
 the Bishops come this summer they no
 children can make no first Communion
 because they don't know ~~it~~ nothing she
 was teaching 9 years and no one scholars
 on this Reserve can show that she had
 some Education they are some age 13
 But couldn't read or write and now Mr

I am sending you a letter addressed to the Right Honourable the Prime Minister, by Mrs. Louis Condor, of Dimock Creek, P.Q., who is complaining of the treatment alleged to have been administered to one of her children by Miss Dora Gideon, a teacher in the school on the Maria Indian Reserve.

This letter is referred to you for whatever action you may consider necessary. I note that it is in the same handwriting as letters received recently from other persons residing on the Reserve, in which complaints were also made against the teacher. It is quite evident that some individual is carrying on the correspondence for whoever may be disposed to lodge a complaint of this kind.

Sir, - You will understand by looking at the attendance in this report, that some parents are very neglectful about sending their children to school.

In talking to them about this they always explain some reason.

There is Chas. Martin age 9 grandson of the Chief Anthony Martin Abraham Martin the councillor has a boy 8 who also has not attended during last term.

John Martin also a grandson 8 who does not attend.

The above 3 men are leaders of the Martin crowd, and are bad examples to the others.

I would ask you to let me know the best method to use to have them send the children to school as they are deaf to explanations of the benefits of education.

Anthony Martin the Chief has long been jealous of the Gedeon family and has been inciting some foolish parents to make complaints against the teacher Dora Gedeon.

My idea is that I will write to each of these men, and tell them

Sir:

I have your letter of the 3rd instant, with reference to the non-attendance of certain children at the Maria Indian Day School. The Department believes that it might have a salutary effect if you wrote to Chief Anthony Martin, informing him that he must stop keeping children from school. You may state that, if he persists in his efforts to keep children from school, the Department will be under the painful necessity of considering stopping some of the relief.

Sir,-

I am enclosing letters which the Department has recently received and which are further complaints against Miss Dora Gideon, teacher of the Maria Indian Day School. The Department wishes you to see this correspondence so that you can inform those who have written that their letters have been received and that any complaints which they had should have first been brought to your attention. There has been considerable correspondence concerning the success of Miss Gideon and you may tell Anthony Martin and any others that there is no merit in repeating their charges.

If, however, there is any truth in these communications, the Department wishes you to again make a full report in the matter.

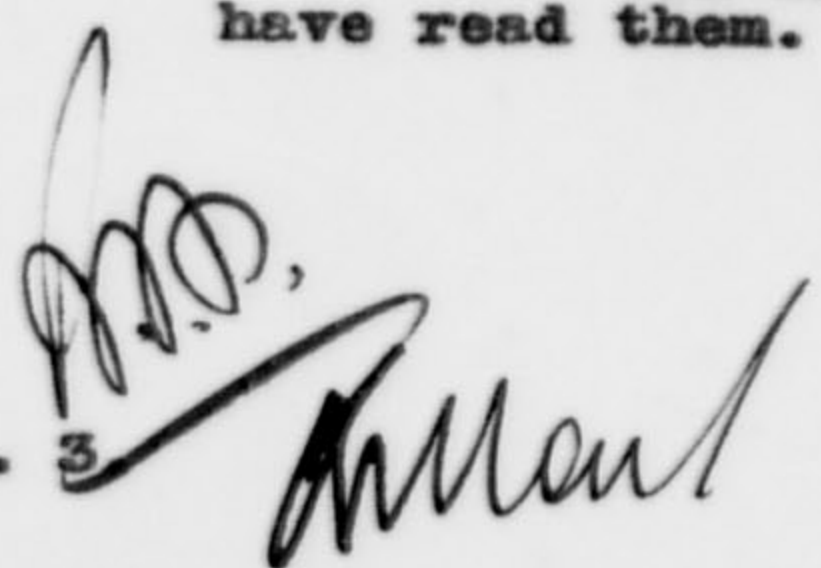

You will please return the enclosures when you have read them.

EX D.

Sir, - On March 3rd 1932, I had the opportunity of visiting the Maria Indian day school, in company with school Inspector Mr Leblanc.

We found 17 girls, and 15 boys at school, out of a possible 36 of school age.

The inspection was fairly reliable to get an idea of the teaching they were receiving, and the inspector told me he was satisfied they were getting well instructed.

The children I thought answered much quicker, and better, when the teacher questioned them, and I suggested to the Inspector that we might get a better idea of what they knew, if he allowed the teacher to question them in all the different branches of study, and for him to make his suggestions to her.

They were not accustomed to his manner and he could not understand them well.

In my opinion they knew a lot more than he could make them demonstrate.

He agreed that at his next visit he would try out my suggestion, and I expect to be present to see the result.

Your advice is always appreciated.

Sir, — Answering above letter.

I cannot discover any reason or common sense in the complaint about the school teacher.

It appears to be simply malice on the part of Anthony Martin Chief and by him communicated to a few families.

They cannot attack her character as that is above reproach.

Their principal ^{Complaint} was she punished a few children and hit one or two with a pointer.

In the present age a teacher either has charge of her school or the bolder children have.

It is to her credit that she is able to keep discipline in her school regardless of the foolishness of some parents.

However about her ability as a teacher, I intend to interview the School Inspector as soon as I can meet him, but he never notifies me, when he goes to the School, and I do not consider I can order him to do so.

I return the correspondence.

Ottawa.

Gentlemen:-

Understanding that a vacancy in the faculty of the Indian Reserve school of Maria is about to occur, I beg leave to apply for the position.

I am 21 years old. I have followed the course of the Montreal Normal School of Quebec, and have taught successfully for four years.

The inhabitants of the said Reserve have all manifested the desire to have me as their teacher for the next term.

Hoping a favorable answer, I remain;
Yours respectfully,

Rev. Sir:

The Department has received an application for the position as teacher of the Indian Day School on the Maria Reserve for the coming school year. No intimation has been received from the present teacher, Miss Dora Gideon, of her intention to give up duties. I would request that you see Miss Gideon at an early date and ascertain from her definitely as to whether she intends to continue as teacher for next year or not. If she is giving up duties, you should obtain her written resignation and forward same to the Department.

I shall be pleased if you will give this matter your early attention, in order that, if there is a vacancy, due time will be given to the obtaining of the services of a teacher for the coming school year.

Ottawa, Sept. 14, 1938.

Sir,-

I beg to submit a report of my inspection of the Maria Agency made on the 22nd August, 1938.

x

x

x

Before leaving the reserve, I visited the Constable, Milton Gideon, and told him of all the complaints received at the school meeting.

The conclusion in this matter is that the whole thing is a family quarrel; on one side, Constable Gideon, on the other side, the teacher, Miss Gideon, his own sister, and a couple of his brothers. As a Constable, Gideon trying to accomplish his duties to the best of his ability is not popular. The fact that Agent Cyr, who lives a few miles away from the Reserve, has to depend a great deal on Constable Gideon living on the Reserve is quite natural, but many of the Indians do not seem to approve of it, nor understand it.

I have never seen brothers and sisters so divided and bitter, one alone having to stand against all others combined. No one seems to be willing to stop this feud and those against the Constable appear to have stirred the majority of the Indians against their own brother. I will not believe that this man is as bad as he is supposed to be until someone can prove it to me. This is the most bitter family affair I have ever seen. There may be faults on both sides, but the only solution I can see would be to put them all out of jobs and appoint a new teacher and a new constable.

Ottawa, Sept. 14, 1938.

Sir,

I beg to submit a report of my inspection of the Maria Agency made on August 22nd, 1938.

X X X
After the usual opening remarks, I asked if there were anyone who wished to voice any suggestions, complaints, etc., and the following is an outline of such.

Chief Councillor Isaac Martin informed me that the Constable is not helping the Indians to have their children attend school and he is not trying to help the Chief and Councillors. He also wanted to know why the Constable always interfered between the Indians and the Agent. Constable Gedeon has been trying to have the school teacher dismissed, saying that the Indians requested such a move. However, the Chief stated they had nothing to say against the teacher. On the subject of education, he pointed out that the school house was too small; there was no room for more desks and at the present time have to seat three on a seat provided for two. He complained that the Councillors were never informed of what was going on - neither from the Agent or from the Constable.

Mr Secretary,

In answer to Mr Hoy's query about date that Miss Edith Leblanc, Teacher, packed, I beg to inform you that it was on the Monday - 13th November 1939.

As to materials of the old school, they were divided between the Indians who worked to the demolition, viz: J. B. Fiome, Isaac Martin, Mon Teane, widow John Martin, widow Lavigne, Abraham Martin, Robert Martin, Louis A Martin, Miss Jos Fiome, Louis Condo, Jos Condo, Peter Caplin, on the first afternoon of demolition. I may add that though I told the Indians to wait for me on the next day to supervise the work, during the night the remaining of work was completed and all the materials were scattered at the Indians homes. This I was informed by the work of the Chief Robert Martin who told the Indians the materials belonged to them, and that it was his "business" to divide the remaining of materials. I have just come to believe I did my best to follow instructions to give the materials to those I judged were in most need, but I could not content them all. Mr Sparks was witness at the demolition, and can say the same as I report on this subject.

Replying to your letter of the 10th ultimo, I must inform you that the school-teachers of the Indian Reserve of Maria are willing to teach during ten months as formerly and to accept the salary for nine months as requested by the Department. They claim that they prefer teaching during ten months, if the Department authorizes them to do so, as it would not put back the classes so much, even if they lose one month's salary during 1940-41, as they would be unemployed anyhow.

I trust that the Department will grant this request and I remain,

Mr. Harold W. McKell, Director,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ont.

Dear Sir:

Re: Maria Indian Reserve School.

Referring to my message of the 19th of this month, I beg to expose the following facts: I have been discussing lately with Mr. Jackson of your department about the Indian Reserve of Maria. We both admitted that there is something to do in that reserve if we want both improve the conditions in which Indians live and decrease the cost of direct relief. Firstly, I want to recommend, after having consulted the authorities of the Reserve, the bishop, the priest, the chief, the agent, the police, to engage English speaking nuns to teach at the school instead of Miss Dora Gedeon and Edith LeBlanc.

You know that the Indians of the Reserve of Maria are Catholic. His Excellency Bishop Ross has appointed two sisters from the congregation of the St. Rosary, Rimouski, namely, Sister Mary of Mercy and Sister Mary of St. Daniel.

In the last years, the authorities of Maria have been anxious to get nuns to teach at the Indian School and I personally know that the whole matter has been exposed to your department since two years; therefore, I ask you to accept my proposition, to get in touch with the above mentioned Sisters and to engage them at once as official teachers in the Indian School of Maria. They have the qualifications and diplomas required.

Now before the school opens, I recommend certain improvements in the school: School has been wired but the electricity is not connected yet; beside that I ask for the instalment of a bathroom and the digging of a well to secure water to the school.

2-- Mr. Harold W. McKell, Director,

Secondly: If we want to decrease the cost of direct relief in the Reserve of Maria, I believe that we should give the official authority to the parish priest of Maria as it was in the old days. So I would recommend if there is any change to be made at the Reserve that Father Edmond Plourde, parish priest of Maria be appointed as official Indian Agent with the salary of \$300.00 a year and that the actual agent, Mr. Napoleon Cyr be appointed assistant Indian Agent and farming instructor with the salary of \$600.00 a year. Mr. Cyr would devote all his time to the Indians; he would make them cut their wood and cultivate a garden vegetables and potatoes and by and by keep a cow and a pig.

I saw Mr. Cyr myself and Father Edmond Plourde and all the authorities of Maria, the major, the Indian chief, the police and they are all enthusiastic about that plan. The bishop himself, Mgr. Ross is greatly in favour of this plan and thinks a lot of it. He is ready to support my proposition and we all believe that after a few years you will see yourself lots of improvements in that Reserve.

Hoping that you will accept my proposition, I remain,

Yours truly,

Dear Mr. Poirier:

I have for acknowledgment your telegram of August 19 and your letter of August 21, in both of which you refer to certain adjustments which in your opinion should take place with respect to the operation of the Maria Indian Day School.

In view of existing conditions on the Maria Reserve, it has been decided to have Mr. J. Thibault, Inspector of Indian Agencies for the province of Quebec, make a thorough inspection of the agency and report to the Department in due course. Mr. Thibault will reach the Maria Reserve on Wednesday morning, August 28. You will in all probability have an opportunity of meeting him during his inspection of the reserve.

It is my intention to deal with the appointment of the agent in a separate communication.

Memorandum:MR. THIBAUT:

May I direct your attention to a telegram and letter on this file, received by the Director from J. Alphe Poirier, Esq., M.P., for Bonaventure. This correspondence, you will note, is self-explanatory.

The Department has no serious objection to the appointment of two English speaking Nuns to take charge of the Maria School, provided that Nuns with the proper qualifications are available. Under existing regulations, however, the teachers now in charge of the school should be given a month's notice. This notice should be given not later than October first and the change of teachers could not take place until November 4th.

MAH

In respect to the improvements to the school, suggested by Mr. Poirier, I may state that we are not supplying electrical energy at any Indian day school that I am aware of, in the Dominion, and we have refused repeatedly to install bath tubs and bath tub equipment in Indian day schools. You should point out to the Member that this equipment is not supplied in the case of White schools throughout the Dominion and that there is a limit beyond which the taxpayers of Canada are not prepared to go in providing educational facilities for the Indian population.

You are aware that our educational appropriations have been drastically reduced, that our Indian schools are operating on a 9 month rather than a 10 month basis and that we have not at this date funds sufficient to open a number of seasonal schools in the outlying districts. If you have an opportunity to do so, I think these facts should be discussed very freely and very frankly with Mr. Poirier.

Supt. of Welfare and Training.

Dear Sir:

On the 24th of August, I received a letter from you in which you said that Mr. Thibault Inspector of Indian Agency for the Province of Quebec would make an inspection on the Reserve of Maria.

In fact, Mr. Thibault has been inspected the Reserve and I met him in my office after the inspection. He is a very nice man and I understood that he would recommend to the department to place nuns in the Indian School of Maria.

Since that interview, I have not received any news about that project. On the 4th of September, the laic teachers, Miss Gedeon and Miss LeBlanc opened the school without autorisation and the authorities of the Reserve are very anxious to know if the Department will at last approve the engagement of the nuns.

For the benefit and advantage of the Reserve, I have recommended to appoint Father Edmond Plourde, parish priest of Maria as Indian Agent of Maria with a salary of \$300. a year and Napoleon Cyr actual Agent as Assistant Agent and Farming Instructor with the salary of \$600. a year.

Mr. J. Thibault and his companion Mr. Arneill found that the soil of the Reserve was a fertile one and if my propositions are accepted I hope that we will be able to do something for the Indians of Maria. Please take action immediately in the case of the school teachers. Please advise the laic teachers that their engagements is cancelled and let the sisters of St. Rosary from Rimouski know about it and sign their engagements.

September 16, 1940.

Dear Mr. Poirier:

I desire to refer to your telegram of the 11th instant with reference to the teaching services at the Maria Indian Day School.

In our appropriation for the current fiscal year it was only found possible to provide the funds required for the operation of Indian day schools for a nine-month period instead of ten months. The lay teachers who were in charge of the school during the academic year 1939-40, and whose employment was continued for 1940-41, had sufficient interest in their work to write to the Department and state that they were willing to operate the school for the full ten-month period, even though they would only be paid for nine months. The Department appreciated this action on their part and they were consequently authorized to re-open the school.

While the Department has no objection to the employment of Nuns as teachers of the Maria School, at the same time I feel you will agree that we should deal fairly with the two lay teachers. It would not be fair to dismiss them without giving them adequate notice as it would be practically impossible for them to secure other schools at the present time, due to the fact that school boards have already secured teachers for the academic year 1940-41.

The desirability of employing Nuns to take charge of the Maria School will be given careful consideration by the officials of this Branch and a definite decision reached in respect to the matter prior to the opening of the 1941-42 academic year.

T.R.L. MacInnes, esq.,

Dear sir,

I just receive yours of the 16th.
with reference to the school of Maria.

Your answer is far to be satisfactory;
when Mr. Thibault came here in the last week of
August, it was understood that the Nuns would be
accepted to teach at the reserve; I communicated
with you at once and exposed our whole plan; we
have retained the services of the Nuns;

Then when the lay teachers saw that,
they tried to play a bad trick on us; they offered
their services free for a month; you knew since two
years that we want nuns to teach at that school;
the proposition has been brought before you two
years ago;

Beside that, I'll tell you some thing about
those lay teachers, they are no good at all even if
they would teach free; they had never any result and
the young generation of Indians at Maria has no edu-
cation, no religion and no principle; we have to make
a change and at once; I don't want to wait till 1940-
41, it is right now that I want a change; if you don't
accept our suggestions and if you don't make the chan-
ge, I will be forced to believe that you plotted with
the lay teachers to help them to keep their position;
Mr. Thibault told me that you have the right to give
them an advise of 30 days; you should have given that
advise when I wrote you at the end of August; give it
right now; next year, it will be impossible for us to
have the nuns; we cannot ~~feel~~ them two years consecu-

tively;

You cannot go against the religious and civil authorities of this county; you are very much too far to appreciate the whole thing and you must accept the advice of your inspector, Mr. Thibault and of those closely interested.

Now, it was very nice from the Department to ask my collaboration for the welfare of the Indians in my county; but if it is only to reject my advice that will not do for sure; I am willing to help; but you must help too.

I will accept no more delay and no more tergiversation; go to it.

Dear Mr. Poirier:

I have for acknowledgment your letter of September 19, in which you urge the desirability of engaging Nuns to take charge of the Maria Indian Day School.

The subject matter of your letter suggests that a misunderstanding has arisen with respect to the employment of teachers at this particular school. There is nothing on file here to indicate that the Department has been requested at any time to employ Nuns at the Maria Reserve. Miss Edith LeBlanc, one of the teachers now in charge, was recommended for her present position by Mr. P. E. Cote, M.P., in a letter dated October 4, 1939. This teacher was recommended also for the position by the Reverend J.A.W. Provencher, in a letter dated September 13, 1939.

The file here indicates that the Chief of the Training Division acknowledged receipt of a letter from the Reverend Father Placide, Restigouche, Que., dated July 13, 1939. In that letter the Chief of the Training Division states:-

"I desire to refer to your letter of the 13th ultimo in which you state that His Excellency Bishop Ross intended to write to the Department suggesting the appointment of religious teachers at the new Maria Indian

Day School.

"No letter has yet been received from His Excellency and if he intends to write to us I should appreciate receiving a letter at the earliest possible date".

The Reverend Father Placide replied in a letter dated August 7, 1939, stating that it was impossible for His Excellency Bishop Ross to secure Sisters to take charge of the Maria School. This is the only correspondence on file relating to the employment of Nuns to take charge of the Maria School.

In your letter you express the opinion that the Department should have given the teachers 30 days' notice of dismissal, when you communicated with us at the end of August. May I point out that a number of court decisions have been given with respect to the employment of public school teachers, indicating that during the holiday period - which usually consists of the months of July and August - teachers are not actually in the employment of a school, nor are Indian day school teachers during these months in the employment of the Government. Consequently, notice could only be given from the first of October, which is the first teaching month in the present academic year. In the case of public school teachers, in the majority of the provinces notice can only be given on the first day of June of each year or 30 days prior to the Christmas vacation. I feel confident you will agree with me that the Dominion Government as an employer of labour should not lend itself to any action that would create a sense of injustice in the minds of the teachers

whose services were no longer required. It is my understanding that Inspector Thibault discussed this matter fully with you and pointed out the difficulties confronting the Department insofar as any immediate change in the members of the teaching staff was concerned.

You will, I feel sure, readily appreciate the position in which the officials of this Branch find themselves. It is their duty and responsibility to interpret the regulations governing the employment of teachers that are approved by the Minister from time to time.

Re Maria Agency

Mr. Pratt and I discussed with Messrs. Hoey, Thibault, Arneil and Morris, the situation at this Agency, for the purpose of determining what steps should be taken either in the appointment of an Agent or to combine this Agency with the Restigouche Agency.

All of the officials in the Branch expressed the view that the situation at Maria had not changed for a good many years past and that the Indians were of a very low class. Mr. Hoey expressed the opinion that there had been no improvement in them for the last twenty or twenty-five years. I suggested to him that the money spent on their education had hardly been worth while because those children educated fifteen or twenty years ago should by this time have shown some of the results of the money that was spent on them. I pointed out that recently we had spent over \$10,000 on a new school and that if the Indians were not getting any benefit from the education we were giving them, perhaps some consideration should be given to making a change in the activities carried on in the school.

It was suggested that perhaps more time should be devoted to teaching the Indians manual training and how to grow gardens. At the present time there are ~~two~~ two female teachers in the school, a Miss Gideon who has been there for a number of years, and a younger girl who was appointed more recently. They do not teach any manual training. It was decided that Mr. Hoey should communicate with Macdonald College for the purpose of ascertaining whether there are any young graduates from that College who came from the Maria district and who might be interested in accepting a position of teacher at this school if the salary were increased.

It was thought that it might be possible to combine the positions of teacher and Agent and in this way the administrative costs of the Agency would not be increased very much. Arrangements could be made with Acting Agent Cyr to engage his services and equipment during the summer months to assist the Teacher-Agent in carrying out his instruction work.

It is of course appreciated that no change of this nature could be put into effect until the end of the school term. In the meantime it was decided to allow Mr. Cyr to continue as Acting Agent. It was decided that he should be written to fully, suggesting that steps should be taken immediately spring arrives to plow up as much land as possible, up to 30 acres, and an endeavour made to get the Indians to put this new land into gardens.

No definite decision was reached in reference to the Restigouche Agency. It was generally the consensus of opinion that it would be advisable to have a new Agent appointed there in place of Dr. Richard, allowing the latter to continue with the medical work.

Memorandum:

DEPUTY MINISTER.

Re: Maria Indian Day School -
Maria, Bonaventure Co., Que.

I am sending forward herewith, for your information, copy of a telegram received by me from J. Alphee Poirier, Esq., Member for Bonaventure, Que. The subject matter of this telegram, you will note, is self-explanatory.

At a conference attended by two officials of the Welfare Division and Mr. Jackson, held a few weeks ago, it was decided to secure, if possible, a fully qualified male teacher to take charge of the senior room at the Maria Indian Day School. An attempt has been made since then to secure a young man, qualified not only to take charge of the regular classroom work but to supervise the agricultural program on the reserve. It was our hope that by the employment of a man such as this the present agent could act as farming instructor and work under the teacher's direction.

The Superintendent of Welfare and Training informs me that he has interviewed Mr. Lefebvre, of the Civil Service Commission, and an official of the rural teachers' organization of Quebec, with the object of securing a suitable man, and that both these gentlemen have promised to assist in this task.

It may be remembered that Mr. Poirier made an attempt to secure Sisters for this school last year. In view of the fact, however, that it was considered inadvisable to dismiss the regular teachers then in charge, without notice, no change in the teaching staff was made. This telegram indicates that Mr. Poirier has again taken up the matter with the Bishop for the diocese.

OFFICE OF THE

Bonaventure, le 15 avril, 1941.

Monsieur Harold McGill,
Directeur des Affaires Indiennes,
Ottawa.

Cher monsieur McGill,

Je viens de savoir d'une manière indirecte que votre Département cherche un professeur laïque pour l'école de la réserve indienne de Maria. On voudrait en même temps lui confier l'instruction agricole des Indiens et la direction des jardins scolaires. C'est enfantin; quand on connaît bien les Indiens, on sait très bien qu'ils ne prêteront pas l'oreille à la théorie de l'agriculture.

Il semblait que votre département avait consenti l'automne dernier à confier l'école indienne de Maria à des religieuses du St. Rosaire dès le mois de septembre prochain.

Est-ce que Mgr. Ross n'a pas fait une demande officielle à ce sujet.

Les autorités religieuses et civiles du comté se sont entendues pour confier les enfants de la réserve de Maria à des religieuses; nous avons fait toutes les autres expériences sans résultats, laissez nous faire ce dernier essai. Je ne vois pas que votre département soit justifiable de contrecarrer nos desseins à ce sujet.

En tout cas, je vous dis carrément que vous n'avez pas mon appui pour engager un professeur laïque, et si l'affaire n'est pas réglée à l'avantage des intéressés je vous préviens de vous attendre à une discussion en chambre à ce sujet.

Voici, suivant l'opinion des intéressés du comté quelle est la meilleure manière de régler cette question; les autorités civiles, comme les autorités religieuses font bloc à ce sujet; après tout, nous ne sommes

pas sous une dictature ici au pays et le député du comté, quand il est appuyé par les autorités civiles et religieuses de sa région devrait compter pour quelque chose:

Comme instructeur agricole, nommez le présent agent des indiens, monsieur Napoléon Cyr; il a une certaine autorité sur les Indiens; il est un bon travailleur, il est un cultivateur assez avisé; il pourra les faire travailler; si seulement vous portez son salaire à \$500.00 par an, il va leur dévouer tout son temps durant l'été, le printemps et l'automne.

Donnez l'agence au curé Plourde de Maria qui est déjà le curé des Indiens depuis l'automne dernier; c'est un prêtre économe, un fondateur de paroisses de colonisation, par conséquent un homme qui a passé sa vie avec les pauvres et qui ferait un succès de l'administration de cette réserve; essayez le un an ou deux et s'il ne vous économise pas assez d'argent pour vous permettre de lui payer son salaire à même les économies qu'il vous fera, vous le remplacerez par un autre.

Confiez l'école aux Soeurs du St. Rosaire; dans dix ans, il y aura un progrès énorme au point de vue de l'amélioration morale, de l'éducation et de l'instruction.

Je vous demande expressément de bien vouloir donner la meilleure attention à mes suggestions.

Harold McGill, Esq.,
Director of Indian Affairs,
O T T A W A , Ont.

Dear Mr. McGill,

I have just learned indirectly that the Department was seeking a lay teacher for the school of the Indian Reserve of Maria. It is claimed that he would also instruct the Indians in farming and would assume the supervision of the school gardens. It is indeed childish; when one knows the mentality of the Indians, one knows that they will turn a deaf ear to the teaching of the theory of agriculture.

I was under the impression that your Department had agreed, last fall, to entrust, next September, the Indian school of Maria to the Sisters of the Holy Rosary.

Has not Bishop Ross made an official request in this connection?

The religious and civil authorities of the county have reached an agreement in order to entrust the children of the Maria Indian Reserve to the Sisters.

We have tried several other experiments, but unsuccessfully. Please let us try this last one. I do not see how your Department would be justified to interfere with our projects in this connection.

Be that as it may, I wish to state clearly that I do not endorse the appointment of a lay teacher, and if this matter is not settled to the satisfaction of the parties concerned, I wish to warn you that I will bring up the matter before the House of Commons.

According to the interested parties in the county, the best solution to this problem would be as follows; the civil and religious authorities hold the same views in this respect. After all, we are not under a dictatorship in this country and the views of the member of the constituency, when they are supported by the local civil and religious authorities, should have some weight.

As agricultural instructor, I would suggest that you appoint the present Indian Agent, Mr. Napoléon Cyr. Mr. Cyr exerts a certain authority over the Indians. He is a good worker, a fairly progressive farmer and he will be able to put them to work. If you are willing to increase his salary to \$500 per year, he will devote all his time to this work during the summer, spring and fall.

You could appoint as agent Father Plourde, of Maria, who has been the Indians' parish priest since last fall; being a founder of settlers' parishes, he knows how to economize and I am sure that he would make a success of such an undertaking. Appoint him on probation for a year or two and if he does not save you enough money to enable you to pay his salary, you could replace him.

Entrust the school to the Sisters of the Holy Rosary, and within ten years, I am sure that enormous progress will be accomplished from the standpoint of moral, education and instruction.

I would urge you to consider the above suggestions seriously.

Yours truly,

Re: Maria Indian Reserve School.

Dear Sir,

On the twenty-first of August 1940, Mr. J. Alphée Poirier, M.P. for Bonaventure addressed to Mr. Harold McKell, Director of your Department a letter in which he argued the great necessity of having Sisters of the Holy Rosary of Rimouski in charge of the Maria Indian Reserve School. This intervention of his came after conversations held on the subject with the authorities of the Reserve namely: the Chief, the Agent and the Constable, the whole with my full approval. As stated in that letter, all the Indians in that Reserve are Catholics, and it is their utmost desire to have nuns in charge of their school to instruct and educate their children; they are aware of how the same question is dealt with in the Ristigouche Reserve where a group of the same race is highly satisfied with the work of the Reverend Sisters.

On September the eleventh the same Mr. Poirier wired to your Department to urge the carrying out of his request; on the sixteenth of the same month you answered thus: "The Department has no objection to the employment of nuns as teachers in the Maria School", asking at the same time that the whole affair be delayed in order to give the teachers then in charge a fair dealing; you then declared that the question shall be solved before the opening of the 1941-1942 scholar year.

Trusting in those declarations I advised Mr. Poirier not to insist to have nuns in charge for the classical year 1940-1941.

Before the present academical year comes to an end, here am I to join with Mr. Poirier in asking you to manage so as to have the Sisters of the Holy Rosary duly in charge of the school in the Maria Indian Reserve for the coming academical year of 1941-1942.

I have just read the letter addressed to Mr. McKell on the fifteenth instant by Mr. Poirier, and I beg to state that I fully endorse his request and that I rely on him to have the matter carried out satisfactorily.

In the mean time I beg to remain, Mr. Secretary,

Re: Maria Indian Day School.

My dear Bishop Ross:

I have for acknowledgment your letter of April 17, in which you submit for departmental consideration a request that the Sisters of the Holy Rosary of Rimouski be placed in charge of the Maria Indian Day School.

I may state that immediately following certain representations made to this Branch by Mr. J. Alphee Poirier, M. P., to which you refer in your communication, a great deal of consideration was given to conditions at the Maria Indian Reserve, the welfare of the Indian population and an agricultural program that might be promoted on the reserve lands and also the instruction that might be provided at the school.

The Maria Reserve has, according to the last census, a population of 222 Indians, practically all of whom have been in recent years in receipt of relief. Relief costs in the province of Quebec for the fiscal year 1939-40 amounted to \$16.32 per head of Indian population as against relief costs of \$4.62 in the province of Ontario and \$4.59 in the province of British Columbia. The records indicate that, with the exception of a small group of Indians in the Maritime Provinces, relief costs in the province of Quebec are the highest in the Dominion. In view of this fact, a decision was reached a few weeks ago to promote a worthwhile agricultural program on the Maria Reserve. It was decided at

that time, in view of all the circumstances, that a male teacher should be placed in charge of the senior room. It was our thought that a male teacher could give general supervision to a welfare program on the reserve and organize at the school a program of manual training, emphasizing woodwork, elementary auto mechanics, elementary blacksmithing, etc. This decision was reached in view of the fact that there is an actual shortage in Canada today of skilled workers on the one hand while we have actually thousands of unskilled workers out of employment, on the other. It is our feeling that educational authorities cannot fully escape responsibility for this condition.

A telegram dated April 15, 1941, and a letter of the same date, received by this Branch from Mr. Poirier - both asking for the employment of Sisters as teachers at the Maria School, have been sent forward to the Minister for his consideration. It is just possible that conditions at Maria will again be reviewed in the immediate future, and I can assure you that the request you have made will be carefully considered when the matter comes up for discussion.

Memorandum to:

Dr. H.W. McGill

A few days ago Mr. Poirier, M.P. discussed with Mr. Pratt and myself the situation at the Maria and Restigouche Indian Reserves. He again urged that the school at Maria should be turned over to the Sisters to operate, as requested by Bishop Ross. He stated that he had been advised by some of the officials in the Branch some time ago that there would be no objection to this being done. We explained to Mr. Poirier the plans the Department had in mind, namely, to secure the services of some competent young man who had a good knowledge of farming, and that he should be appointed the senior teacher at the school and, as well, that he should act as Agent, being engaged the whole year around.

Mr. Poirier then inquired if it might not be possible to work out an arrangement whereby the Sisters might teach in one of the classrooms. He acknowledged, however, that there might be difficulties in this in view of the fact that there might be no place where the Sisters could live. Mr. Poirier then stated he would give the matter further consideration and discuss it with us again later on.

In reference to the Restigouche Agency, it was suggested that it might be advisable to appoint a Farming Instructor there as it was admitted most of the present Agent's time was taken up in rendering medical service to the Indians. Mr. Poirier gave the name of Mr. Edgar Arsenault, B.S.A., Bonaventure River, Quebec. He said that this man had very good qualifications and was now unemployed and he thought he would be satisfactory for the position.

It is understood that Mr. Arneil, when he makes the intended trip to Nova Scotia, will be travelling by motor and will be in the vicinity of Restigouche. It is suggested that he make an effort to see Mr. Arsenault and report to you on his qualifications. If they were satisfactory it is thought the Minister would approve of asking Treasury Board to create the position of Farming Instructor at this Agency.

You should, therefore, notify Miss Dora Gideon and Miss Edith LeBlanc that their services will not be required after June 30, 1941.

Re: Maria Indian Day School.

My dear Bishop Ross:

It has been decided by the Department to invite Sisters to take charge of the two classrooms at the Maria Indian Day School. It is my understanding that the Sisters who are prepared to undertake this work are the Sisters of the Holy Rosary of Rimouski.

It is the intention of the Department, also, to employ a farming instructor, who will devote approximately half of his time to the promotion of agricultural projects on the Maria Reserve and half to the promotion of similar projects on the Restigouche Reserve. It is our hope that this man will be in a position to give instruction in elementary agriculture and manual training to the senior boys in attendance at the Maria School.

It would be appreciated if we could secure one Sister capable of giving instruction to the senior girls in elementary domestic science, such as home-making, weaving, sewing, fruit preserving, etc., and one Sister reasonably familiar with elementary methods to take charge of the junior room.

The Maria Indian Day School is at present

The buildings form a small village on both sides of the highway and the entire population live there with the exception of two families who have located on the township road (Droken Road). There is an excellent school and church in the village. The dwellings appear satisfactory and adequate for the needs of the Reserve and, along with a few small barns and refreshment booths, comprise the buildings.

Superintendent of Welfare & Training,
Ottawa, Ont.

Dear Sir,

Having taught for nineteen years at Maria Indian Day School, and having received your notice, that, my services will not be needed after the 30th inst; and, as it is necessary for me to obtain another position, I would be pleased if you will furnish me with a recommendation. I have never taught at any other school.

I am 37 years of age, physically fit, and would be willing to do at any National Service work of which I may be capable.

Yours Very truly,

Dora Hideon

Cher Monsieur,

J'ai bien reçu votre lettre du trois juin dans laquelle vous m'annoncez que le Département des Affaires Indiennes a décidé d'accepter les services des Soeurs du S. Rosaire pour tenir l'école indienne de Maria, qu'un professeur s'occupera de donner aux garçons de cette école et de celle de Ristigouche un entraînement aux travaux agricoles. Vous demandez aussi que les Soeurs du Saint Rosaire soient capables de donner aux filles l'enseignement ménager.

Je suis heureux de vous déclarer que ces dispositions me sont très agréables, que je les accepte, ainsi que les Soeurs du S. Rosaire qui m'ont donné leur adhésion. Je considère donc l'affaire réglée. Nos religieuses seront rendies à l'école de Maria pour la date de l'ouverture des classes, et j'ai l'assurance qu'elles donneront satisfaction à votre Département.

Veillez agréer mes remerciements et croire à mes sentiments dévoués.

Dear Sir:

As you were informed in official letter of the 28th ultimo, it is the Department's intention to place Sisters in charge of the Maria Indian Day School for the academic year 1941-42.

We have been in correspondence with Rt. Rev. F.X. Ross, Bishop of Gaspé, and he has assured us that qualified Sisters will be appointed to take charge of this school. I enclose the usual forms which each of the two Sisters should complete. Salary will be allowed the Principal at the rate of \$60.00 a teaching month and the Assistant at the rate of \$50.00 a teaching month. The school should re-open on October 1, 1941.

Yours truly,

Kind Sir —

Here enclosed, please find the Blanks of Information concerning the engagement of our Sisters as Teachers of Maria day School on the Indian Reserve, there.

Owing to uncontrollable circumstances of deficiency in the local mail service, &c., these documents have forcibly been delayed. I do trust they shall be on time.

St. Mary's
The Sisters appointed for Maria Indian Day School are the ones whose names are stated on the enclosed documents; Sr. M. of Charity, whose name had been first mentioned and written to His Excellency the Bishop of Gaspé, having been replaced by Sister Mary of St. Cecilia. That is probably of little concern.

At the same time, I would ask you, Sir, to consider Sr. Mary of Mercy Superior of the Convent, Principal of Maria Indian Day School. Although two Sisters only are engaged, she will help in teaching domestic science to the girls of senior Classes. Thus all questions concerning the School, may be dealt with the Superior — as Principal of the School.

I hope these informations will meet with the kind approval of the Honorable Staff of the Department of Indian Affairs.

Yours Respectfully,

Memorandum:

DEPUTY MINISTER.

Re: Miss Dora Gideon, Teacher,
Maria Indian Day School.

I have for acknowledgment your memorandum of August 23, signed by Mr. Bethune, and also copy of a letter received by you from the Private Secretary to the Minister of Justice, attached thereto.

The desirability of employing Sisters to take charge of the two-room Indian day school at Maria has been under consideration by the officials of this Branch for a period of about 3 years. Bishop Boss and the Federal Member for the district, Mr. Poirier, have both taken an active interest in this school, and both have persistently advocated the employment of Sisters. In this connection may I refer to your memorandum dated May 7, 1941, and signed by Mr. Jackson. The decision to employ Sisters at this school was reached at a conference called by Mr. Jackson, at which Mr. Poirier was present, a few days following the receipt by this Branch of his memorandum of May 7.

In view of the fact that there is an acute shortage of teachers throughout the Dominion, Miss Gideon should experience little difficulty in securing a position at this time. Should a vacancy occur in one of our Indian day schools at any time in the immediate future, her claims for re-employment will, of course, be sympathetically considered.

Friday was a bright and happy day for your little Indian girls. --

In our sewing room 24 chairs and a sewing machine welcomed us when we went in -- For our first sewing lesson, we had been sitting on two pieces of lumber. --

So it is quite an improvement and our Mother Principal says we should be grateful to you - and we surely are - Each and everyone thank you a thousand times and promise you to make good use of our machine.

Reverend Sister:

I am today in receipt of a letter dated October 26th and signed by a number of the pupils in attendance at the Maria School.

These Indian pupils express their appreciation for the sewing machine and chairs recently supplied to the school by the Department.

I am anxious that you should inform these pupils that this letter has been received by the Department and that their action in writing to express their thanks is very much appreciated. It is somewhat difficult in these serious times to secure the supplies actually necessary for the operation of our schools. In view of this fact it is our earnest hope that the pupils who have written to the Department will show their appreciation by making the best possible use of the equipment supplied from time to time.

Dear Sir,

Replying to your letter of Oct. 24, in regard to Peter Jacob's daughter, I must say that the latter refused to dress properly for school, and the Superior asked her to go home and put on a dress, as pants were not suitable for a young girl in a convent. The girl did not return to school, however. The Sisters have never refused to admit the child; Mr. Jacob is uttering untruths when he claims that they have.

I have your letter of recent date and note that the staff at the Maria Indian Day School for the academic year 1942-43 will be as follows:

Sr. M. of St. Brigitte replacing Sr. M. of St. Cecilia
Sr. M. of St. Burnadette of Lourdes replacing Sr. M. of
St. Daniel

Sister M. of St. Brigitte will be allowed salary at the rate of \$65.00 a teaching month, plus bonus, and Sister M. of St. Burnadette of Lourdes at the rate of \$60.00 a teaching month, plus bonus. I enclose the necessary forms which they should complete and return to the Department as soon as possible.

I regret that consideration cannot be given to your request that this school be allowed to open for the month of September. It will be in operation from October 1, 1942, to June 30, 1943.

Yours truly,

DECLARATION OF HEAD OF HOUSEHOLD FOR PURPOSE OF COST OF LIVING BONUS, (AUGUST) 1941

This declaration must be completed in triplicate by full time employees claiming "Head of Household" status if compensation is less than \$108.00 per month, and all married women in the Service in receipt of a salary of less than \$2,100.00, and filed with the Department. One copy to be retained by the Department and two copies forwarded to the Chief Treasury Officer serving the Department.

"Head of Household" means a married man or woman, a single or divorced person, widow or widower, who maintains a self-contained domestic establishment and who actually supports therein a person wholly dependent upon him and connected with him by marriage, blood relationship or adoption.

- (i) "Self-contained domestic establishment" means a dwelling house, apartment or other similar place of residence containing at least one bedroom, in which residence the employee as a general rule sleeps and has his meals prepared and served.
- (ii) A person connected with the employee by marriage means the wife or husband, parents, uncle, aunt, nephew, niece, grandparents and great-grandparents of employee's wife or husband, step-children, brothers-in-law and sisters-in-law.
- (iii) A person connected with the employee by blood relationship means parents, foster parents, grandparents, great-grandparents, children, grandchildren, great-grandchildren, brother or sister, uncle or aunt, nephew or niece.
- (iv) Connection with the employee by adoption shall include adoption in fact as well as legal adoption.

INDEMNITÉ DE VIE CHÈRE (AOÛT) 1941
DÉCLARATION À REMPLIR PAR LES CHEFS DE FAMILLE

Cette déclaration doit être remplie, en trois exemplaires, par les titulaires d'un emploi continu, susceptibles d'être considérés comme chefs de famille, et dont la rétribution est inférieure à \$108 par mois, et par toutes les femmes mariées au service de l'Administration et recevant un salaire annuel inférieur à \$2,100. Elle doit être remise au ministère, qui en garde un exemplaire et envoie les deux autres au délégué en chef du Trésor.

"Chef de famille" signifie une personne mariée, homme ou femme, une personne (homme ou femme) célibataire ou divorcée, ou veuve, qui entretient un établissement domestique d'un seul tenant, et qui y fait vivre réellement une personne entièrement à sa charge, lui étant unie par les liens du sang, du mariage ou de l'adoption.

- (i) "Etablissement domestique d'un seul tenant" signifie un logis, un appartement ou autre semblable lieu de résidence contenant au moins une chambre à coucher, et dans lequel, en règle générale, l'employé couche et où ses repas sont préparés et servis.
- (ii) Une personne unie à l'employé par les liens du mariage signifie son époux ou épouse, les père, mère, oncles, tantes, neveux, nièces, grands-parents et arrière-grands-parents du conjoint de l'employé, les beaux-fils, belles-filles, beaux-frères et belles-sœurs de l'employé.
- (iii) Une personne unie à l'employé par les liens du sang signifie ses parents, parents nourriciers, grands-parents, arrière-grands-parents, enfants, petits-enfants, arrière-petits-enfants, frères ou sœurs, oncles ou tantes, neveux ou nièces.
- (iv) L'expression "unie à l'employé par les liens de l'adoption" comprend l'adoption de fait aussi bien que l'adoption légale.

I take leave to draw your attention on the fact that the salary of S. Mary of the Sacred Heart has been lowered down from \$41.20 to \$40.00 a month:

She is replacing S. M. of S. Bernadette, having the same class, teaching the same pupils the same number of hours, with the same devotedness. I cannot understand why she has not the same salary.

Everything is paid very dear around here and we have to go as far for shopping that a lot is paid for taxes and messengers -

Ottawa, February 3, 1945.

Rev. Sister Mary of Mercy, Principal, Maria Day School,
Dimock Creek, Que.

I have your letter of the 21st instant,
with reference to the salary of Sister Mary of the
Sacred Heart.

Several months ago a ruling was made
to the effect that a member of a religious Order, whose
salary is usually turned over in total to the Order
to which she belongs is not subject to income tax.
A further ruling was made to the effect that when
income tax is not being paid the bonus cannot be allowed.

In the case of Sister Mary of the Sacred
Heart, her basic salary was \$60.00 and through over-
sight she was allowed bonus at the rate of \$10.20 for
the month of September, making her total salary \$70.20.
From this amount \$4.50 was deducted for income tax and
\$3.00 for the Retirement Fund, leaving a net amount
payable to her of \$62.70. This payment was adjusted
in October and November, and, as a result, Sister Mary
of the Sacred Heart received a basic salary of \$60.00
without bonus and without deduction for income tax
or payment to the retirement fund. This meant that
she was simply paid her basic salary and consequently
she received \$60.00 for October and November. The \$3.00
deducted for the month of September for the Retirement
Fund was refunded to her on November 8, 1944. I realize
this is a rather involved explanation. There is no
desire on our part to bring her salary lower than she
originally thought it would be, but, at the same time,
in view of the regulations regarding members of a

religious Order, no other action could be taken.

Cher Monsieur:-

Vous etes au courant sans doute que huit eleves de la municipalite de Maria frequentent l'ecole indienne de la reserve. Vous vous rappelez sans doute que cette question a deja ete discutee au cours de l'ete dernier avec le President, Rev. J.E. Plourde et vous meme lors de la visite de Monsieur Doucette Inspecteur des Ecoles Indiennes pour le Canada.

Nous avons demande alors qu'une certaine remuneration soit payee au Departement des Affaires Indiennes afin de defrayer une partie des depenses pour l'instruction de ces enfants.

A date, je crois qu'aucune decision n'a ete faite a ce sujet. Pour ma part, je n'ai reçu aucun ordre écrit du Departement a ce sujet, mais je sais par ailleurs que c'est contre les reglements du Departement d'accepter des eleves blancs aux ecoles indiennes sans arrangements prealables.

Le chef de la reserve, John B. Jerome, a donne ordre a la Superieure de renvoyer tous les eleves blancs (ce qui fut fait), malgre que le chef ne m'a fait aucune plainte a ce sujet depuis le debut de septembre. Vu que cet ordre ne venait pas du Departement j'ai fait demander aux familles de renvoyer leurs enfants a l'ecole jusqu'a nouvelle decision.

Vous voudrez bien presenter cette lettre aux commissaires d'ecoles lors de votre premiere assemblee de ce mois et prendre une decision au sujet de ces eleves. Pour ma part, je crois qu'il est inutile de soumettre un montant moindre que \$50.00 par annee par famille.

Restigouche, February 3rd, 1947.

Mr. Edgar R. Cyr,
Secretary,
School Municipality,
MARIA,
County of Bonaventure, P.Q.

Dear Sir :

You are undoubtedly aware that eight pupils of the municipality of Maria attend the Indian school of the Reserve. You will remember, no doubt, that this question was discussed last summer with the Chairman, Rev. J.E. Plourde and yourself during the visit of Mr. Doucette, Inspector of the Indian Schools of Canada.

We had then asked that a certain remuneration be paid to the Department of Indian Affairs so that part of the expenses may be paid for the education of these children.

To date, I believe no decision has been taken in this regard. As far as I am concerned, I have received no written order from the Department in the matter, but I know on the other hand that it is against the Department's regulations to accept white pupils in the Indian schools without preliminary arrangements.

The Chief of the Reserve, John B. Jérôme, has ordered the Superior to expel all the white pupils (and this was done) although the chief has not made any complaint to me in this regard since the beginning of September. Since this order was not issued by the Department, I had the families asked to send back their children to the school until further notice.

Will you kindly submit this letter to the school trustees at your first meeting of this month and take a decision with regard to these pupils. As far as I am concerned, I believe it is useless to submit an amount of less than \$50.00 per year per family.

This amount could be paid out in whatever manner you may deem adequate, either fully by the School Commission or in part by the families concerned.

Will you kindly let me have an immediate report on your decision so that I may forward it to the Department for approval.

May 26, 1947.

Dear Sir:

The principal of the Restigouche Indian Day School has recently studied the April Indian Affairs bulletin and has noticed that with the increase of the Indian Day School teachers' salaries, better qualifications and many modifications are being made to the actual provincial programme. To be in the position of filling these requirements, would the Honourable Department of Indian Affairs grant to the teaching staffs of Indian Day Schools of Maria and Restigouche the privilege of having Mr. A. J. Doucet, Supervisor of Training Division, give a three or four days' convention concerning the extra-curricular activities requested?

Other eastern Indian Day School teachers could join themselves to us at Rimouski for the said Convention if such was their desire. This assembly could take place around the 28th of July if that period was possible for kind Mr. Doucet.

Most gratefully yours,

VI. REFERENCES and INSPECTOR'S REPORTS

Please attach copies of references and your latest Inspector's Report (if any).

VII. I therefore request, in view of my qualifications and experience as detailed above, that I be classified as a Grade *4* teacher and that my salary as a teacher in the *Maria* Indian Day School for the 1947-48 academic year be set at \$*1,184* according to the salary schedule.

I understand (i) that all salary increases are clearly described in the schedule regulations as for "satisfactory service", (ii) that therefore it will be necessary for the Indian Affairs Branch to carefully consider School Inspectors' and other reports submitted upon my teaching service.

(Note: Details of our salary schedule are available in all Indian Agency offices. If the application is sent in with part of Section VII left blank, we will inform you of the salary you would receive in our service).

Memorandum:

CHIEF TREASURY OFFICER

Re: Maria Indian Day School, No. 318.

Please note that Sister Mary of St. Eustelle gave up duties at the above school, effective July 1, 1947, and no further payment of salary should be made to her.

For the academic year 1947-48 the staff at this school will be as follows:-

1. Sister M. of St. Bernardine, Principal, Grade I - salary \$1,800.00
2. Sister Mary of the Divine Heart, Teacher, Grade II - " 1,560.00
- ✓ 3. Sister M. of St. Angele de Merici, Teacher, Grade III
- salary 1,380.00

All the above salaries are effective from September 1, 1947 and are payable in 10 monthly payments.

All the above are members of a religious Order and are, therefore, not liable for income tax.

Staff questionnaires are attached.

Reverend Sister:

I have for answer your letter of February 18.
Would you please confirm the following facts:

- (a) That at the Restigouche School, Sister Mary of St. Cecilia has been transferred to the Maria Indian Day School;
- (b) That her replacement is Sister Mary of St. Margaret;
- (c) That Sister Mary of St. Angele de Merici has resigned at the Maria Indian Day School
- (d) That her replacement is Sister Mary of St. Cecilia, as stated in (a) above.

Unfortunately, you did not advise us in sufficient time for the February cheques and they have already been issued. It will therefore be necessary to return here the cheque issued for Sister Mary of St. Angele de Merici before we can issue a cheque for Sister Mary of St. Margaret.

Yours sincerely,

Bernard F. Neary,

Restigouche Indian Day School. No. 326.

Further to my memorandum of February 27, please find attached a salary cheque for Sister Mary of St. Angele de Merici for the month of February. We are now advised that she resigned on February 1, 1948.

Sister Mary of St. Cecilia of Jesus was transferred from the Restigouche Indian Day School (#326) to the Maria Indian Day School (#318) to replace Sister Mary of St. Angele de Merici.

Would you please arrange, therefore, to forward her cheques at the same salary rate to the Maria Indian Day School instead of the Restigouche Indian Day School. This transfer took place on February 1, 1948, and her February cheque was forwarded to her at her new position by the Principal of her former school.

Inspection of Maria Indian Day School.

This was the first time that I had an opportunity of visiting the work of these two new teachers. They seem to have their problems well in hand and progress should necessarily follow.

The well was proceeding to a spot where, apparently the diggers as well as the Agent were somewhat discouraged. They even had considered abandoning this well and digging somewhere else. However, the change would have created greater difficulties than the present well did. The problem seemed to be a question of quicksand at the time. However, I am satisfied that this has been overcome and they are now ready to instal the pump. This certainly will be a great improvement to the living conditions of the teachers at this school.

I was pleased to see the electrical services connected. I have asked the Agent to have certain repairs made to the wiring which seem to be imperative.

Respectfully submitted,

INSPECTION REPORT

318 - 1

- 5 (E)

- 6

M A R I A Indian Day School

Date of Inspection - September 6, 1949.

Location of School:

This school is located on the north shore of the Restigouche River opposite the town of Dalhousie, N.B. It is on the south Gaspé coast of the Province of Quebec. There is a good road immediately in front of the school and the nearby village of MARIA has the usual village stores. This school is not isolated in any sense of the term.

Type of School:

This is a standard two-room school with attached teachers' residence. It is furnace-heated with full basement. There are adequate facilities for manual training and domestic science teaching in the basement. It is lighted throughout and the building is in good condition.

Teachers:

Both teachers are qualified and certificated.
The teachers are:

Sister St. Bernadine

Sister Mary of the Divine Heart.

The senior room has Grades 5, 6 and 7. These children tested well and I was able to give the teacher considerable help in the way of vocabulary work and the proper use of workbooks.

RECOMMENDATIONS:

- (1) This school needs painting outside and paint has already been ordered.
- (2) Running toilets could be installed next year.
- (3) Some consideration should be given to the appointment of a truant officer.
- (4) Road signs should be installed.
- (5) A provincial inspection should be arranged.
- (6) A fence can be erected at a later date.
- (7) The sewer should be re-directed to provide a further down slope.
- (8) Both teachers should be reminded concerning the necessity of attending Summer Schools.

Mr. C.R. Nadeau,
Supt. Indian Agency,

Maria Indian Day School

My inspection report on this school indicates that there are only two actual classroom teachers, and that therefore we can not classify either of them as a Principal. I have just reviewed my notes on this school and I feel confident that only two classrooms are in actual operation with, of course, the domestic science and handicrafts in the basement. This latter does not constitute three classrooms as required by our regulations.

I would appreciate your confirmation of the above.

Reverend Sister:

We are reviewing all our schools in which extra teachers are employed. As you are aware, we are now paying three teachers at the Maria school. Are all of these three teachers employed for a full teaching day or is one only employed on a part-time basis as a domestic science teacher? If so, I would appreciate receiving from you a copy of her time-table indicating how either all or part of her teaching day is spent.

Naturally, if this teacher is employed only on a part-time basis, it will be necessary to review her salary rating accordingly.

Madam:-

Replying to your letter of the 13th instant, I beg to say that we have been unable to get any trace of the cheque which was mailed you on the 7th of July, last, for your salary for the June quarter as Teacher of the Maria Indian Day School. The Post Office Department have been unable to trace the letter enclosing this cheque. Our mailing book shows that this cheque was mailed to you, addressed to Maria, Que., on July 7th, last.

Before we can issue a duplicate cheque, it will be necessary for you to furnish a bond of indemnity for double the amount of the cheque, and this bond should be signed by two responsible persons, as sureties. You will, no doubt, be able to secure two of your friends who will go on this bond.

We are enclosing forms of bond of indemnity, which we have filled in as far as our information goes. It will be necessary for you and the persons who go on the bond as your sureties to appear before a justice of the peace, or a notary public, who should fill in the remaining blanks, where required. This bond should be signed by yourself and the two sureties, in the presence of a subscribing witness. The sureties and the witness to the signature should make the declarations required before a justice of the peace.

When these documents have been properly executed, they should be returned to the Department, and a duplicate cheque will be sent you. The Auditor General requires that before duplicate cheques are issued, a proper bond of indemnity be obtained from the party to whom the cheque was made payable, in order to prevent loss to the Government, should the original cheque turn up at any time and be cashed.

We regret the inconvenience you are put to, but would advise that you have this bond of indemnity completed as soon as possible and returned to the Department, when a duplicate of the lost cheque will be sent you.

Your obedient servant,

J. D. McLean

Dear Sir, -

On September 30th last, I forwarded the quarterly report of the Maria Indian Day School.

In payment, I received only the sum of forty-five dollars, \$45.00. I expected the sum of \$125.00, salary, as was received last year for September quarter, 1922. I don't understand, why, should I not receive the same sum this year, for 1923 September quarter, as report was made for the three months, July, August and September. I desire an explanation about the above matter.

An early reply will oblige.

In reply to your letter of the 15th instant, I beg to say that the Department has decided to pay salaries of day school teachers on a basis of ten teaching months in the school year.

In this connection, I enclose copy of circular letter of the 17th ultimo, which was forwarded to all Indian agents.

As your salary is \$450.00 per annum, you were paid one-tenth of this amount, or, \$45.00 for the month of September. At the end of each of the other three quarters in the school year, provided the school is open, you will receive \$135.00.

Dear Sir:

I beg to say that I have not yet received bonus for June quarter. I have received a cheque of one hundred and eighty dollars (\$180.00) mentioning salary only; therefore it is sufficient to let you know that I have not yet received bonus for June quarter. Kindly let me know the cause of delay in forwarding the said bonus, as I always did receive ^{bonus} for every quarter including salary.

Hoping this will not be too much of a disappointment; probably matters having changed concerning this affair; if so kindly give an explanation.

Madam:

In reply to your letter of the 5th instant, I have to say that payment of bonus to teachers of Indian day schools was discontinued on March 31st, last. Previous to that time, you received salary for the academic year at the rate of \$450 plus bonus of \$150, or a total of \$600. Owing to the bonus being discontinued, your salary was increased from April first, last, from \$450 to \$600 for the ten teaching months. You were paid at the latter rate for the three months of the June quarter. You will note that there is no balance due you and that you are receiving payment at the same rate as when you were being allowed bonus.

Re: Maria Indian Day School. No. 318.

With reference to my memorandum of August 7, I am now advised that the list I sent you was not exactly correct.

The following is the correct adjustment of the staff:-

Sister Mary of St. Adeline replaces Sister Mary of the Sacred Heart, as Principal.

Sister Mary of the Divine Heart replaces Sister Mary of Mercy.

The salaries are as follows:-

Sr. Mary of St. Adeline - \$65.00 per teaching month.

Sr. Mary of the Divine Heart - 50.00 " " "

As the above teachers are members of a religious Order, no Income Tax is deducted and no bonus is allowed.

Effective Sept. 1, 1946, this school is in charge of the following staff:-

Sister M. of St. Bernardine - \$100. a teaching month
Sister Mary of the Divine Heart - \$90. a teaching month
Sister Mary of St. Eustelle - \$90. a teaching month

Sister Adeline is no longer employed at this school effective July 1, 1946. I understand that you have forwarded salary cheque for the month of September for the three teachers in charge last year. We are arranging to have the cheque for Sister Adeline returned and you should issue a new cheque for the new Principal, Sister Mary of St. Bernardine.

Cheques should also be issued for the increased amount due to Sister Mary of the Divine Heart and Sister Mary of St. Eustelle.

All of the above are members of a religious order and are not liable for income tax.

Sir:

The enclosed account has been received from Narcisse Jerome, janitor of the Maria Indian Day School, which covers the salary due him for the December quarter, last, and work done in putting on double windows and cleaning closets. The Department is unable to consider payment of the account received. You should have forwarded a pay list for the amount due him as janitor for the December quarter, last, and a proper voucher, in duplicate, certified by you, should be forwarded in payment for the work done by him in putting on the double windows and cleaning the closets, if you consider that he should be paid for these services. I may say that the Department considers that the putting on of the double windows and cleaning the closets should be part of the janitor's regular duties. You should inform Narcisse Jerome that, in future, he should forward all requests for payment of his salary and for any other services rendered through your office, as the Department cannot consider payment until such accounts are certified by yourself. Please give this matter your prompt attention.

TO DATE OF THIS LETTER

Sir,— The dimensions of the Maria Indian day school inside are Length 21' width 19'3" Height 14'. This makes approximately 400 sq. ft of floor space.

The inspector tells me they require 15 square feet of floor space to each pupil.

According to his estimate there is space for about 27 children, and sometimes there are as many as 34.

There are 12 desks only. 6 for the smaller pupils & 6 for the larger. Most of the pupils are 3 to one seat which is not comfortable.

The teacher tells me, and I consider she is right, that the room is large enough, if we could get the seats rearranged, and add about four.

I would suggest that during next summer vacation we would have this done.

Your advice is requested

Edmund Nadeau
agent.

Ottawa, March 10, 1932.

Sir:

I have your letter of the 4th instant, regarding the seating accommodation at the Maria Indian Day School. In this connection it is noted that, at times, there is an attendance of 34 children, while there are desks provided for only about 24.

Your recommendation, that a further supply of desks be furnished during the next summer vacation, has been noted. You might draw this matter to the attention of the Department early in July, next, at which time you should give full particulars as to the type of desk required, the size and number of each size. It is presumed that the desks at present in the school are the double type, and, in order to have uniformity, any new ones should be of the same type. No doubt, the name of the manufacturer of the desk at present in use will be stamped on the metal part. You should give this information. Our funds are extremely limited, and, in view of the recent orders for strict economy, it may not be possible to supply any new desks, but, when the information asked for is received, consideration will be given as to whether funds for the purpose can be provided or not.

I beg to submit the following report on conditions in the Maria Indian Agency.

x

x

x

The floor in the school house is in very bad condition and should be renewed this summer. The whole centre of the floor has sunk to such an extent that it is dangerous. As the school building is on a concrete foundation about the only way to remedy matters is to remove the present floor from the inside and insert new sleepers. This would require about twenty sleepers and some blocking. Material for a double floor would also have to be provided, one rough floor underneath and a birch floor on the top with paper between. The condition of this floor was brought to my attention last summer but I did not mention it partly on account of my knowledge of shortage of funds and partly because I thought that it might be let go for a time without becoming worse than it then was. Since then it has fallen more and will render the school unfit for occupation next winter.

C. C. Parker.

Ottawa, July 14, 1932.

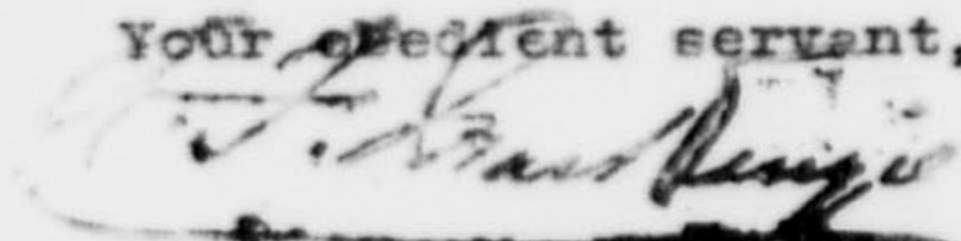

Rev. Sir:

Mr. Inspector Parker of this Department, who recently visited the Maria Indian Day School, states that the floor is in very bad condition and that the only way to remedy matters is to remove the present floor from the inside and insert new floor beams, which would require about 20 beams and some blocking. He also states that material for a double floor would be necessary - one rough floor underneath and a birch floor on the top with paper between. He reports that if this floor is not repaired the school will be unfit for occupation during next winter.

I have to request that you will forward a report as soon as possible, stating, in detail, the number of floor beams, rough flooring and birch flooring required, and the cost of the labour in having the work carried out. You should also state how you would recommend that the work be carried out. Could you arrange for the purchase of the materials and for the labour, or would you advise that it be placed in the hands of a contractor who would supply all material and labour? I may add that our funds this year for repairs are extremely limited and until we receive your estimate of the cost of installing the new floor, we would not be in a position to decide whether funds for the purpose could be provided or not.

Sir,
In reply to your letter of July 14th 1932, I
may say that the school house to be repaired and
the only way to remedy matters, is to do, according to
the report of Mr. Inspector Parker.

It would take:

1 st	12 beams of Cedar 6x6, 30 long, that is 720 ft	\$18.00
2 nd	1 beam " " 8x8, 22 long, 176 ft	2.92

Memorandum:

MR. BUSKARD.

Repairs are urgently required to the foundation and floor of the Maria Indian Day School. The local Indian Agent has obtained a quotation of \$80 for the supplying of the lumber and materials required from Mr. J. N. Cyr, of New Richmond, Que. He recommends that the labour be performed by the Indians, under the direction of a competent foreman carpenter. The cost of the labour would be approximately \$60. I shall be pleased to be advised the name of the person or firm from whom the materials may be procured and also the name of a competent foreman.

The Maria Indian Day School is in the federal district of Bonaventure.

With reference to your memorandum of the 8th instant (copy herewith) in regard to repairs required at the Maria Indian Day School,-

It will be in order to accept the quotation of Mr. J.N. Cyr, of New Richmond, Que., in amount of \$80.00, for the lumber and materials required in this connection.

Mr. Marcelin Leblanc, of Gagne, Bonaventure Co., has been recommended as a competent carpenter and may be engaged to act as foreman over the Indians who are to perform the labour.

EX'D.

Ottawa, August 27, 1932.

Sir:

I have your letter of the 2nd instant, giving a detailed estimate of the lumber and other materials required, also the cost of the labour in installing a new floor and floor beams, at the Maria Indian Day School.

In reply I have to say that you may arrange for the purchase from Mr. J. N. Cyr, of New Richmond, Que., of the beams, flooring, paint and other materials required, at an estimated cost of \$80. You may also engage the services of Mr. Marcelin Leblanc, of Gagne, Bonaventure Co., to act as foreman carpenter. He should oversee the work and assist the Indians who are to perform the labour. The present floor should be removed and new beams installed, and a double floor laid - one rough floor underneath and a birch floor on top, with paper between the two floors. You should see that a satisfactory job is completed, at the earliest possible date. If the carrying out of this work interferes with the holding of classes, the school will have to remain closed until the work is completed. After you have purchased the materials, you should obtain itemized accounts, in triplicate, covering the cost. These you should attach to proper voucher forms, certify in the usual manner and send to the Department for payment.

Proper time sheets, in triplicate, should be kept for the labour employed. The names of the individual labourers should be filled in, each day employed should be shown, as well as the wages paid per day, and the time sheets should be signed by the individual labourers. You should certify these returns and forward them to the Department for payment. A supply of forms for the purpose is enclosed herewith.

Please arrange for the purchase and delivery of the materials and to have the work commence at an early date. I may say that the total cost, including material and labour, should not exceed the estimate mentioned in your letter of the above date - approximately \$140.

Your obedient servant,

A. F. Macdonald,
Secretary.

Rev. Sir:

The Department is in receipt of a communication from Lawrence Gideon in which he requests that he be given the old flooring from the Maria Indian Day School. In this connection I have to say that if you consider there would be no objection from any of the other members of the Band, you may hand the old material from the floors to Lawrence Gideon, or you may dispose of same in any manner you consider satisfactory. We are informing Lawrence Gideon that his request for the old flooring has been referred to you.

Mr Secretary,

Please give authorisation to the effect of repairing fence, gate, porch at the School house of Indian Reserve. Also buying of 8 cords of hard wood, and 4 cords soft wood for next winter, to be stocked in school shed before school term.
As Mr Superintendent noted there should be 4 benches more in school room.
10 gallons of paint for outside and floor are needed as asked by Janitor. These repairs, less the benches would require about \$50.00 in material & work.

Sir:

I have your letter of the 28th ultimo, regarding the repairs required to the fence, gates, and porch, at the Maria Indian Day School. It is noted, further, that you request authority to purchase 8 cords of hardwood and 4 cords of softwood for next winter's use and to supply 10 gallons of paint for outside and floor.

In this connection I have to request that you will furnish an estimate of the cost of the repairs required to the fence, gates, and porch. This should include the cost of all materials and labour. It is necessary, also, that you submit an estimate of the cost of supplying the 8 cords of hardwood and 4 cords of softwood, stating the price per cord, delivered at the school.

With reference to the quantity of paint asked for, I have to say that the Department will have no funds this year to carry out any painting or decorating at Indian schools.

Ottawa, August 21, 1933.

Sir:

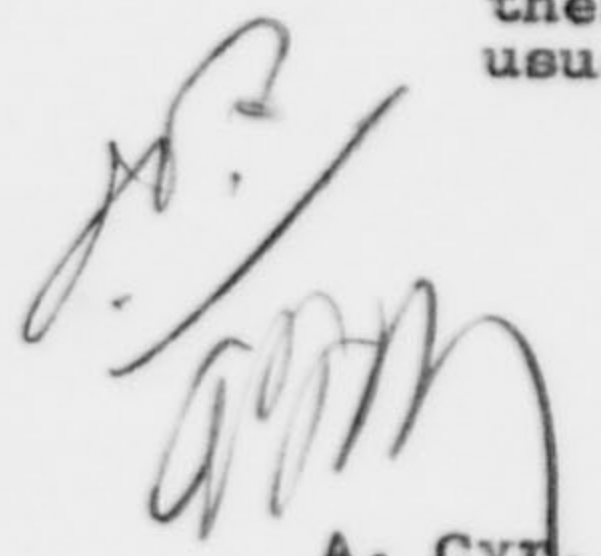

I have your letter of the 14th ultimo, regarding the fuel required for use at the Maria Indian Day School for the coming winter and with reference to repairs required to the school building.

Regarding the fuel, you may arrange for the purchase and delivery of 12 cords of 3 ft. firewood. It is noted the cost will be \$4.00 per cord, delivered. You should see that the full quantity of a good grade is supplied. I enclose an encumbrance certificate authorizing the expenditure required for the supplying of the wood. After same has been delivered to your satisfaction, you should forward an account, in triplicate, properly certified, in favour of the person who supplies the wood, for the amount due. It should be stated on each copy of the voucher that the expenditure was incurred under authority of E. R. No. 864. If possible, the wood should be obtained from the Indians.

With reference to the repairs to the school building and the fence, I have to say the Department will approve of the expenditure required in the purchase of the lumber to rebuild the porch, the posts required to repair the fence, also nails, staples, and a new gate, at a cost not to exceed your estimate for these supplies, viz.: \$10.80. It is noted that it will require approximately 10 days' labour at \$2.00 per day to carry out the repairs and the repainting of the floor and corner boards with paint which is on hand. You should arrange to have the painting carried out, the porch rebuilt and the fence repaired before the school re-opens. After the work has been completed, you should obtain itemized accounts, in triplicate, covering the cost of the materials and accounts in triplicate, for the labour. You should state the number of days employed and the rate paid per day. Please attach these accounts to proper voucher forms, certify in the usual manner and forward for payment.

Mr Secretary

Maria Oct 2-1933

First report of Maria Indian day school being enclosed. The reason of Louis Capelin's children being absent is other Indians are frightened to send their children as Y.B. seems to be in this family.

I consulted Mr Boileau, who declares there is no danger of contamination as long these children are not sick, and so advised the Indians in consequence.

Mr Superintendent advised the teacher on his visit this summer to have 3 more school benches, as those at school are not sufficient for all the pupils.

I recommend 3 benches to be sent by Dept, if possible, for October 15.

Sir:

I have your letter of the 2nd instant, with reference to the necessity for supplying three more desks for the Maria Indian Day School. Please make enquiries and ascertain at what cost these desks can be secured. When you have this information, you should forward it to the Department, and we will then be in a position to decide if funds can be allowed for the purpose.

Sir,—

In answer to your letter, I beg to inform the Dept the authorization to buy necessary articles for repairs at Indian School having not been granted for lack of funds, I regret to say the 4 desks asked for are needed since 2 years as the school mistress is obliged to crowd 8 pupils on a common bench during class hours. This has been noted by Mr Superintendent Mc Gill on his visit last summer.

6 gallons of outside paint & one gall. turpentine would be sufficient to paint outside of school, that looks not too well for a Government building. Outside was not painted for 3 or 4 years.

The iron Gate is broken, and old fence posts are rotten, as gate fence needs repairs, also outside platform at door entry. If there is any possibility at least for this year to have 4 desks, please give authority to buy them, and postpone the other repairs till better times if no funds are available at present.

Sir:

Replying to your letter of the 27th instant, regarding the front and rear seats required for the Maria Indian Day School, I regret that it will be necessary to obtain further information before the order can be placed. On the pages from the catalogue of the E. N. Moyer Company, Limited, you state that two front and two rear seats are required, for pupils ages from 7 to 9 years. You will note these are single fronts and rears and are for desks at which one pupil only is seated. It is also requested that two front and two rear seats for pupils 15 to 18 years be supplied, and the pages of the catalogue call for front and rear seats for double desks, at which two pupils are seated.

Are there two sizes of desks in the school? If not, please state if all the desks are double or if there are some single ones. If we place the order for supplying the equipment as mentioned in your letter, 2 front and rear seats would be sent for single desks and 2 front and rear seats for double desks. Please state if the front and rear seats required are for "Single" or "Double" desks.

Ottawa, October 2, 1934.

Sir:

I enclose herewith the account of E. N. Moyer Company, Limited, Toronto, covering the cost of supplying new desks for use at the Maria Indian Day School. If these desks have been received and are satisfactory, I would request that you attach the account to proper voucher forms, certify in the usual manner and return to the Department in order that payment can be made.

With reference to the account which you forwarded, in favour of Lawrence Gedeon, the janitor, for one day's work, preparing for the opening of the classroom, I have to say it is considered that this work is part of his regular janitor's duties. Therefore, the Department is not prepared to pay the account.

Dept Sup Gen of Ind Affs.

Sir,—

I received your kind greetings for Christmas and New Year, for which I sincerely thank you, and ask the Providence to grant you a good health and long years as Dept Sup General of Indian Affairs, this with the success you honor this position.

Though I had not much time to make your acquaintance on your short visit in the summer of 1933, be assured I appreciated highly your courtesy and encouragement for the Indian agents in these hard times.

Permit me to inform you the situation is not improving much hereon ~~due~~ lack of employment or sales of industry works for the poor Indians, and I had to persuade them of the necessity of farming and gardening more than they used to do in good times. With the last spring's help from the Dept in furnishing seed & fertilizers, they made a little better than before, so they have potatoes & vegetables which is good to help them for winter but there is no fishing now. Though I am blamed for the great expenses for relief and clothing furnished in my agency, in fact, I have this pointed out in almost every letter answering my requests, be assured if I could curtail expenses without privations for the Indians I would have done it long ago, but we are in special circumstances. The population is increasing, and the Indian day school is too small, there being 48 pupils in a class room for 26 pupils. I hope an appropriation would be voted at the next fiscal year to the effect of building an addition to this school in order to have two school rooms. This for the benefit of school children on Indian Reserves.

Dear Mr. Cyr,

Please accept my many thanks for your letter of December 19th. and your good wishes for Christmas and the New Year, which wishes I reciprocate most heartily.

I observe that as in the case of other agents you are finding it difficult these hard times to find employment for the Indians and to satisfy their interminable demands for relief. Please be assured that the Department appreciates the difficulties confronting you and will be prepared to support you in every way consistent with the necessity for conserving our finances.

I note what you say in respect to the necessity for building an addition to the school, and will bring this matter to the attention of the Schools Branch.

Yours faithfully,

Sir,— I beg to inform the Dept the Indian day school at Resene is too small for the number of pupils attending at present. On the 31st January, I was present on the Inspector's visit, we measured the school room, which is 20' x 18. Such a room is only sufficient for 26 pupils, and there are 44 entering with a good assistance. I am advised there will be more next summer, so the Dept would be well advised to have another school room with another teacher for a successful teaching 26 pupils are enough for one teacher.

The teacher Miss Dora Sidim, though she exerts herself, and the children are generally intelligent and able, cannot have so much success as if she had 20 to 25 pupils instead of 44.

I hope the Department will consider this matter, so necessary arrangements could be taken for next term in September 1935; for the benefit of Indian pupils, and to the honour of the Dept.

You will find enclosed letter received from Inspector J. Albert Leblanc concerning this Indian day school at Maia Indian Reserve.

Inadequate school accomodation at Maria Reserve, Que.

During my recent visit to the Maria Reserve the Agent drew my attention to the lack of school accomodation as the present day school has only accomodation for 25 pupils, whereas there are 42 children of school age on the reserve. The school is also badly in need of a coat of paint and I would therefore recommend that the agent be authorised to purchase sufficient paint for one coat, costing approx. \$10.00 and have one of the Indians do the painting.

I would also suggest that next year's estimates provide for the addition of another classroom, so as to provide proper accomodation on this reserve for the children of school age.

I beg to advise the Department
again, if there is any possibility the Indian

Sir,

You will find enclosed return of attendance and tuition at the Maria Reserve Day school, for the quarter ending March 31st 1936.

The non attendance of many pupils during this quarter is mostly due to an epidemic of whooping cough which was general on the Indian Reserve during the winter months.

Parents have been advised that their children of school age should frequent school regularly when in good health, and properly clothed, and the Chief and Constable are advised to see to this matter and send immediately the roaming pupils to school during class hours. No refusal to attend was reported to Office. I beg to advise the Department the school room is too small to be adequate for the number of pupils at present attending school, as it was supposed to be for 25 pupils, instead of 40 who are at present on the school list.

If there is any possibility to have another school room erected for next term in September 1936, the Department will be well advised to do it, for the benefit of the Indian children, and such a favour will be to the honour of the Department

Mr. Sutherland,

During my recent visit to the Maria Reserve I visited the Indian School. I found that there is a great deal of overcrowding, as many as three and four children sitting in one seat. The teacher, Miss Gedeon, informed me that there were many children absent partly due to there having been a dental clinic the day before. A great many teeth were extracted and some of the children must have felt far from well. The remainder of the absentees should have been looked after by the Truant Officer, Milton Gedeon.

On investigation I find that there appears to be a lack of co-operation between the Truant Officer and the teacher. The Truant Officer stated that he had not received a statement as to absentees for a long time while the teacher stated that she had furnished such a statement to the Indian Agent recently. When I interviewed the Agent he denied having received such a list from the teacher. To me it appears that the Truant Officer is not doing his duty partly due to lack of co-operation from the teacher and indifference on the part of the Agent.

A large supply of codliver oil has been furnished this school. The teacher informed me that only a few children were taking it. She stated that the other children's parents would not furnish them with a spoon to take to school to use for this purpose. I spoke to the Chief about the lack of co-operation between the Indians and the teacher and suggested that he use his influence to see that the children had the codliver oil which they appeared to need. Many of these children were suffering from head colds which would have benefited by the use of the oil supplied.

Miss Gedeon appears to have the children well under control. School equipment appears to be very old and dilapidated. The children did not appear to have any school work to do but were well behaved. I understand that Miss Gedeon is labouring under great difficulties; 53 children are too much for any one teacher to teach properly. When you add to this the overcrowding that we have at this place, you will see that she faces a very hopeless situation.

I would respectfully suggest that the Department consider the advisability of constructing a new school on this Reserve. Possibly a two roomed school is required to accommodate the 53 children now on the roll in addition to many young Indians between the ages of 13 and 15 who are not at present attending.

Messieurs:-

M. Adhémar Cyr, l'agent des Indiens à Maria, Bonaventure, Qué., est venu à mon bureau. Il me représente qu'il a déjà fait des instances auprès du Gouvernement pour la construction d'une école dans la Mission.

Actuellement, l'école construite il y a 40 ans et réparée il y a dix années, est susceptible d'accueillir 25 élèves. Il y a 42 enfants d'inscrits et huit autres en état de suivre les classes. C'est dire que l'école doit recevoir le double de sa capacité. Il faudra reconstruire et faire deux classes, pour que deux institutrices enseignent.

Sous les circonstances je crois que le département ne peut pas refuser de faire la dépense, la chose étant urgente.

Je vous prierais de considérer la proposition immédiatement, et dans l'affirmative de bien vouloir correspondre avec moi sans délai.

Je pourrais, au besoin, vous procurer les plans du département de l'Instruction Publique de Québec pour le genre d'école dont vous aurez besoin, suivant le nombre des élèves qui suivront les classes.

Votre tout dévoué,

HOUSE OF COMMONS
CANADA

New-Carlisle, May 17, 1937.

Department of Indian Affairs,
Parliament,
Ottawa.

Sirs,

Mr. Adhémar Cyr, Indian Agent at Maria, Bonaventure, Que., came to my office, and stated that he had already applied to the Government for the building of a school in the mission.

At the present time, the school built forty years ago and repaired ten years ago is suitable for 25 pupils. There are 42 children registered and eight more should attend school. That is to say that the school should be made available for twice its capacity. It will be necessary to rebuild and provide two class-rooms, in order that two schoolmistresses may teach.

Under the circumstances, I believe the Department cannot refuse to spend the money, on account of the urgency.

I wish you would take the proposition into immediate consideration; and, should it be favourably looked upon, I wish you would advise me without delay.

If necessary, I could provide you with the plans draughted by the Quebec Department of Public Instruction for the type of school that will be needed, according to the number of pupils likely to attend.

Yours truly,

(Signed) P. Emile Côté.

Dear Sir,-

The Department is in receipt of your letter of the 17th instant, with reference to the erection of a new school on the Maria Reserve. A similar request has been made on different occasions by the Indian Agent but, up to the present, it has been found impossible to provide the funds that would be necessary to erect a new building.

However, your request will be kept in mind and further consideration will be given when we are preparing our Estimates for the fiscal year 1938-39.

Office of

Maria, Que., November 24, 1937.

Mr. P. E. Cote, M.P.
New-Carlisle.

Dear Mr. Cote:

Will you be kind enough to obtain
the necessary sums of money to erect a new school on
the Indian Reservation of Maria?

The Government Inspector's report
proves that the school they have now is too small for
the 44 pupils who must attend school, because it was
built for 25 only. The Indians cannot send all their
children to school and the teacher cannot hold classes
successfully. There should be a school with two class-
rooms and two teachers ready for September 1938.

School attendance is compulsory for
all Indians who have attained school age, but the
Agent cannot enforce the Act when space is lacking as
is the case here. For the last three years I have
been asking the Department to build and the answer
I receive is: "No funds available". It would cost
from \$2,000 to \$2,300, and I know that if you say
a few words in our favour it will help greatly, because
there is enough money voted for Indian Affairs to
ensure our Quebec Indians as many favours as those in
the other provinces. I would like to meet with you
before the opening of the Session concerning the
Indian Agency at Maria.

Re: Erection of new school
on Maria Indian Reserve.

Dear Mr. Cote:

I am directed to acknowledge receipt of your letter of November 27th and also copy of a communication received by you from Mr. A. Cyr, Indian Agent, Maria, Que., enclosed therewith.

I may state that the claims of the Indians of Maria for the erection of a new school at that point were carefully considered by the departmental officials when the estimates for the fiscal year 1938-39 were being prepared. In view of the urgent demands for school accommodation in other districts, it was not possible, however, to include an item for the erection of a school at Maria this year.

However, if the able-bodied Indians of Maria now in receipt of relief are prepared to secure logs or lumber and proceed with the construction of an additional schoolroom at that point, the Department will be prepared to provide windows, roofing, interior furnishings, etc. You will be interested to learn that a number of Indian bands throughout the Dominion have, in cooperation with the Department, established schools on this cooperative basis. It is our hope that the Indians of Maria will be prepared to undertake this task, in return for the relief allowances they are now receiving. Should they be prepared to do so, the officials will be glad to communicate with the Indian Agent and make arrangements to have this work started toward the beginning of the next fiscal year.

Yours sincerely,

dans la réserve indienne de Maria.

On m'a prié d'accuser réception de votre lettre du 27 écoulé, accompagnée de la copie d'une lettre que vous a adressée M. A. Cyr, agent des Indiens, à Maria (Qué.).

En réponse, je puis vous dire que les réclamations des indiens de Maria concernant la construction d'une nouvelle école à cet endroit furent sérieusement étudiées par les autorités du ministère lors de la préparation du budget des dépenses pour l'année financière 1938-1939. Toutefois, vu l'urgente nécessité d'améliorer dans d'autres districts les conditions de logement dans les écoles, il a paru impossible d'y inclure un article en vue de la construction d'une école à Maria.

Cependant, si tous les indiens bien portants de Maria qui reçoivent actuellement des secours sont prêts à se procurer les billots et le bois nécessaires et à commencer la construction d'une nouvelle salle de classe, le ministère, de son côté, est prêt à fournir les fenêtres, la toiture, l'ameublement, etc. Vous serez sans doute intéressé d'ap-

Re: Erection of new school
on Maria Indian Reserve.

Memorandum:

The DEPUTY MINISTER,-

Reports on file indicate that there is a school on this reserve with accommodation for approximately 25 pupils. The Indian population of the reserve, according to the last census, is 209, and, of these, approximately 45 are of school age. It would appear, therefore, that additional school accommodation is required at this reserve and should be provided in the immediate future. No item, however, for the construction of a school at this point was included in the 1938-39 estimates. There are still a number of districts in which no provision whatever has been made for the education of the children, and it was felt by the officials of the Department that these districts should have first consideration.

A large proportion of the Indians of Maria are in receipt of relief allowances from the Department. The latest figures supplied from the Treasury Branch indicate that relief costs at Maria for the period April first to October 31, 1937, amounted to \$3,588.31, and our expectation is that these figures will show a substantial increase during the winter months. I am suggesting, therefore, that the able-bodied Indians of this Band now in receipt of relief be asked to cut the logs necessary, or, if they so desire, secure the lumber and proceed with the construction of an additional room to the Maria school, in return for the relief allowances they are now receiving from the

Mr J.R.L. Mac Jones, Secretary,

Dear Sir:—

With further reference to your letter of December 6, I beg to inform you that the reason I applied to Mr Côté is that it is absolutely necessary for the Branch to have an adequate school at Mana Reserve to accommodate the 44 pupils of school age. The present school room is only large enough for 25. This I informed the Dept several times, and the answer was: no funds to this effect so, I wrote to Mr Côté, stating the facts, in order that he could see before the opening of the session of 1938 that sufficient funds would be voted, so that the Indian Affairs Branch could consider the erection of a new school for September 1938.

I should add that the letter sent to Mr Côté was not intended to be sent to the Branch, but for his own information as Member of Parliament, about the needs required of voted moneys in the County for the next session.

I beg pardon from the Indian Branch if I have made a breach of propriety on this matter, and will not in the future write to Members without the authorization of the Branch, for matters concerning the Indian Agency.

Dear Sir:- I am in receipt of your letter for which I thank you. I beg to inform you that I do not intend to say the cost of erection of a school for 45 pupils would only be \$300.00, but that the work by the Indians would be about to this amount of \$300.00, economies on the total, which as estimated would be about \$1800.00 to \$2000.00, when completed. An addition to the old school building would not give satisfaction in my opinion and will increase the bill for fuel in winter. I would suggest that a new building be erected, with two class rooms for 25 pupils each, and if decided by the Branch, a plan sent to the agent, for the measurements of lumber required. After investigation I found that there is not big timber on the section lot, but the frame, and logs for a part of boards required, could be cut and hauled this winter, the Indians cutting, and Branch paying for the hauling at the mill 3 miles from Reserve to be prepared for next spring's erection.

P.S. I received a letter from Mr. Cote M.P. stating that he will do his best to have funds voted for the Indian Affairs Branch, at the next session, for the erection of an adequate and modern school on Reserve, which is in Bonaventure County, represented by himself as Member.

DEPUTY MINISTER

With reference to Mr. Pratt's telephone message yesterday regarding the Maria Indian Day School I would refer you to the information contained in my memorandum of December 3, 1937.

There was considerable correspondence with the Indian Agent as the officers of this Branch were under the impression that the able-bodied Indians of the Maria Band who are now in receipt of relief would be willing to cut the logs and proceed with the construction of the building if the Department provided doors, windows, roofing material and interior furnishings. However, it was eventually found that these Indians were not willing to contribute their services free. The last letter received from the Indian Agent stated that the cost of labour would be approximately \$2,000.00. He also suggested at that time that a two-roomed school be erected. This would involve the employment of a second teacher.

As no funds were provided for the amount that would apparently be required, nor were any funds provided for the salary of a second teacher at this school, it was decided not to take any further action in the matter at the present time.

The question of providing funds for a school in this Agency will be given further consideration when preparing our estimates for the fiscal year 1939-40.

Dear Sir:

Please sign the enclosed quarterly report and forward to the Dept.

During the past week many parents have complained to me, for clothing for their children; the only answer I could give them, was; to go to you, that you were the boss of such handling. Now, what about the gate which was taken away from the school premises; what shall we do about that? And what about asking the Dept. to have the exterior of the school building painted; it's beginning to look shabby, and a couple coats of painting would make it look bright and tidy, besides preserving the building; would you kindly write the Dept; and if they are willing, it would

Mr. Secretary:

You will find enclosed report of Maria Day School for quarterly term ending 31 March. I beg to report that the gate at school yard was stolen last fall, and though the Janitor and Constable made search to find it, it is not yet found. So, please authorize to buy a new one to close the school yard, so to keep the flowers from depredation. The school building is badly in need of painting outside, for good appearance and to preserve it. Please authorize to buy locally at best advantage for these repairs, or ship from Headquarters necessary materials, in order to have this work done this spring.

Mr Secretary, I beg to inform again the Dept that the Indian Day School at Renne is too small to accommodate the ⁴⁵ children of school age, and this is the reason why the school is not attended regularly.

Mr Thibault, the inspector, noted this himself on his visit, and invited to have all the school children attend, and if there is no room for every one of school age, he would do his best to persuade the Dept to accommodate them all in adding a larger school room, or rebuilding a new school adequate to the situation.

I may add that the present school room is only good for 25 pupils to be hygienic, and the overcrowding with 45 is not very healthy for these children. I enclose the report received from Grant officer Gidion for the agent.

Desr Sir:- RE INDIAN SCHOOL-Maria Reserve

I have been writing your department for two years, upon the request of the interested parties and also of the agent, to have a new school built at Maria.

It would be useless for me to repeat all the arguments which were invoked in favor of this new construction.

Can I depend that this year your department will be in a position to spend a sum of money for the benefit of the Indians.

Thanking you in anticipation for your answer, I am,

Dear Sir:

Provision is being made in the appropriation for the fiscal year 1939-40 for the erection of a new school on the Maria Reserve.

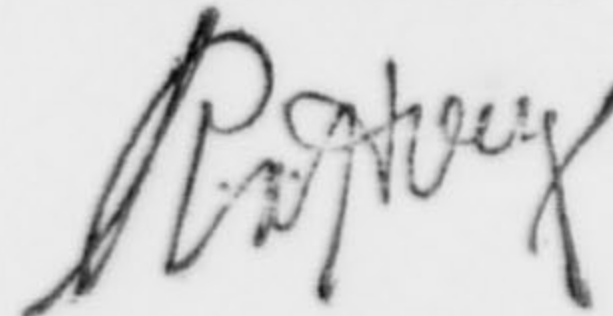

In your letter of September 13 last you stated that you considered a two-roomed school was required in view of the fact that there are 45 children of school age. Do you consider that the number of pupils is likely to increase or decrease within the next few years?

I enclose building data form which you should carefully complete. At the same time you should state if you consider it is necessary to provide living accommodation for the teachers or can good boarding accommodation be obtained by teachers at a reasonable distance from the school?

If you recommend construction by day labour you should state whether or not there are Indians on the Reserve who could be employed and, if so, state their trade or if they could only do ordinary labour.

The completed form giving the information required should be returned as soon as possible.

Yours truly,

The Secretary,

I acknowledge receipt of Mr. Hoey's letter in connection with provision for the erection of a new school building at Maria Indian Reserve.

I enclose questionnaire, which I have filled up to the best of my capacity, but as I am not an expert in building, I cannot give very good details as to dimensions of rooms, cubic air required, etc, so, I suggest to rely on the Branch's architects and experts for these informations.

The Conseil de l'Instruction Publique, Bâtiments du Parlement, Quebec, furnishes plans to the School Boards of the Province, for all sizes of school buildings (I am informed free of charge) and if the Branch instructs me to procure them I will do it, but I think it is not necessary the Branch is in a position to build adequately without these plans.

I may add that a good school building with accommodation for 60 pupils and 2 school teachers is surely required for the benefit of Indian children on this Reserve, as their present school is too small by half.

I am in receipt of your letter enclosing building data form with reference to the proposed erection of a day school on the Maria Reserve.

You state that it will cost \$25.00 to purchase an extra half acre of land for a site for the school. In view of the fact that the Department is supplying, without cost to the Indians, a modern school building for the education of the Indian children would it not be possible for the Indians to give the extra land to the Department free of charge?

It is our intention to wire the school for electric lighting purposes only. We do not intend to provide electricity for pumping water, etc.

Please let me know immediately the approximate cost of digging a well close to the new school. If this can be done at a reasonable cost it will obviate the necessity of carrying water from the place mentioned in your letter.

Mr Secretary, In answer to Mr Supt's letter in regard of acquisition of a piece of land to erect a New school on Reserve, I must inform the Dept that the present school yard (100 X 60 about) though not large, would be OK to build on, if the Indians are not reasonable enough to furnish $\frac{1}{2}$ acre of charge to have a proper school yard. I will advise them as to Mr Hayes views on this matter, and try to convince them to give it free. The decision to wire the school for lighting only, is perfect, as pumping water could easily be done by hand power, a great quantity of water not being required to be sufficient for needs. The approximate costs of digging a well would be about \$30.00, if lined with cedar, and \$50.00 if with a cement pipe 3'. The water level is 20 to 25 feet. The soil is quick sand to about 15 feet, and not rocky. The water is good at neighbour's well, 100 ft on east side of present site of school. I reiterate my suggestion to have living quarters for the school 2 buildings in the new school, as boarding houses are far from Reserve presently.

Memorandum:

Mr. Wardle.Re - Indian Day School, Maria
Reserve, Quebec.Encls.

With reference to your memorandum of the 7th ultimo, I am forwarding herewith, for transmission to the Indian Affairs Branch, two copies of a sketch plan of a two room school with teacher's living quarters, which plan will provide the accommodation required for the above.

With regard to the provision of Septic Water System toilets, I may say that as the cost of installing such a service would be about \$975.00 including the additional building space required and a sewage disposal bed, this service has been so located that it can be installed or omitted without affecting the building proper. I would be pleased to be advised whether the Indian Affairs Branch consider that this service should be installed as indicated on the plans at the above mentioned cost or, as suggested on the building data form, whether outside toilets for the children and an inside chemical toilet for the teacher will be satisfactory.

The cost of the proposed building, exclusive of the above mentioned septic toilets is estimated at about \$9,125.00. I may say that this cost is in excess of the appropriation of \$6,500.00 which apparently was included in the 1939-40 estimates without regard for the size or requirements of this school. Unless a saving can be effected in connection with the appropriations for the other schools proposed to be erected under the same vote, additional funds will have to be provided to cover any over-expenditure incurred on this work.

In connection with the erection of this building, it is noted that although there are no skilled Indian tradesmen available on the Reserve, the Indian Affairs Branch have recommended construction by day labour, utilizing 15 Indians who could be employed under a reliable foreman. As skilled tradesmen would undoubtedly have to be employed on day labour work in addition to the general labour required and as provision is made under the general labour conditions governing contract work for the employment of Indian labour when such is available and competent, it is considered that the 15 Indians available for work on this project would receive equivalent employment insofar as general labour requirements...

requirements are concerned if the work was undertaken by contract.

I would, therefore, be pleased to be advised whether arrangements might be made to have this work undertaken by contract rather than by day labour.

Regarding conditions at the site of the proposed building, the Indian Agent, if possible, should forward, for our information and use in planning this work, a sketch plan showing the relationship of the site to the locality, the general contours and grades, the facilities for drainage and the suitable location for a sewage disposal bed.

If the general layout of the building as shown is satisfactory to the Indian Affairs Branch, one set of the plans should be duly signed as approved and returned to this office for our records.

Respectfully submitted,

Re: Indian Day School,
Maria Reserve, Quebec.

I am forwarding herewith a copy of a memorandum from the Chief Engineer in regard to the above school together with two copies of sketch plan of a two room school with teachers' living quarters which will provide for the accommodation required.

You will note that the cost of the proposed building is estimated at \$9,125, exclusive of septic toilets. It is also noted that it is considered the work might be undertaken by contract, in which case the 15 Indians whom you wish to have employed would be available for work the same as if undertaken by day labour.

Please note also that our engineers would like to have a sketch plan showing the site of the locality, general contours and grades, and suitability for drainage and sewage disposal bed.

Re: Maria Indian Day School,
Maria Reserve.

I desire to acknowledge the receipt of your memorandum of March 10 enclosing sketch plan of a two room school with teachers' living quarters.

I am returning one of the plans signed as requested. I am also writing to our Indian Agent with a view to obtaining the information requested in the last paragraph of your memorandum. On receipt of his reply you will be further advised.

I note that you estimate the cost of this building at \$9125.00 exclusive of septic toilets. This is a much larger sum than that for which we hoped the building could be erected. Under the circumstances the septic toilets should not be included. Instead of these, two outside toilets should be erected.

While we wish to have the accommodation shown on the plan it would be appreciated if you would review the plan with a view to ascertaining if the possible cost could be reduced. If not you may proceed with the building on the understanding that its cost will not exceed your estimate.

165 Sparks, Ottawa.

Dear Sir:-

I am informed that your department will build a new School in Maria, Co. Bonaventure, P.Q. this year, for about 50 children.

As it is impossible to have running water for that new school, the ideal system would be the "Hydro-Septic" Toilets or MODIFIED WATER SYSTEM. This system is approved and highly recommended by the Department of Health in this Province.

We install these toilets ourselves in the school, we guarantee our work and we give a written long term guarantee on the installation. As a rule we sell these to the School commissions. In this case we would sell direct to your Department.

I suppose you will need two bowls, with tanks large enough for the number of children. In this case the price will be \$390.00 installed as specified on the enclosed application. We will make the installation on time specified.

I had the pleasure to meet you at your office last year with Mr. Thibault. I hope we will have the opportunity to install one of your schools to show you how good our system is.

Yours very truly,

October 20, 1939.

Memorandum:

The Director,
Indian Affairs Branch.

Re - Electrical current for Maria
Indian Day School, Quebec.

Attached herewith, for your information, is a copy of a letter received by our Engineer in charge of this project from the Chaleur Bay Power Limited of Trois Rivières. You will note that this Company are ready to furnish electricity for the needs of the School, under the following conditions:-

- (a) The Department to pay cost of materials required for installation to the amount of\$196.86. The Company will assume the cost of labour and all maintenance costs, with the exception of the transformer. Maintenance costs in regard to the latter will remain a responsibility of the Department. (This apparently is to cover any damage to the transformer from windstorms or electrical storms, but such damage is rare and over a period of years would not exceed the original cost of the transformer - \$125.00).
- (b) The Department would pay electric light rates as follows:-
A charge of 15¢ per k.w.h. per month for light, heating and motive power, up to $\frac{1}{2}$ h.p., including domestic appliances, with a minimum monthly payment of \$1.50. Discount of 10% on payment within ten days.

In order that the necessary connection can be made from the Company's line to the School lighting system when the building is completed, it would be necessary for your Branch to write the Company applying for a connection under the above terms and conditions.

If it is your wish that the connection be made this fall, I would suggest that you send over a signed letter to us which we will transmit to our Engineer so that he can present it to the Company and make the necessary arrangements.

As your Branch is in the position of owner of this building, the application should come over your signature.

With reference to your memorandum of October 20, I may say that it is not the practice of the Department to install electricity in Indian day schools. Under these circumstances I would appreciate it if you would notify the Chaleur Bay Power Company Limited that this Branch does not intend to install electricity in the Maria School.

Mr Secretary, I beg to inform you that a well has to be dug to provide water for the new school at cost to about \$40 to \$50.00. The engineer, Mr Sparks, suggests to have it under the stairs leading to basement as soon as possible before the last coat of cement is put on, so not to spoil the foundations. I would suggest to try to have a point drive in the kitchen at the sink which if it succeeds would cost much less - Please authorize to do it as soon as possible.

Also a good fence should be erected to enclose the school yard. It would require 36 rods of wire fencing -
at cost of 75 cts per rod - = \$ 26.00
2 gates at 6.00 = 12.00
68 posts at 20 cts = 12.00
staples & braces = 2.00
plus 3 days work at 2.50 = \$ 52.00
750

Approximate Total \$ 59.50

If Dept decides to have the above mentioned work done this fall please authorize

In answer to Mr Phelan's letter, I beg to inform you that the greatest interference on each one's business comes from the Chief. Since his election he is so proud of the Chieftain that he tries to give instructions to the agent as to regulations, work, and administration on general which the agent is not, for good reasons, always ready to follow. The agent had to send the Constable at the new school at the request of the Contractor, who stated that the Chief was the cause of trouble with the Indian workers, and was interfering in his work, and also that the Indians were not satisfied of the Chief to divide turn of work amongst them, in fine, that he was a nuisance, this is why he was thanked for his services, after he had earned as much as the other Indians (his share of employment). This is the reason of his letter to Hon Prime Minister that the agent is ruined by the Constable and he has not his "justices".

I don't see that there is necessity to have an Inspector from Ottawa to strengthen the matters, the Chief will have his justices from the agent, but he must be orderly and reasonable.

As to his 2nd report, I may inform you that current wages were paid to Indians as laborers, there are none real Carpenters, only Helpers, and they could not prove being Carpenters. The habit of Indians to write to authorities is current amongst them, who like to "show-off" and boast of their high correspondence. This the agent does not encourage but cannot stop. Let the Dept be assured that the Chief has his justices and fair play and will continue to have them when he keeps his place as Chief of the Band.

Re: Electrical current, Maria
Indian Day School

In my memorandum to you dated October 26, 1939, I intimated that it was not the practice of the Department to install electricity in Indian day schools. In the case of the new school at Maria, however, it appears that you were asked in the usual questionnaire to supply electrical energy at this school. It will be satisfactory to this Branch, therefore, to have those in charge of the construction of the school make provision for the installation of electricity.

Dear Sirs,

Re: Indian Day School, Maria Reserve, P. Que.

Having covered this risk during the construction up to \$5000., I would be pleased to be favored with continuance of the insurance on this school, hereafter.

As reference I would refer you to Hon. P. E. Côté, formerly M. P. for this county and now Minister of Lands and Forests and Fisheries at Quebec.

Thanking you in anticipation, I remain,

Yours very truly,

Memorandum:

Dr. McGill

Re: Electrical installation, Indian
Day School, Maria Reserve.

In accordance with your request in regard to the above, all the information was obtained in regard to the costs of installation and rates charged by the Chaleur Bay Power Company and I am forwarding herewith a statement of the costs and several copies of application forms showing the rates charged. I may say that in comparing these rates with those formerly submitted to our Engineer, Mr. Sparks, the new rates are more favourable as the first quotation was a general rate of 15 cents for one year.

It would appear that the application for the power should be signed by your Branch and as we have no Engineer in this neighbourhood at the present time there is no doubt that your Agent can make all necessary arrangements for installation and opening of the service.

Dear Sir:

With reference to the Maria Indian day school the Department understands that this school was wired for electricity and that electric light bulbs were supplied.

In order to make the necessary installations to supply electricity will involve an expenditure of \$196.86 of which amount \$125.00 is the cost of the transformer. At the present period of the fiscal year our funds are extremely limited and consequently it has been decided to defer installation of electricity. The electric light bulbs in the building should be removed and carefully stored in order to avoid breakage.

Yours truly,

Re: Electrical installation,
Indian Day School, Maria Reserve.

I am in receipt of your memorandum of December 6 in which you advise that an expenditure of \$196.86 will be necessary to install electricity in the Maria school.

I understand that the building is wired and that it is a matter for this Branch to decide at what time the installation of electricity should be made. As our funds at the present time are quite limited it has been decided not to take any action in this matter at the present time. Possibly next spring we will arrange for installing electricity in this school.

Dear Secretary, I send herewith a report of
Tuntut office Edin stating the children are attending
school regularly since the opening on the 13th Nov.
of the new large school.

I may add that a few absent scholars informed me that
they were in need of foot wear or clothing, reason of their
absence. I have sent a requisition Nov 25th 39, for necessary
articles for school children 42 boys & 36 girls. Though there
are 60 of school age at Resene, the requisition for 18 more
is for the Resolute Indians, and those at Resene under
school age who frequent school, and others who come
and stay at Resene from outside for some time and are
in immediate need of articles of clothing or foot wear which
the agent has not on hand to furnish.

The Tuntut office suggests the Dept to allow \$15.00
for toys at Christmas, this I recommend, if Dept would
grant it, as Christmas is looked at in advance by the
poor Indian children, who are not given many toys by
their too destitute parents at any time of the year

Dear Sir:

I am returning unpaid the account you submitted for \$15.00 in favour of Laurence Gedeon in connection with work at the Maria Indian Day School.

The Department is surprised that you would submit an account for these services which, in part at least, constitute the duties of a janitor. Besides, Gedeon was allowed the usual amount for janitor services at this school from September 1 to November 15 during which period of time he could not have been doing any work as the old school was demolished and the new one not ready for occupation. On November 15 the allowance for janitor services was increased to \$10.00. He was paid at the latter rate from November 15 to December 31.

MEMORANDUM

Ottawa, January 16, 1940.

[Signature]
The Deputy Minister

The Director of the Surveys and Engineering Branch has forwarded to the Minister the attached three photographs of the new Indian day school and teacher's residence erected last summer at the Maria Indian Reserve, Quebec, at a cost of \$7,389.50. The Minister thought the building was a very substantial one and inquired as to the number of pupils attending it. Will you please furnish this information.

Memorandum:

DEPUTY MINISTER

I have for acknowledgment Mr. Pratt's memorandum of January 19, in which information is sought with respect to the enrolment at the Maria Indian Day School.

A two-room structure was built during the past summer on the Maria reserve, close to the main provincial highway that encircles the Gaspé peninsula. This school, at which provision has been made for the accommodation of two teachers, has also accommodation for the promotion of vocational instruction and for the serving of noonday meals. Inspector J. Albert Leblanc, in his last report on this school dated November 16, 1939, states that the enrolment at that date was 66. The Inspector's reports also indicate that the two teachers in charge have both secured full academic and professional standing.

Dear Sir:

Mr. Philip Phelan - C. T. 10.

Your letter, number 17-15, which was sent to Agent Cyr in answer to an unpaid account in connection with work at the Maria Indian Day School, which is considered by the Dept, duties of the janitor.

In a letter of reply received on December 15, last, from H. A. Hoey, (Supt. of Welfare and Training), I had been asking for a salary of \$1.00 in which I would see to all extra work to be performed. Mr. Hoey's reply was offering \$10.00 per month mentioning the following service to be performed at such salary: the attending of the furnace in the morning and evening again to see that the fire was properly banked for the night. The other services I sent to you were not mentioned by Mr. Hoey, so, I referred my question to Agent Cyr

in which he advised me to charge extra for other work performed. You have also mentioned in your letter the usual amount for janitor services at the school from September 1st to November 15th was paid me, for which I did not have been doing any work. My dear gentleman; I have well earned the above money, for I have performed many services during that time, (a few I will mention), taking all the seats to the new classes and other articles that was to be removed, I have also work a half day with a team of horses my brother let me have to remove the the cement from the old school, and cleaning up of the yard from around the old school yard, where everything lay scattered; now, all this, I did not charge the Dept; and yet I am doing many extras besides tending to the furnace; that is why, I cannot understand why the Dept. has refused to pay the services I had performed which was sent in by Agent Cyp's recommendation; it is easy for the understand that such work mentioned, was not for teachers nor pupils, someone would had have been asked to do it; it was just as well for

me to earn the few dollars; and yet many services are to be performed, such as, the shoveling of the roofs of the buildings after a heavy snow storm, and to clear the snow from the corded wood outside, to be put in the fuel room, which holds only two cords; many services as such, I do not charge the Dept. This extra money I had planned to earn with the extra service, was, to buy a ton of hay for my cow, now. I have been depending on that, for that purpose; now, what will I do? the cow will very soon need the hay, as, I must have milk for my family of ten.

Hoping the Dept will consider this seriously, and forward the amount of \$15.00 - that I have justly earned.

Very Respectfully,
Laurence Lideco,

I have received to day from the School Teacher a letter addressed to "Ecole de la Reserve Indienne, Maria, P.Q., Que." stating that the furnace furnished at the New school Maria's Reserve is not to date paid by the Dept.

This purchase for which I had no authorisation and of which I only know that there is a furnace from L'Islet Co in the school basement, was made, I suppose, by an officer from the Dept who has the necessary authority and should have the account slips for payment by Dept.

I have written to the L'Islet Co asking this account necessary papers, viz: authorisation slips etc etc to be sent here at Indian office, so to be able to have this matter settled before the end of March 31. 40. I am sure the purchase was on cash basis. Please advise.

Dear Sir:

On November 21, 1939, the Department placed an order with the Globe Furniture Company for a teacher's desk and chair for the Maria Indian Day School. These were to be supplied at a total cost of \$31.50 and a copy of the purchase order was forwarded to you on November 23.

As yet we have not received the account for payment. If you have this in your office I should appreciate your certifying it and forwarding it to the Department for payment. If you have not received the account please write to the Globe Furniture Company, Waterloo, Ont., and arrange to have the account forwarded to you for certification.

A visit to the new 2 class school was made in company with Agent Cyr, and Dr. McLean. The Department deserves credit for this fine building erected in 1939; class rooms are spacious, well lighted and ventilated; the living quarters are also interesting. The cellar is most conveniently used for the heating system installed at the centre, and so providing two large rooms, used as playrooms for boys and for girls on rainy days; the lighting is good, and the cement walls received a coat of aluminum paint which gives a very neat effect. I hope that in the near future we will start manual training for both boys and girls, as this cellar is a most ideal place for such undertaking. Attendance is very satisfactory and school children looked fairly healthy, due no doubt to the regular taking of their Cod Liver oil during the winter months.

I beg to inform you that we are short of desks & seats for 16 pupils at the New Day School, 8 Indian children being of school age since last fall to this spring, have no place, and 8 pupils had to heap up, 3 each by seat, with much inconvenience as to their studies, and complaints from the teachers since 2 months.

Would it be possible to have 8 more double desks & desks furnished in the near future, as they are indispensable so to accommodate the 64 pupils frequenting school at present. A requisition to this effect is attached, which I pray could be filled up.

Mr Secretary.

In answer to Mr Hoy's letter re
8 desks required for Indian Day School, I beg to inform
you that 8 double desks are required to accommodate
the 15 pupils who are obliged to sit two in a single desk
as there are 15 seats short.

There are already double desks & seats in the school, those
from the old school, which were in good order, and
which gives satisfaction.

There is plenty of space in the school rooms for
8 double desks, 5 are requested on class room 2,
and 3 in class room. Though single desks would do, I

The request of 8 double desks & seats is that double
desks would match with the old ones in the rows of desks -
and would probably be less costly to the Branch.

I may say that there are at present 62 pupils frequenting
this school, and a few more will be of school age before long.

The school teachers are anxious to have them all accommodated
in the class rooms - I hope this requisition of desks could
be filled up at Mr Hoy's satisfaction & for the benefit of
the Indian pupils, and the pleasure of the teachers, as they both
want their pupils' good accommodation. I am, Sir, your

Dear Sir:

With reference to your letter of the 27th ultimo, you may expend \$6.00 for making five window screens for the Maria Indian Day School.

The Department does not see the necessity for the construction of a cesspool, as the Surveys and Engineering Branch inform us that the only water is from the kitchen and that as the soil is sandy a cesspool should not be necessary.

We have no funds available for the cost of the gravel which you suggest be placed in the school yard.

Dear Sir:

With reference to your letter of the 30th ultimo the Department regrets that owing to lack of funds it is not possible to consider erecting a wood shed at the Maria Day School.

There is a fuel room in this school which should hold a considerable quantity of wood and if this is kept filled the wood should be dry by the time it is required for the furnace. If the wood is properly piled outside only the top portion would be extremely wet.

School Water

The water supply is nil. The point driven in the sand to a depth of about 13 feet is not giving proper service, it being necessary to pump half an hour to get a pail of water.

Hand dug wells are giving continuous service at most of the Indian homes. I visited a well dug by Jos. Condo across the road from the school. This well is 23 feet deep with a diameter of 4 feet. A similar well, but 5 or 6 feet deeper, could be dug just where the actual point is. A sketch of the proposed well is hereto annexed, and the cost should not exceed \$75.00.

Dear Sir:

In reporting on his recent inspection of the Maria Indian Day School the Inspector of Indian Agencies, Mr. Thibault, again refers to the necessity of digging a well at the school. In this regard he writes as follows:

"The water supply is nil. The point driven in the sand to a depth of about 13 feet is not giving proper service, it being necessary to pump half an hour to get a pail of water.

"Hand dug wells are giving continuous service at most of the Indian homes. I visited a well dug by Jos. Condo across the road from the school. This well is 23 feet deep with a diameter of 4 feet. A similar well, but 5 or 6 feet deeper, could be dug just where the actual point is. A sketch of the proposed well is hereto annexed, and the cost should not exceed \$75.00."

If you can arrange to have a well dug at the Maria School for the amount mentioned by Mr. Thibault, namely, \$75.00, you may proceed with the work at once. I enclose the sketch of the proposed well. This was prepared by Mr. Thibault. Please let me know what action you take in the matter.

Wood Shed

Requisition was previously made, in 1940 and delayed until 1941, for the construction of a suitable shed to protect fuel wood and prevent pilferage. A suitable shed would cost between two and three hundred dollars. So far the two large cement finished rooms in the basement have not been used for the purpose intended, i.e. handicraft for boys and domestic science for girls; such rooms might be partly used for piling furnace wood for the duration of the war, or until such time as funds permit the erection of a wood shed. However, as sisters are going to teach in future it is expected that the said rooms will be utilized for the purpose intended, in which case there remains no alternative but to pile wood, as before, and take a chance that Indians might refrain from picking a few sticks of wood whenever they run short.

Dear Sir:

At the present time, the digging of a well has begun at the Maria Indian Day School. I, as janitor is very much disappointed at not obtaining a few days' work. It seems that Constable Gideon is in charge of the job; why is it that this man gets the advantage of every little job on this Reserve? don't you think it just, that I should have a little work of it also, as, I have a family to support, and every little job that I can earn to help myself. I am always glad of it; and would be very thankful if the Dept. would ask Indian Agent Gyr, ~~for~~

C.W. Jackson, Esq.,

Dear Sir,

Indian Reserve at Maria

Your Department will shortly receive the forms filled out by the Nuns who have been chosen by Mgr. Ross to teach at the Maria Indian Reserve. I am looking after this matter right away.

The agent, Mr. Napoléon Cyr, came to see me a few days ago regarding this. A toilet would have to be installed at the Indian School of Maria. Mr. Cyr is of the opinion that that would not cost very much. He dug a well and installed a pump and the whole work has cost only about \$60. A cesspool would have to be dug and that would probably cost about \$30; a small "reservoir" and a toilet would have to be installed and the whole would cost about \$100 including the cesspool.

I would be obliged if you would give the necessary orders to have that toilet room ready for the opening of the school. Mr. Cyr will do that work for us at a low price.

200 per annum
I would advise you also to give an increase of salary of \$50 per year to Mr. Milton Gédéon, police officer of the Indian Reserve, so that he may look after the work of sending the Indian children to school every day. Mr. Gédéon came to see me also, at the same time as the agent, Mr. Napoléon Cyr. Both of them cooperate for the welfare of the Indians. Mr. Gédéon has acted as policeman in the Reserve since many years and I have heard only praise about him. He is not paid to look after the work of sending the children to school, but he would do so for a small increase of salary and I am sure that if that work were given to him, he would do it honourably.

Hoping that all these matters will be settled before the opening of the school, I remain,

Yours truly,

J. Alphonse Poirier, M.P.,

Dear Mr. Poirier:

I have for acknowledgment your letter of July 28 in which you discuss certain repairs that may be necessary at the Maria Indian Day School.

The officials of the Indian Affairs Branch inform me that it has never been the practice of the Government at any time to construct septic tanks or to provide water closets at Indian Day Schools. The desirability of installing water closets was carefully reviewed at the time the school was constructed and an estimate of the cost secured from the contractor. The lowest cost submitted for the work at that time was \$970.00. The installation of water closets means in addition to the regular plumbing work the construction of a septic tank and the installation of a pressure pump operated by electrical energy or by the utilization of a small gas engine. You can readily appreciate that machinery of this kind requires the utmost care by an experienced caretaker and even when this care is exercised our experience at the larger residential schools has been that the septic tanks are constantly in need of repair.

In view of the Government's policy, therefore, and the fact that no provision was made for this work in the current year's estimates, it will not be possible to even consider undertaking this work. In the meantime, I have been informed by the officials that chemical toilets were installed at the time the school was constructed and that no complaint with respect to these has been received from the teachers by the Department at any time.

I have noted with interest your suggestion that the salary of Mr. Milton Gedeon be increased by \$50.00 per annum. The records here indicate that Mr. Gedeon is paid \$200 per annum for

undertaking the duties of Police Constable on the Reserve. It so happens that we are not at this time paying truant officers on any reserve anywhere in the Dominion. It was the policy of the Department to pay truant officers a small sum on a number of reserves but this policy was discontinued about a year ago. At that time a circular letter was sent out to the constables on reserves and to the teachers in charge of schools asking them to undertake the task formerly undertaken by the truant officers until we had emerged from the critical period through which we are now passing. In view of the work for which Mr. Godeen is responsible at Maria it would be somewhat difficult to justify increasing his salary at this time. However, this is a matter you might wish to discuss with me personally sometime at your convenience.

Cher monsieur Poirier,

J'ai bien reçu votre lettre du 28 écoulé relative à certaines réparations qu'il sera peut-être nécessaire d'effectuer à l'externat indien de Maria.

Les fonctionnaires de la division des Affaires Indiennes n'apprennent que le Gouvernement n'a jamais eu pour pratique de construire des fosses septiques ou d'installer des w.c. aux externats indiens. A l'époque où l'école a été construite, on a obtenu une estimation du coût de l'entrepreneur et la soumission la plus basse était de \$970.00. L'installation de w.c. exige, outre les travaux ordinaires de plomberie, la construction d'une fosse septique et l'installation d'une pompe à pression actionnée par un moteur électrique ou à essence. Vous n'aurez aucune peine à comprendre, j'en suis sûr, que ces appareils doivent être soigneusement entretenus par un préposé qui s'y entend, et même lorsqu'il en est ainsi nous avons constaté par notre expérience aux internats importants que les fosses septiques exigent constamment des réparations.

KTH

En conséquence, vu l'attitude du Gouvernement et le fait qu'aucune somme n'a été incluse dans les prévisions budgétaires de cette année pour ce travail, il nous est impossible de songer à l'entreprendre. Entre temps, les autorités de la division des Affaires Indiennes n'ont appris que des cabinets d'aisance chimiques ont été installés lorsque l'école a été construite et que le ministère n'a jamais reçu de plaintes à leur sujet de la part des institutrices.

J'ai pris note de votre suggestion à l'effet que le salaire de M. Milton Gédéon soit augmenté de \$50.00 par année. D'après les dossiers, M. Gédéon reçoit \$200.00 par année pour accomplir les fonctions de policier sur la Réserve. Je dois vous faire connaître sous ce rapport que nous ne payons actuellement aucun salaire aux officiers d'assiduité sur aucune Réserve au pays. Le ministère avait pour pratique de payer une petite somme aux officiers d'assiduité sur certaines Réserves, mais cette pratique a été abandonnée il y a environ un an. Une lettre-circulaire a alors été adressée aux constables sur les Réserves, ainsi qu'aux institutrices préposées aux écoles, les priant de se charger de la tâche qui incombait antérieurement aux officiers d'assiduité jusqu'à la fin de la période critique que nous traversons actuellement. En raison du travail dont M. Gédéon est chargé à Maria, il serait difficile de trouver une justification pour augmenter son salaire dans le moment. Quel qu'il en soit, je suis à votre disposition si vous désirez discuter cette question personnellement avec moi.

Dear Mr. Poirier:

I have for acknowledgment your letter of July 28 in which you discuss certain repairs that may be necessary at the Maria Indian Day School.

The officials of the Indian Affairs Branch inform me that it has never been the practice of the Government at any time to construct septic tanks or to provide water closets at Indian Day Schools. The desirability of installing water closets was carefully reviewed at the time the school was constructed and an estimate of the cost secured from the contractor. The lowest cost submitted for the work at that time was \$970.00. The installation of water closets means in addition to the regular plumbing work the construction of a septic tank and the installation of a pressure pump operated by electrical energy or by the utilization of a small gas engine. C.W. Jackson, Esq.,
Acting Deputy Minister,
Dept. of Indian Affairs,
Ottawa.

Dear Mr. Jackson,

In connection with your letter of the 5th of August, allow ^{me} to state in answer to the second paragraph that it is not a complete bathroom that we are asking; it is only a request for a water closet that we made. I understand that your contractor had asked \$970 for the complete installation of a bath room; but those contractors always reserve for themselves a large profit. You undoubtedly know that the agent, Mr. Cyr, got installed a good artesian well and a good pump for less than \$75.

Consequently, what we would need now is a water tank, a W.C. and a cesspool. The whole could be had for about \$130 according to the estimates of a plumber of Maria. That amount is far from that of \$970 which you mention in your letter.

At any rate, Mr. Thibaut, your inspector, has discussed that matter fully with the agent, Mr. Cyr.

Would you kindly discuss this case with Mr. Thibaut as soon as he arrives at Ottawa in order that we may get an answer at your convenience.

Yours truly,

J. Alphée Poirier, M.P.,
Bonaventure.

Memorandum: Mr. Hoey.

So far as I can ascertain from our files there was no work done in connection with the putting down of a well and installing a pump in connection with the Maria Agency.

A well was dug at the school, authority of letter of July 11, 1941, signed by Mr. Phelan. The cost of the well and pump was around \$75.00, and I presume this is the well referred in in Mr. Poirier's letter to Mr. Jackson.

Dear Mr. Poirier,

I have for acknowledgment your letter of the 18th instant in which you intimate that the improvements suggested by you at the Maria Indian day school are not likely to exceed a cost of \$130.00.

You can readily appreciate how difficult it is for us to spend even this amount when no provision was made in the current year's estimates. An attempt has been made, however, to purchase the additional equipment and supplies already requested by the Sisters.

I shall be glad, as you suggest, to discuss this matter with Inspector Thibault. The Inspector is at present absent from the office and is not likely to return for several days.

Dear Sir:

A request has been submitted to the Department for the installation of an outdoor toilet in the teacher's residence at the Maria Indian Day School.

We have been advised that the necessary water tank, toilet and cesspool can be installed for an amount not exceeding \$130. It is presumed that the cesspool would be constructed in two weeks.

Please let me know definitely if this work can be done for the amount stated above. If so, the Department is inclined to give favourable consideration to the request. The funds at our disposal will not permit of any larger expenditure.

Dear Sir;

I understand that the Sisters are in need of a transformer for Electricity in the Maria Indian Day School. Myself, at present I am trying to have one also, for I have my new house and store all wired, ready for Electricity.

Therefore, if you agree, I will consent to pay half of the minimum charges per month for a transformer. Since my new house is built and equipped for electricity, I would be glad if the Federal Department ask the Chelms Bay Company, Trois-Rivières, to put a transformer at the school. I will get my house and store on the same transformer.

May I request an answer in the nearest future.

SCHOOL

The new well is completed except for the setting of the force pump and valve, which are expected to arrive any day.

Two nuns arrived at the school on August 11th.

They were preparing a requisition for the domestic course as well as some tools for the boys' manual training.

A wood shed is needed to protect the furnace wood from ice and snow. There is very little space to store wood in the furnace room. When wood has to be carried in iced and wet, it is very dirty and heating is not so good.

While I was there, an estimate was prepared by a dependable person for the construction of suitable wood shed, back of the school :

Size - 18'X24' x 8' post wall

Roof - shingles

Sides - Clapboard-with door and lock

Foundation - Concrete, 1' above ground

Paint - All outside woodwork

Estimated cost \$275.00

Dear Sir:

When Mr. Thibeault was here in August, I discussed with him the matter of building a wood shed. As you know, the wood is always full of snow and last winter some wood was stolen. For these reasons, I told Mr. Thibeault that a shed was urgently needed. He asked me to submit a price for the construction of such a shed and I did. He must have referred the matter to the Department. I wish to repeat that a wood shed is greatly needed and if the Department decides to have one built, I would like to have your instructions before the cold weather sets in.

Dear Sir:

In reporting on his recent inspection of the Maria Indian Day School Inspector Thibault recommends that a plot of ground be ploughed this fall in order that a school garden may be cultivated during the summer of 1942. I am informed that you are aware of the ground which the Inspector considers should be used for garden purposes and you should arrange to have it ploughed immediately.

You may also arrange with Mr. Arsenault for the construction of a large table for the girls' work room, also a cupboard in the basement. The total cost of these two articles of equipment should not exceed \$25.00.

Yours truly,

R.A. Hoey,

SCHOOL

The attendance appears to have improved considerably this year.

The Sisters are preparing to start their course in domestic teaching; a new sewing machine arrived on the day of my visit, and it was most welcomed.

A cesspool was under construction and toilet supplies are expected to arrive for installation within a few days.

The supply of fuel wood had already been delivered and piled on the grounds back of the school; quality of the wood is very good.

As a means of practical teaching of gardening, I recommend this Fall, the ploughing of a corner of the school ground. This will not interfere with playing, as there is plenty of ground left for that purpose. From the Highway fence, twenty feet wide and a depth of about seventy feet along the side fence, will, in my opinion be a good start and the expense light. The purchase of a few garden tools is also recommended for next Spring.

Regarding domestic science, in the girls' room, I have recommended a cupboard to be built, with shelves, to lock away all sewing materials, supplies, etc., as no such provision had been made when the building was erected; a table, about ten feet long by three feet wide is needed to cut cloth and to make over any clothing from army supplies which are being sent to the Agency. The Sisters are most anxious to teach the girls how to make over such clothing.

While I was there, the Agent received permission to purchase chairs for the girls' room in the basement of the school.

May I hope that the Department will approve my recommendations above:

Ploughing of school garden, this Fall
Large table for girls' work room (estimated \$10.)
Cupboard in basement (estimated \$15.)
Garden tools for pupils' garden

Agent told me that a requisition was sent about two months ago for rubbers for school children, wool for knitting, etc., but to date, none of these supplies had been received.

Chief Abraham Martin and a few others, complained that they were not on the fuel wood list; they were told to clear up the old wood lot where, I was informed, there remains from 65 to 75 loads of wood which could be cut.

I was also informed that our order for 120 cords of 43" slabs, would start to be delivered to Indians whose names are on the list recommended by the Inspector and approved by the Department.

Dear Sir:

The Department finds it necessary to return your voucher for \$143.59 issued in favour of Louis Quellan.

In your letter of September 4 you stated definitely that the necessary installations could be made at a total cost of \$130.00. You now submit a voucher for \$143.59 and you should explain fully why you exceeded the authority given to you.

In reviewing the voucher it is noted that payments were requested for Edgar LeBlanc and Baptiste Jerome. As the voucher is issued in favour of Quellan it will be necessary to attach receipts to it from the two men just mentioned before payment of the total amount can be considered.

The Secretary.

Dear Sir:

I have to inform you that the cost of the work done in the basement of the school exceeded the estimate prepared by Mr. Thibeault. It was necessary to build a cupboard 8 feet wide and the full height of the basement and, in addition, a table 8 feet long by 3 $\frac{1}{2}$ wide, with drawers. The sum of \$25.00 was insufficient to buy lumber and paint and to pay for the labour. I enclose the account herewith.

Dear Sir,

I am returning Mr. Ouillon's vouchers with receipt, as requested. The cost exceeded slightly the estimate for the reason that prices of commodities have increased by 20%, which had not been taken into account when the estimate was prepared. It was impossible to do better. I trust that this will be found satisfactory and that you will pay the account immediately.

ACTING DEPARTMENTAL PURCHASING AGENT

I attach account amounting to \$143.59 covering the cost of the installation of a water tank, toilet and cesspool at the Maria Indian Day School. It would be appreciated if you would issue purchase order for the amount of \$97.69 which covers the cost of the material that was required to do this work.

When the Maria School was built three years ago a water tank, cesspool and toilet were not installed. Recently we have appointed Nuns in charge of this school and both the Indian Agent and Inspector Thibault recommended that this new installation be made at once. J.A. Poirier, Esq., M.P., was also very much interested in the matter. In this regard I would refer you to Mr. Jackson's memorandum of August 22 and our reply of August 27.

Memorandum:

ACTING DEPARTMENTAL PURCHASING AGENT

I attach account amounting to \$143.59 covering the cost of the installation of a water tank, toilet and cesspool at the Maria Indian Day School. It would be appreciated if you would issue purchase order for the amount of \$97.69 which covers the cost of the material that was required to do this work.

When the Maria School was built three years ago a water tank, cesspool and toilet were not installed. Recently we have appointed Nuns in charge of this school and both the Indian Agent and Inspector Thibault recommended that this new installation be made at once. J.A. Poirier, Esq., M.P., was also very much interested in the matter. In this regard I would refer you to Mr. Jackson's memorandum of August 22 and our reply of August 27.

Dear Sister:

From Mr. Doucet's report it is noted that you are using a stove in the basement in order to teach domestic science. So many schools have been destroyed by fire that I thought it advisable to point out to you that every possible precaution should be taken in using this stove so that there will be no chance of any damage being caused to the Maria School.

Yours truly,

Dear Sir:

I have your letter of the 31st ultimo in which you report that the well at the Maria School is dry. It is regretted that this condition has arisen, although it is probably due to an excessive use of water. It is possible that within the next week or so the well may refill.

In the meantime I suppose it will be necessary for you to arrange to have water carried for the use of the school and teachers' residence. It is understood, of course, that you will only arrange for transporting the water absolutely necessary and the cost should be kept as low as possible. You should advise me immediately the approximate weekly cost of this service.

You might also let me have an estimate of the cost of deepening the present well in the spring.

Yours truly,

R.A. Hoey,

In reply to your letter of the 7th instant you may expend an amount not exceeding \$12.00 in providing a cupboard at the Maria Indian Day School.

During the present fiscal year we have already expended more than was originally intended and consequently it will not be possible to consider any further expenditures for repairs, improvements or purchase of new equipment at this school during the balance of the current fiscal year.

Dear Sir:

With reference to your letter of the 11th instant the Department approves the arrangement you have made to have water carried to the Maria School at a cost of \$5.00 a month. As soon as the weather is fine you should ascertain the cost of deepening the present well. This information should be forwarded to the Department for our consideration. No action toward digging a well should be taken until you receive specific instructions to do so.

To the Secretary
Indian Affairs Branch

sch

Kind Sir;

I think it quite advisable to acquaint you with the fact that water is wanting since a while at our Indian School here. To tell the truth, the well and pump have given very little satisfaction if any - that I know of -

The well is shovel-worked; and in spite of the devoted janitor's efforts every day at the pump, very little water mixed with ground and sand, therefore not drinkable, can be drawn -

Mr. Coy - our Agent - with another man worked at it without success - Money spent at a loss -

Our janitor is a very honest and devoted man; he worries over his unsuccessful attempts; and for his small salary (\$10.00) a month - he has a good deal to do. If he would get discouraged,

it should be something to repent for -

I am appealing to you, kind Sir, not only on account of the constant daily need of water there is in a school and at the teacher's residence, but especially for the sake of safety - As it is what could we do in case of fire? I feel very uneasy sometimes and justly so - - - Electricity power so near us would settle the matter - and others: - - - If you could only see how tiring on the children's eyes sewing in the basement

I trust you will kindly take the responsibility of the matter and better the situation as soon as possible -

With hearty anticipated thanks

I beg to remain

Kind Sir -

Respectfully Yours -

Dear Madam:

With reference to your recent letter, I have already been in communication with the Indian Agent regarding the shortage of water and he has been authorized to employ men to carry water for the next few weeks. He has also been directed to obtain prices on deepening the well. When he submits these prices to this office the matter will receive further consideration.

Regarding the latter portion of your letter, I may say that it is not our practice to install electricity in day schools.

Dear Sir:

The Department finds it necessary to return the following vouchers:

1. Voucher for \$15.00 in favour of J.B. Jerome. This covers his services both as janitor and for carrying water. Separate vouchers should be forwarded for these services. I enclose vouchers which you should sign and return and vouchers for these services should be prepared in a similar manner in future.

You attached to this voucher a receipt for a coffin made by J.B. Jerome. A separate voucher should be forwarded for this work and the receipt attached to it.

2. Voucher for \$5.75 issued in favour of M. Guite. The voucher should show the exact nature of the work that was done. Material costing \$4.50 was apparently purchased from J.B. Jerome but as the voucher is issued in favour of Guite it will be necessary to have this account receipted before payment can be made to the latter.
3. Account of \$6.45 from E.R. Cyr. This account should be attached to proper voucher forms.
